

## Idaho Department of Fish & Game

### *Statewide DEER Proposals for the 2019 - 2020 Big Game Seasons*

---

#### **Panhandle Region**

##### WHITE-TAILED DEER

- Address depredations around private agricultural fields
  - Redefine X-Tag hunt area description from within one mile of private land to on or within one mile of a private agricultural field
  - No change from original proposal

##### MULE DEER

- Reduce harvest of mule deer bucks to address public concerns about population decline in Unit 1 by reducing season length to Nov 20 (from Dec 1) on the Regular Deer Tag
  - Original proposal was no change from 2018 season, however public desire to reduce mule deer buck harvest prompted new proposal

#### **Clearwater Region**

##### WHITE-TAILED DEER

- Reduce extra antlerless tags and season dates to address perception of population decline
  - Proposal supported by public during the public input periods
- Create new late (Dec 5-20) archery hunt in Units 13 and 18 to provide new opportunity
  - Eliminated proposal due to lack of public support during the public input periods

##### MULE DEER

- Reduce antlered and antlerless controlled hunt tags in Units 11, 13, and 18 in response to 2019 aerial survey results
  - Proposal supported by public during the public input periods

#### **Southwest Region**

##### MULE DEER

- Unit 32 extra antlerless deer hunts
  - Original proposal was to convert these to LPH extra antlerless hunts
  - Public disapproved of converting more hunts to LPH hunts
  - New proposal removes these hunts altogether. Depredations will be addressed on a case-by-case basis.
- Unit 39 youth either sex hunt
  - Proposal is to extend end date to Oct 31 to align with general season.
  - 2018 aerial survey results indicate the population will support additional harvest.
  - No change from original proposal
- Unit 39 either sex controlled hunt
  - Proposal is to increase tags from 500 to 1,500 and to extend the boundary to include Unit 43.
  - Some comments indicate public concern about the significant increase in either sex tags. However, 2018 aerial survey results indicate the population will support additional harvest, and additional harvest will contribute to herd health and maintain population growth rate
  - No change from original proposal

# ***Statewide DEER Proposals for the 2019 - 2020 Big Game Seasons***

## **Magic Valley Region**

### **MULE DEER**

- Proposed changes focus on stabilizing the growing Smoky-Bennett Population Management Unit (PMU) deer population to a level commensurate with sub-optimal winter range through expanded antlerless hunting opportunities. Proposed changes in other PMUs are intended to 1) maintain current mule deer populations, season structures, and opportunities and 2) address depredation concerns on private agricultural land.
  - No change from original proposal

## **Southeast Region**

### **MULE DEER**

- Youth Antlerless Opportunity
  - Add Oct 10-16 youth-only antlerless general season back to some units
  - Reduced youth antlerless season dates from Oct 10-24 to Oct 10-16
  - Aerial survey data, increased severity of winter, and public comment concerns led to modifications to the original proposals
- Extend season length and reduce non-resident hunters in Unit 73 Unlimited Controlled Hunt
  - Limit non-resident hunters to 15% (240 tags) of total hunters, down from 35% and extend season length by 8 days.
  - No change from original proposal

## **Upper Snake Region**

### **MULE DEER**

- Eliminate all either-sex controlled hunts in Units 66 and 69 as a result of 2019 aerial survey results indicating significant population decline, decrease in number of 4-pts in harvest, negative impacts to historic winter range, and lower than average fawn survival 2 out of last 3 winters
  - In response to public input the proposal was changed to:
  - A 50% further reduction in all either sex hunts except Units 66 and 69 where all either sex hunts will be eliminated
  - Change all youth antlerless opportunity to one week (Oct 10-17), except Units 66 and 69 where all youth antlerless harvest will be eliminated
  - A 75% reduction in antlerless controlled hunt tags in hunt area 60-1
  - A 50% reduction in the late season Controlled Antlered Hunt tags in Units 66 and 69

## **Salmon Region**

### **MULE DEER**

- Add Unit 37 back into Muzzleloader Controlled Hunt Area 29-1
  - Eliminated proposal due to lack of public support and concerns with overharvest of bucks

Outfitted Allocation controlled hunts:

**Before submitting an application for an outfitter-allocated controlled hunt, hunters must have a written agreement with an outfitter licensed in the hunt area.** Successful applicants must hunt with an outfitter licensed for the hunt area. The outfitter must purchase the hunter's tag by August 20. Successful applicants authorize Idaho Fish and Game to provide names and addresses to the outfitters licensed for that controlled hunt. For a list of licensed outfitters in the applicable controlled hunt area, a sample written agreement, and additional information contact the Idaho Outfitters and Guides Licensing Board at: [oglb.idaho.gov](http://oglb.idaho.gov) or by calling 208-327-7380.
