*A property owner may
revoke permission at any time.*

Know Idaho's Trespass Law

All persons must have written permission, or other lawful form of permission, to enter or remain on private land to shoot any weapon or hunt, fish, trap or retrieve game.

A person should know land is private and they are not allowed without permission if:

- The property is associated with a residence, business
- Or, it is cultivated
- Or, it is fenced or enclosed in a way that delineates the private property
- Or, it is unfenced and uncultivated, but is posted with conspicuous “no trespassing” signs or bright orange/fluorescent paint at all property corners and boundaries where the property intersects navigable streams, roads, gates and rights-of-way entering the land and posted in a way that people can see the postings.
- Any person must leave private property when asked to do so by the owner or agent.

Note— It is illegal for anyone to post public land that is not held under an exclusive control lease. Private posting at navigable streams shall not prohibit access to navigable streams below the high-water mark as allowed by Idaho law.

Director Jim Fredericks' letter to the hunters and trappers of Idaho

Upland game is among Idaho's most varied and accessible hunting opportunities. Whether it's the thrill of calling a gobbling tom turkey in the spring, flushing a forest grouse in the timber during fall, or hiking rocky ridgelines and wide-open spaces for chukars, Idaho gives you a variety of birds and small game with long seasons to pursue them.

Idaho's public lands provide a wealth of opportunities, including forest grouse, sage-grouse, chukar, turkeys, quail, and small game mammals. Those are great opportunities to introduce young or new hunters to the sport because all you need is a decent pair of hiking shoes and a shotgun or .22 rifle.

Idaho offers some of the best—and most diverse—turkey hunting opportunities in North America. Whether it be a morning hunt on farmland, or a multi-day hunt in the backcountry, we've got it. In addition to spring hunting for male (or bearded) turkeys, we have plenty of either-sex fall hunting opportunities, including units where multiple tags can be purchased to harvest turkeys that are causing problems to landowners.

What makes turkey hunting particularly special, for me anyway, is that it's great for seasoned and beginning hunters alike. Having spent dozens of spring mornings

in pursuit of gobblers with my own sons, I know first-hand what a great opportunity turkey hunting is for new and beginning hunters! Though technically upland game, turkey hunting has a "big game" feel to it. For a new hunter, turkeys are the perfect bridge from small game to big game.

As we enjoy the multitude of upland game opportunities on public land in Idaho, let's not forget that much of the success and management of our upland game hunting relies heavily on private land. As both a hunter and director of the Idaho Department of Fish and Game, I thank the many landowners and agricultural producers across the state who make their lands an inviting place for wildlife.

One of biggest mistakes we can make as hunters is to take private lands for granted – whether it be public access or simply the value to wildlife. We encourage all hunters to maintain positive relationships with landowners, whether a rural farmer who owns a dozen acres of prime habitat, or large-scale corporate timberlands that provide access to thousands of acres. We all need to do our part, and hunters should show their respect and appreciation by always hunting in an ethical manner.

Finally, we want to give a shout out to our trappers, or for those who aspire to become one. Trapping has occurred in Idaho long before statehood, and it's a rich tradition that continues. Trapping is an enjoyable and challenging activity that includes learning the behaviors and habits of various furbearers, as well as gathering beautiful – and potentially lucrative – pelts. The skill and knowledge of trappers provides them with the unique ability to help non-trappers manage nuisance animal issues.

If you live here, or are enjoying a visit to Idaho from another state, I hope you'll take the opportunity to enjoy the outstanding upland game resources that Fish and Game manages on behalf of hunters, trappers and all Idahoans.

Jim Fredericks, Director
Idaho Fish and Game

Idaho Department of Fish and Game

Idaho Wildlife Policy

"All wildlife, including all wild animals, wild birds, and fish, within the state of Idaho, is hereby declared to be the property of the state of Idaho. It shall be preserved, protected, perpetuated, and managed. It shall be only captured or taken at such times or places, under such conditions, or by such means, or in such manner, as will preserve, protect, and perpetuate such wildlife, and provide for the citizens of this state and, as by law permitted to others, continued supplies of such wildlife for hunting, fishing and trapping."

What's New?

