

Turkey General Information

Youth Hunts for Turkeys

A hunter must be 10 to 15 years of age to hunt in the general season youth hunt (April 8-14, 2014 and 2015). A hunter applying for a controlled hunt open to youth only must be 10-15 years of age on the opening date of the hunt for which they are applying. All youth hunters must be accompanied by a licensed adult 18 years of age or older who must be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.

Youth ages 9-11 may purchase a junior hunting license and then purchase a turkey tag and/or apply for a controlled turkey hunt, but they may not hunt until they are 10 years of age.

Tag and Permit Requirements

No person may hunt wild turkey without having in his or her possession the appropriate hunting license, general tag, extra tag, special unit tag and/or a controlled hunt permit.

A hunter may harvest as many turkeys as they have legal tags for that given year. There are three types of turkey tags available. Two turkey tags - one general and one extra tag - may be purchased for the spring turkey season before May 26. The waiting period for use of the extra tag has been eliminated. Special Unit Tags may be purchased at any time.

- General Tag (one tag per person per year)
- Extra Tag (two tags per person per year)
- Special Unit Tags (three tags per person per year)

A hunter may use the general tag to hunt in any spring general season and also use this tag with a controlled hunt permit to hunt in a controlled hunt. A second spring bird may be taken with the extra turkey tag. If the general tag or extra tag is not filled during the spring hunt, then that unused tag can be used in a fall general hunt or fall controlled hunt.

The spring and fall controlled hunt permits are valid only for specific areas and seasons as designated by hunt number (pages 30 - 31). A turkey hunter **must** have a spring controlled hunt permit and a valid tag to hunt in a spring controlled hunt. A turkey hunter may only harvest one bird per controlled hunt permit.

A special unit tag may be used during general fall seasons in Units 1, 2, 3 and 5. A special unit tag is also valid for any designated turkey depredation hunt.

- The tag must remain attached as long as the turkey is in transit or storage.

The general tag is valid for spring and fall seasons. It can also be used during spring or fall controlled hunts with the purchase of a controlled hunt permit. If the general tag is not used to harvest a turkey in the spring it may be used in fall seasons.

The extra tag is the second tag available in the spring. It is valid for spring general hunt seasons and may be used during fall general or fall controlled hunt seasons.

The special unit tag is valid for the fall season in Units 1, 2, 3 or 5. The special unit tag is also valid for any designated depredation hunt during the calendar year.

Two turkey tags - one general tag and one extra tag - may be purchased for the spring turkey season before May 26.

Wild Turkey Distribution

Shaded areas indicate general wild turkey distribution in the primary units open to wild turkey hunting.

Wild turkeys are not native to Idaho; but were first transplanted here in 1961. Since then, more than 150 translocation efforts have been conducted statewide.

