A wildlife-friendly oasis....

The Lewiston Wildlife Habitat Area is a wildlifefriendly oasis located within the city limits.

Registered with the National Wildlife Federation as a "Backyard Wildlife Habitat Area," the five-acre area provides an excellent setting to observe wild birds, mammals and aquatic creatures. A one half-mile, paved path meanders through meadows and a small forest with a variety of trees and shrubs. Deer, coyote, raccoon, rabbit, skunks, amphibians, reptiles, and as many as 115 bird species have been observed here.

Fly catchers, American Kestrel, California Quail, Ring-necked Pheasant and numerous species of warblers and finches are common. Unusual sightings include Northern Saw-whet Owl, Cinnamon Teal, Wood Duck, Sora Rail, Spotted Sandpiper, Blue Jay, Harris' Sparrow, Northern Bobwhite and Lazuli Bunting.

This area is disabled accessible. Only wheelchairs and walking are allowed — pets, bicycles and skateboards are not.

Open anytime to self-guided tours, quiet visits to observe nature or relaxation, this area was made for wildlife with you being a temporary visitor.

Driving Directions

- From the north side of Lewiston, follow U.S. Highway 12 across the bridge over the Clearwater River, stay in the left lane and head up 21st Street at the stoplight.
- Follow 21st Street (also called Thain) south up the hill to the 10th Street stoplight.
- Take a left turn at this stoplight and then an immediate right turn on Warner Avenue. Travel 1.5 miles on Warner Ave. to the end of the road.
- The area is on the right, 100 yards before the end of the Warner Ave. Parking is available on a graveled area bounded by a rail fence, including a paved handicap parking space.

For guided tours or for information, contact Lewiston's Fish and Game office (208) 799-5010

Checklist

The Lewiston Wildlife Habitat Area has become a great, yet little known, bird viewing area in the Lewiston-Clarkston Valley. 115 species of birds have been observed here.

Owned by the Idaho Department of Fish and Game, the five acre area contains a diversity of trees, shrubs, grasses, flowers, food plots, stream, and pond, making it an ideal birding area. An observation shelter with oneway glass provide an extra close view of the birds. A key is available at the Fish and Game office adjacent to the habitat area.

Enclosed is a list of birds observed here. We welcome additional species you see. Let us know and we will add them to the list.