Upland Game

- Standardized statewide quail, chukar and gray partridge seasons, see pages 7-8.
- Extended sharp-tailed grouse season, see page 10.
- Standardized statewide pheasant seasons, see pages 11-12.

Wild Turkey

- Expanded general spring and fall wild turkey seasons by adding game management units to general season hunts, see pages 22-23.
- Modified spring and fall controlled hunts to provide additional hunting opportunity, see pages 24-25.

Trapping

- Extended seasons for beaver, mink, and muskrat in the Panhandle, Clearwater, Southwest, and Magic Valley Regions, see pages 31-32.
- Changed the opening date for beaver, mink, muskrat, and river otter in the Southwest Region, see page 31.
- Removed stream closures for beaver trapping in the Clearwater, Southwest and Magic Valley Regions, see pages 31-32 for updated exceptions to beaver trapping.
- Increased river otter quotas in the Clearwater, Southwest, and Upper Snake Regions, see page 33.

Changes and Corrections

Seasons and rules may change after a booklet is printed.

For the most up-to-date information, including changes and corrections to the Idaho Upland Game, Turkey & Furbearer 2026 & 2027 Seasons and Rules, visit our website at idfg.idaho.gov/rules/upland.

Turkey Controlled Hunt Application Dates:

- Spring hunt application period: February 1 - March 1
Results available by March 20
- Fall hunt application period: May 1 - June 5
Results available by July 10

FOREST GROUSE: DUSKY (BLUE), RUFFED, AND SPRUCE

AREA 1

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, and Shoshone counties, and Adams and Idaho counties, *except* those portions in game management units 19A, 20A, 22, 23, and 26.

2027: August 30, 2027 through December 31, 2027

Daily Bag Limit..... **4 in the aggregate**

Possession Limit **12 in the aggregate**

Forest Grouse

Distribution and Habitat Use: Shaded areas show general distribution of these species. Idaho's three species of forest grouse are all native to the state. In northern Idaho, ruffed grouse are the most common forest grouse. Good populations are also found in the mountains of central and eastern Idaho and southeastern Idaho west to the Sublett Mountains. Riparian habitats and other moist mountain brush areas are commonly used by these birds. Dusky (blue) grouse are more common than other grouse in most southern Idaho mountains. They favor high elevation sagebrush and mountain shrub areas for nesting, springs and stream banks for rearing young, and rely heavily on Douglas fir for fall and winter food and cover. The sparsely-distributed spruce grouse is found in dense conifer forests, generally from the Salmon and Payette river drainages north.

Spruce Grouse © M. Leonard /Adobestock

Blue grouse are now known as Dusky grouse

CALIFORNIA AND BOBWHITE QUAIL NO SEASON ON GAMBEL'S AND MOUNTAIN QUAIL

STATEWIDE

Seasons

2026 – 2027: September 15, 2026 through January 31, 2027

2027 – 2028: September 15, 2027 through January 31, 2028

Daily Bag Limit..... **10 in the aggregate**

Possession Limit **30 in the aggregate**

Quail

Distribution and Habitat Use: Shaded area shows general distribution of California quail. There are three introduced and one native species of quail in Idaho. The California (valley) quail, which occurs from Twin Falls west to the Oregon border and north to the Palouse Prairie, is the most common. Good populations live along rivers, streams and other areas of abundant water and brushy cover below about 3,500 feet elevation.

The bobwhite quail was introduced to Idaho in the 1880s and occurred in agricultural areas of the Boise Valley. Today bobwhite are rare.

The season is closed on Gambel's quail. The Gambel's quail was introduced near Salmon in 1917, and a population still exists there.

The season is closed on mountain quail. This quail, a native bird, exists in small, scattered populations in dense mountain brush fields usually associated with riparian areas. It is rare in the mountains from Boise to Bennett Mountain, the Owyhee Mountains, and along the Little Salmon River, Main Salmon River and lower Snake River. Mountain quail have been reintroduced into historical habitat on Craig Mountain WMA (Nez Perce and Lewis counties), and in Elmore and Gooding counties. If quail are encountered, hunters are cautioned that there is no open hunting season for mountain quail in Idaho.

California Quail

MOUNTAIN QUAIL SIGHTINGS WANTED!

Mountain quail were once common in the western part of Idaho, but now only exist in small scattered populations.