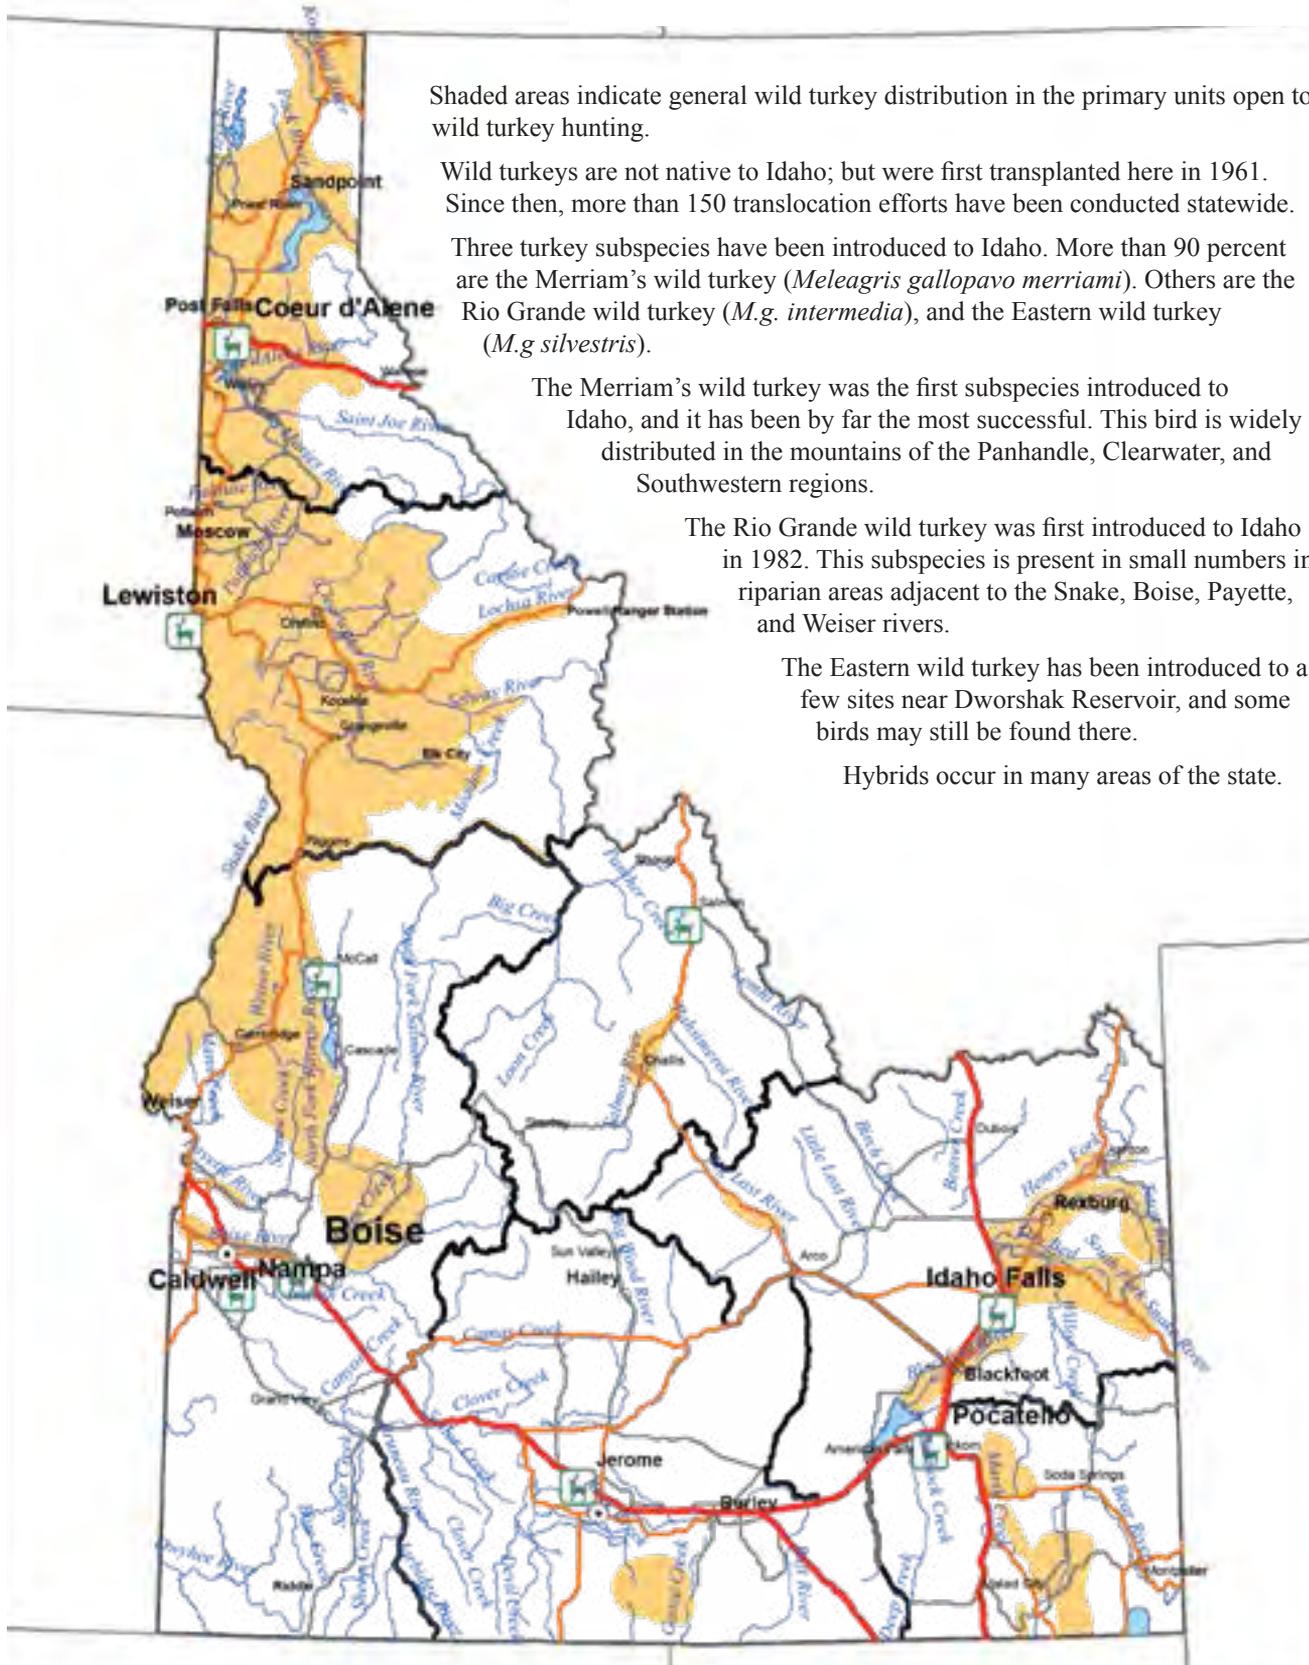

Three turkey subspecies have been introduced to Idaho. More than 90 percent are the Merriam's wild turkey (*Meleagris gallopavo merriami*). Others are the Rio Grande wild turkey (*M.g. intermedia*), and the Eastern wild turkey (*M.g. silvestris*).

The Merriam's wild turkey was the first subspecies introduced to Idaho, and it has been by far the most successful. This bird is widely distributed in the mountains of the Panhandle, Clearwater, and Southwestern regions.

