Boise, Idaho 83707

Brad Little / Governor  
Jim Fredericks / Director

TO: Collaborators who utilize the Conservation Planner

FROM: Angie Schmidt, IFWIS Program Manager, Idaho Department of Fish and Game

DATE: 9 May 2024

RE: Scheduled Updates to the Conservation Planner

This is an informational message since you are identified as a person who utilizes our online [Conservation Planner](#) application. We will be updating this application by Monday June 3<sup>rd</sup> to reflect the current SWAP species as identified in the recently approved [State Wildlife Action Plan](#) (SWAP). Please share this communication to those you know utilize the Conservation Planner.

The items described below will be updated.

### Species Occurrence Filtering and Species List Section

- The Target Species checkbox will be removed (not applicable to the current SWAP)
- The SWAP species list has changed and now identifies Species of Greatest Conservation Need and Species of Greatest Information Need (SGIN). Please refer to [SWAP Appendix 5](#): page 343 for a complete species list. The SGCN Status: filter will be renamed to 'SWAP Species' with the options SGCN or SGIN.

**Species Occurrences**

The Idaho Species Diversity Database is the most comprehensive repository for site-specific data on the gem state's fish, wildlife, and plant diversity. This data is maintained by the Idaho Fish and Wildlife Information System under the stewardship of the Wildlife Diversity Program at Idaho Fish and Game.

Category:  ☐ ESA species only

☐ Observed (👁) species only ☐ Target (🎯) species only SGCN Status:

State Conservation rank:

removed

Change to 'SWAP Species' with filter categories 'SGCN or SGIN'

- The species list section will be renamed 'SWAP Species'

**Species of Greatest Conservation Need**

The Idaho Species Diversity Database is the most comprehensive repository for site-specific data on the gem state's fish, wildlife, and plant diversity. This data is maintained by the Idaho Fish and Wildlife Information System under the stewardship of the Wildlife Diversity Program at Idaho Fish and Game.

Category:  ☐ ESA species only

☐ Observed (👁) species only ☐ Target (🎯) species only SGCN Status:

State Conservation rank:

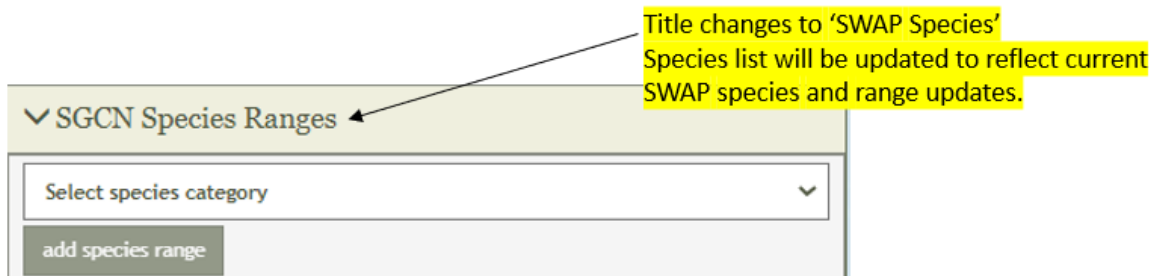

The wording will change in this section to 'SWAP Species'

**Species**  
left side layer display section

**Ranges**

*Keeping Idaho's Wildlife Heritage*

The ranges displayed within the SGCN species ranges section will be updated to reflect currently reviewed and accepted ranges for SWAP. The title of the Section will be changed to 'SWAP Species'.

#### **State Wildlife Action Plan left side layer display section**

This will be removed at this time, but may reappear at a later date with pertinent SWAP related layers.