The Idaho Department of Fish and Game needs your help to determine the status and distribution of these birds.

Please report any sighting you make as soon as possible to your nearest Fish and Game office.

What to Look For

- Long straight head plume
- Chestnut throat (not black like California quail)
- Vertical white bars on sides
- Most common on brushy mountain slopes or in brushy forest

California Quail © Georgia Wilson

CHUKAR AND GRAY PARTRIDGE

ENTIRE STATE OPEN

STATEWIDE

Seasons

2026 – 2027: September 15, 2026 through January 31, 2027
 Daily Bag Limit..... **8 Chukar & 8 Gray Partridge**
 Possession Limit **24 Chukar & 24 Gray Partridge**

2027 – 2028: September 15, 2027 through January 31, 2028
 Daily Bag Limit..... **8 Chukar & 8 Gray Partridge**
 Possession Limit **24 Chukar & 24 Gray Partridge**

Chukar

Distribution and Habitat Use: Shaded areas show general distribution of chukar partridge. This species was introduced into Idaho from Asia. They are common in suitable habitat along the Salmon, Snake and Boise rivers, and along other river drainages of southern and central Idaho up to an elevation of about 5,000 feet. Chukar habitat consists of steep, rocky canyons with grassy and brushy vegetation.

Chukar

Gray Partridge

Distribution and Habitat Use: Shaded areas show general distribution of gray partridge. Gray partridge, another introduced species, are widely distributed, and can be found in agricultural regions, as well as in sagebrush/grassland areas. They are hardy birds able to withstand severe winter weather if adequate food is available.

Gray Partridge

Gray Partridge © Ken Archer/Danita Delimont

A separate brochure will be available at idfg.idaho.gov/hunt/sage-grouse and in printed form after seasons have been set in July. Sage-grouse tags will be available for purchase at 10:00AM Mountain Time (MDT) on August 3, 2026 (2026 season) and August 2, 2027 (2027 season), on a first-come, first-served basis until tag quotas are reached.

Sage-grouse requirements: Any person hunting sage-grouse must have in possession a hunting license with a sage-grouse tag. See page 46.

Sage-grouse

Distribution and Habitat Use: Shaded areas show general distribution of this species. This native grouse is widely distributed in areas with large blocks of sagebrush habitat throughout southern Idaho. Sagebrush is a crucial winter food for sage-grouse and also provides them with nesting and roosting cover during the rest of the year. Wet places, including agricultural lands, are important feeding areas for hens with chicks and are heavily used by sage-grouse during the fall in dry years.

IDENTIFY YOUR TARGET
Is it a sage-grouse or
a sharp-tailed grouse?

Note: Sharp-tailed grouse have been re-introduced into historical range in southern Twin Falls County and southeastern Owyhee County. Twin Falls County, Owyhee County and most of Cassia County are closed to sharp-tailed grouse hunting. Sharp-tailed grouse also occur around the Split Butte area in Minidoka County. Sharp-tailed grouse hunting is closed in Minidoka County. Be sure of your target!

Sage-Grouse

Sage-grouse and Sharp-tailed Grouse

Over the years, some upland game bird hunters have had a difficult time determining the difference between sage- and sharp-tailed grouse. This is a problem when sharp-tailed grouse are taken by hunters during the sage-grouse season. Hunters most often mistake sharp-tailed grouse for young sage-grouse. Their ranges do overlap in parts of eastern and southern Idaho.

	SAGE-GROUSE	SHARP-TAILED GROUSE
SIZE	Larger than a hen pheasant, smaller than a turkey (3-7 lbs)	Smaller than a hen pheasant (1-2 lbs)
COLOR	Darker; black/brown in most cases	Lighter; slate gray/light brown with white under the wings and lower belly
BEHAVIOR	Slower wing beats	Fast flyers; wobble back and forth when taking off
VOCALIZATION	Silent in flight	Chuckling in flight; laughing sound
		

When in doubt,
DO NOT SHOOT!

SHARP-TAILED GROUSE

AREA 1

Bingham, Bonneville, Clark, and Jefferson counties east of Interstate 15, Power County south of Interstate 86, and those portions of Cassia County east of Interstate 84 and west of Interstate 84 south of the Malta-Sublett Road and east of the Malta-Strevell Road, Bannock, Bear Lake, Caribou, Franklin, Fremont, Madison, Oneida, and Teton counties.