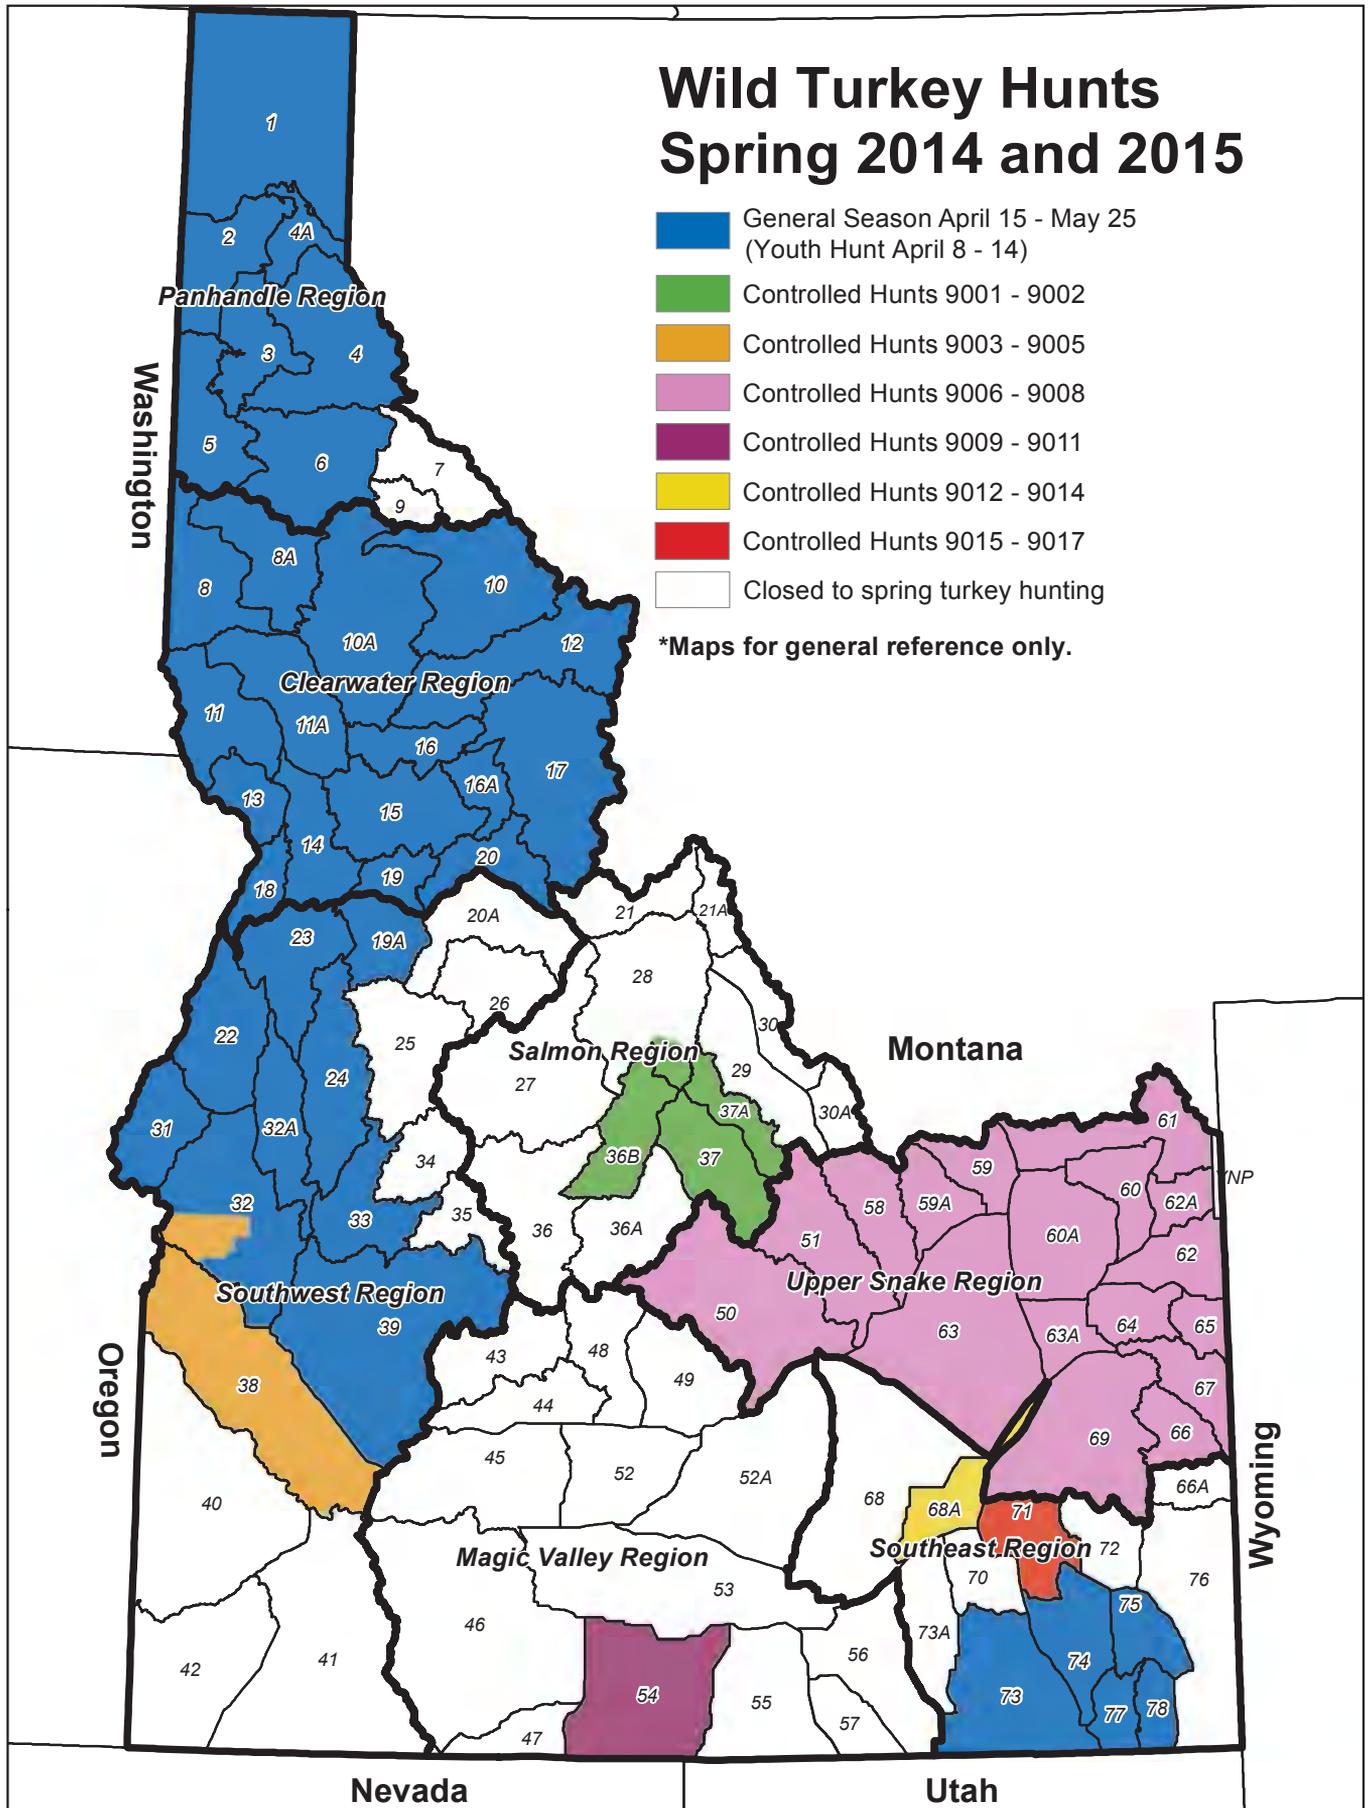

The Rio Grande wild turkey was first introduced to Idaho in 1982. This subspecies is present in small numbers in riparian areas adjacent to the Snake, Boise, Payette, and Weiser rivers.

The Eastern wild turkey has been introduced to a few sites near Dworshak Reservoir, and some birds may still be found there.

Hybrids occur in many areas of the state.

Turkey Identification and Safety Tips

Heads

- **Hen:** Scattering of short black velvety hair-like feathers. Head smaller and blacker than toms.
- **Tom:** Head bald with narrow band of feathers up the back of neck. Colors bright reddish-blue in spring.

Evidence of Spurs

- Spurs on toms.
- Very small or absent on hens.

Beards

Beards up to 10 inches long are present on the breasts of mature toms. Beards are generally absent on hens.

Turkey Hunting Safety and Ethics

1. Positively identify your target.
2. Assume every noise and movement is another hunter.
3. Never stalk a turkey or turkey sound.
4. Don't wear red, white, or blue.
5. Protect your back.
6. Shout "Stop" to alert approaching hunters.
7. Make your position known to other hunters.
8. Preselect a zone of fire.
9. Choose safe, ethical hunting companions.
10. Practice courtesy and self-control at all times.

All ethical wild turkey hunters support a series of rules that make wild turkey hunting the quality experience it can be. Following these rules will not only help maintain healthy flocks of wild turkeys in Idaho, but will also add to the challenge and excitement that is wild turkey hunting.

- Do not disturb nesting hen turkeys or their nests.
- Though it is legal (during legal hours) to shoot a tom out of a roost tree, this practice is unacceptable among most sportsmen.
- If you hear another hunter calling a bird, allow that hunter to continue undisturbed and leave the area.
- Ask first to hunt on private land.

Special controlled hunts (not listed in these rules) are sometimes used to relieve game damage problems. If these hunts are needed, they will be held on short notice, involve small areas, and be limited to a few hunters.

How Can I Participate? If you are an Idaho resident, with a valid hunting or combination license, fill out the form on this page and mail it to the regional office in the area(s) you are willing to hunt. (You may photocopy this form if necessary.)

All applications received from May 1 to June 30 will be placed in random order. All applications received after June 30 will be placed at the end of the list in the order received. The list will be valid from July 1 to the following June 30.

What Are My Chances of Drawing A Depredation Permit? Most regions issue only a few depredation permits each year.

Special Unit Tags

A Special Unit Tag is valid for the fall season in Units 1, 2, 3 or 5. The Special Unit Tag is also valid for any designated depredation hunt during the calendar year.