Seasons

2026: October 1, 2026 through November 8, 2026

2027: October 1, 2027 through November 8, 2027

Daily Bag Limit..... 2

Possession Limit 6

Sharp-tailed Grouse Permit Validation: Any person hunting sharp-tailed grouse must have in possession their hunting license with a sharp-tailed grouse permit validation. See pages 46-53.

AREA 2

Remainder of the state: **CLOSED.**

Sharp-tailed Grouse

Distribution and Habitat Use: Shaded areas show general distribution of this species. Columbian sharp-tailed grouse were once distributed in grassland/mountain brush habitats throughout southern and western Idaho north to the Palouse Prairie. Habitat changes due to agricultural development, improper livestock grazing, and human development, among other factors, have reduced this grouse's range to areas mostly in southeastern Idaho. Agricultural lands enrolled in the Conservation Reserve Program currently provide important habitat for this species and have led to increased populations since 1986. Good populations still exist from Fremont County south to Utah in grasslands associated with chokecherry, sagebrush, hawthorn, serviceberry, bitterbrush and other brushy cover.

Columbian Sharp-tailed Grouse

Daily Bag Limit.....**3 roosters***

Possession Limit **9 roosters**

***Daily bag limit:** 3 roosters, only 2 of which can be harvested on Upland Game Bird Permit Release Areas.

Youth Hunt Season

2026 — October 8, 2026 through October 14, 2026

2027 — October 8, 2027 through October 14, 2027

It is open statewide for all licensed hunters 17 years of age or younger, including any location where Idaho Fish and Game releases pheasants, see pages 12-13. See page 26 for youth hunting requirements.

Ring-necked Pheasant

Pheasant

Distribution and Habitat Use: Shaded areas show general distribution of this species. The ring-necked pheasant is widely distributed in agricultural areas. Important habitat needs are grassy areas or other dense nesting cover at least 18 inches high, permanent cover that provides protection from winter weather, and abundant water and food (especially grain). Pheasants are common in this type of habitat along the Snake River Plain from the Oregon border to central Idaho. They are present in lower densities in agricultural habitats below 5,000 feet in eastern Idaho and below 4,000 feet in northern Idaho from Benewah County south to Whitebird.

Ring-necked Pheasant © Kerry Hargrove

UPLAND GAME BIRD PERMIT PROGRAM

Idaho Department of Fish and Game releases pheasants at locations around the state. Any person 18 years old or older must have a valid Upland Game Bird Permit in possession while hunting pheasants on properties where pheasants are released, which are listed below. Each permit allows a possession limit of 6 birds; multiple permits may be purchased. Youth hunters under 18 with a hunting license or passport do not need an Upland Game Bird Permit and may harvest their own bag and possession limit. For shooting hours on Upland Game Bird Permit Release areas, see page 13.

PERMIT VALIDATION

When a pheasant is reduced to possession, the hunter must immediately:

- ✓ Validate their permit by entering the harvest date and location in non-erasable ink
- ✓ Remove a notch from the permit for each pheasant taken.

NOTE: All upland game bird hunters are required to wear visible hunter orange (minimum size 36 square inches) above the waist during pheasant season when hunting on properties where pheasants are stocked.

RULES FOR UPLAND GAME BIRDS (EXCEPT TURKEY)

Unlawful Methods of Take

No person may take upland game birds:

- Outside of legal shooting hours.
- With a trap, snare, net, or firearm:
 - Except upland game birds may be taken with a shotgun using shells not exceeding 3 ½ inches maximum length, or muzzleloading shotgun.
 - Except forest grouse which may be taken with a firearm.
- From any watercraft.
- By the use or aid of any electronic call.
- By the aid of baiting. Bait is defined as any substance placed to attract game.
- When hunting on locations where an Upland Game Bird Permit is required, without wearing at least 36 square inches of visible hunter orange above the waist.

See page 43 for additional Unlawful Methods of Take.

Shooting Hours

- Upland game birds: From one-half hour before sunrise to one-half hour after sunset.
- Upland game birds on Upland Game Bird Permit Release Areas where pheasants are stocked: From 10:00AM to one-half hour after sunset, during the pheasant season, except for those areas in the Clearwater Region where shooting hours are 8:00AM to one-half hour after sunset.

Definitions

Daily Bag Limit: The maximum number of game birds that may be legally taken by any one (1) person during a calendar day.

Possession Limit: The maximum number of each species of upland game birds that may be lawfully possessed while in the field or being transported.

Termination of Possession: The possession of upland game birds taken by any hunter shall be deemed to have ceased when such birds have been delivered by them to:

- Another person as a gift when accompanied by a proxy statement, see page 53.
- Upon reaching the final place of consumption or storage.

Species Identification: One (1) fully-feathered wing or the head must be left naturally attached on all dressed game birds (except turkey) and Eurasian-collared doves to permit identification of species and sex while transported between the place where taken and the personal abode of the possessor OR between the place where taken and a commercial processing or storage facility.

Daily Bag Limit: The maximum number of upland game animals that may be legally taken by any one (1) person during a calendar day.

Possession Limit: The maximum number of each species of upland game animals that may be lawfully possessed while in the field or being transported.

WILD TURKEY GENERAL INFORMATION

Youth Hunts for Turkeys

A hunter must be 10 to 17 years of age to hunt in a general season youth hunt. If they turn 18 during the hunt they are no longer eligible to participate. See general seasons, pages 22-23.

Hunting Passport holders who are 8 or 9 years of age may purchase turkey tags to participate in the following turkey hunts: general season, general youth-only, depredation, and landowner permission hunts with the appropriate landowner permission permit. Hunting Passport holders are not eligible to participate in controlled hunts. Hunting Passport holders must be accompanied by an adult with a valid Idaho hunting license, see page 49 for additional requirements.

Youth-only controlled hunt application eligibility is limited to persons 9 to 17 years of age, provided they will be 10 to 17 years of age during the hunt for which they apply. A 9 year old cannot participate in the hunt until turning age 10. A person who turns 18 years of age during the controlled hunt may continue to participate through the end of the youth-only controlled hunt.

Resident junior hunters under 12 must be accompanied by an adult, 18 years of age or older, with a valid Idaho hunting license. The adult must be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.

Nonresident junior mentored hunters under 18 must be accompanied by an adult, 18 years of age or older, with a valid Idaho hunting license and a current year tag which is valid for the same species. The adult must be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.

Nonresident youth ages 12 to 17, who possess a full price hunting license are not required to follow the "accompanied by" rule in the field.

Harvest a turkey with a leg band or transmitter?

Please contact the nearest Regional Office if you harvest a turkey with a leg band or transmitter, see page 4. By reporting, you help provide information used to monitor populations and set hunting seasons, and will learn when and where the turkey was banded.

Tag Requirements

No person may hunt wild turkey without having in his or her possession the appropriate hunting license and tag.

There are two types of turkey tags available: general hunt tags and controlled hunt tags.

General hunt tags are valid for spring and fall general seasons. If a general hunt tag is not used to harvest a turkey during the spring season, it may be used in a fall season. Controlled hunt tags are valid in the controlled hunt for which a hunter was drawn **or** in any open general season hunt during the same calendar year.

Some general hunt tags are discounted:

- For **residents**, second or subsequent tags purchased in a calendar year following the first full-price general or controlled hunt tag purchase are discounted. Fees are \$12.25, including the vendor issuance fee. Three (3) general hunt tags can be purchased in a calendar year.
- Special Unit tags are general hunt tags for use in units 1, 2, 3, 4, 4A, 5, 6, 7, and 9 during fall general seasons, and in designated depredation hunts. Fees are \$5, including the vendor issuance fee. Three (3) special unit tags can be purchased in a calendar year (not including special unit tags purchased for a depredation hunt).

Controlled Hunt Tag Requirements

No person may hunt wild turkey in a controlled hunt without having in his or her possession the appropriate hunting license and controlled hunt tag.

Controlled hunt tags are valid in the controlled hunt for which a hunter was drawn or in any open general season hunt during the same calendar year. See pages 24-25 for the list of controlled hunts.

Landowner Permission Hunts

These are a form of depredation hunt. They are established in areas with chronic problems where depredation hunts are an annual occurrence. These hunts cannot be applied for during a controlled hunt application period. For additional information concerning Landowner Permission hunts contact a Fish and Game office, see

QUICK TAG OVERVIEW

If You Want to Hunt...	Buy a License AND a...
General Season, Spring Turkey*	General Hunt Turkey Tag
General Season Fall Turkey*	General Hunt Turkey Tag (including special unit tags valid only in units 1, 2, 3, 4, 4A, 5, 6, 7, and 9)
Controlled Hunt, Spring Season*	Apply for a Controlled Hunt Tag February 1 – March 1 and use a Controlled Hunt Tag. Any leftover tags go on sale March 25 at 10:00AM MDT
Controlled Hunt, Fall Season*	Apply for a Controlled Hunt Tag May 1 – June 5 and use a Controlled Hunt Tag. Any leftover tags go on sale July 15 at 10:00AM MDT

*Controlled hunt tags are valid in the controlled hunt for which a hunter was drawn **or** in any general season hunt during the same calendar year.

page 4, or visit idfg.idaho.gov/rules/upland and scroll down the page to find the Landowner Permission Hunt Brochure.

Controlled Hunts

See pages 24-25 for the list of controlled hunts and page 27 for the controlled hunt worksheet.

Eligibility: Holders of valid Idaho hunting licenses are eligible to apply for controlled hunts subject to the following restrictions:

- Holders of a Nonresident Nongame Hunting License, Hunting Passport, or a Three-Day Nonresident Small Game License may not apply for any controlled hunt.

Application Dates:

- Spring hunt application period: February 1 – March 1. Results available by March 20. Any leftover tags go on sale March 25 at 10:00AM MDT.
- Fall hunt application period: May 1 – June 5. Results available by July 10. Any leftover tags go on sale July 15 at 10:00AM MDT.

During the application periods, applicants may apply anytime online at GoOutdoorsIdaho.com, over the phone between 7:00AM and 7:00PM MDT at 1-800-554-8685, or in-person during regular business hours at any Idaho Fish and Game office or license vendor location, see page 4. Applications submitted online and over the phone can be paid for using a Visa, MasterCard, or Discover card, and are subject to a credit card fee of 3% of the transaction plus \$4.00 for online sales and \$6.50 for phone sales.

- Each applicant for controlled hunts must submit a \$6.25 (\$18.00 for nonresidents) nonrefundable application fee with their application.

Group Applications: Two hunters applying for the same controlled hunt on the same application.

- Only one application per person or group will be accepted. Additional applications will result in all applications being declared ineligible. For example, if John Smith submits a controlled hunt application for turkey, and then Bob Smith submits a group application for himself and John Smith, both applications for John will be declared ineligible as well as Bob's application.

Refunds Of Controlled Hunt Fee: Hunting license fees will **not** be refunded to unsuccessful applicants. Application fees for controlled hunts are not refundable.

Second Hunt Choices: Single or group applications which are not drawn for the first choice hunt will automatically be entered into a second choice drawing provided the second choice hunt applied has not been filled.

Drawing Results Notification: It is the responsibility of the hunter to find out whether he or she was successful in drawing a controlled hunt. All applicants will receive an email with their draw results if there's a valid email in their license profile. Applicants can login to GoOutdoorsIdaho.com to view their draw results. All customers who draw a controlled hunt must purchase and have in their possession a physical tag before going into the field. No person may hunt in any controlled hunt without a valid controlled hunt tag in their possession. Results for spring

seasons will be available by March 20, and results for fall seasons will be available by July 10.

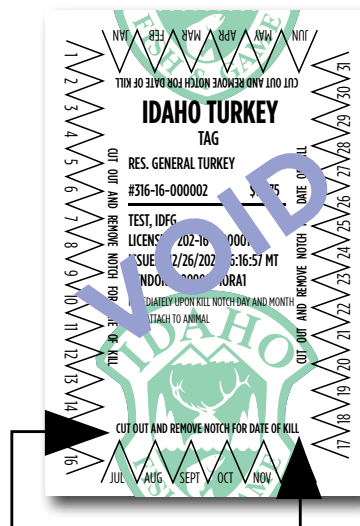

Nonresident Tag Limitations: No more than 10 percent of controlled hunt tags may be issued to nonresidents.

Unfilled (Leftover) Controlled Hunt Tags: Any spring controlled hunt tags for turkey that remain unsold after controlled hunt drawings may be sold on a first-come, first-served basis on or after March 25 at 10:00AM MDT. Unsold fall controlled hunt tags will go on sale July 15 at 10:00AM MDT. Hunters 65 years of age or older or hunters with a senior combination hunting license or a disabled hunting license may apply for first-come, first-served leftover youth-only controlled hunt tags. The 10 percent nonresident limitation shall not apply to leftover tags.

Permit Designation to Child or Grandchild: A holder of a controlled hunt tag for turkey may designate that tag to the holder's child or grandchild (under the age of 18) who is otherwise qualified to participate in the hunt. The child or grandchild may be designated only one controlled hunt tag for turkey per calendar year. The designation must be made before the opening date of the hunt. Resident adults can only designate tags to resident youth; nonresident adults can only designate tags to nonresident youth. For more information and a form to designate the tag, please contact your nearest Fish and Game office, see page 4, or visit the licensing section of Fish and Game's website.

Tag Validation and Attachment

- Immediately after any wild turkey is killed, a turkey tag must be validated and securely attached to the bird.
- To validate the tag, the hunter must cut out and completely remove two triangles on the border of the tag, one for the month and one for the day of the kill.
- The tag must remain attached as long as the turkey is in transit or storage.

Hunters must completely remove two notches indicating month and day of kill.

RULES FOR WILD TURKEYS

Unlawful Methods of Take

No person may take turkey:

- Outside of legal shooting hours.
- With lead shot exceeding BB size or steel shot exceeding T size.
- By use of dogs, except during fall hunts.
- With a trap, snare, net, or firearm;
Except turkeys may be taken with a shotgun using shells not exceeding 3 ½ inches maximum length, or muzzleloading shotgun.
- From any watercraft.
- By the use or aid of any electronic call.
- By the aid of baiting. Bait is defined as any substance placed to attract game.
- With any airgun using pre-charged pneumatic power to propel a projectile (including shot and arrows) with unignited compressed air or gas and projectiles less than thirty (.30) caliber.

See page 43 for additional Unlawful Methods of Take.

Areas Closed to Hunting of Turkeys

- See page 44

Shooting Hours

Shooting hours are from one-half hour before sunrise to sunset.

Species Identification

The beard or leg of a wild turkey must be left naturally attached to the carcass while being transported.

Daily Bag and Season Limits

Daily Bag Limit: The maximum number of turkeys that may be legally taken by any one (1) person during a calendar day:

- During spring seasons the daily bag limit is two (2) male turkeys. A legal turkey is a male turkey or a turkey with a visible beard.
- During fall seasons the daily bag limit is equal to the number of valid tags possessed. Either sex turkeys may be taken during fall seasons.

Season Limit: The maximum number of turkeys that may be legally taken by any one (1) person during a season:

- During spring seasons only two (2) male turkeys may be taken using a general or controlled hunt tag before May 26. A legal turkey is a male turkey or a turkey with a visible beard.
- During fall seasons a hunter may harvest as many turkeys for which they have legal tags in that calendar year.
 - Note: Any tags purchased and filled during the January 1–31 season will count against the tags available for subsequent spring and fall seasons within the same calendar year.

LEARN ABOUT LEAD

Hunter Information:

- Lead can be toxic if ingested, and the toxicity level depends on the level and frequency of exposure.
- People can ingest lead particles from bullets or shot in hunter harvested game animals.
- Lead particles in game meat may be too small to detect by sight, feel or taste.
- Lead shot is banned in U.S. for waterfowl hunting, but is still used for other purposes.
- Wildlife can be poisoned from ingesting lead.

Reduce Your Risk:

- Use non-lead, copper or other high-weight retention ammunition.
- Liberally trim around the wound channel.
- Discard meat that is bruised, discolored or contains hair or feathers, dirt, bone fragments, or plant material.
- Use caution when rinsing the carcass to avoid spreading lead fragments.
- Ground game meat has more lead fragments than steaks and chops.
- Ask commercial processors not to combine meat from other hunters with yours.
- Avoid cooking game meat with acidic substances like vinegar or wine.
- Practice good marksmanship.
- Practice clean field handling techniques.

Shaded areas indicate general wild turkey distribution in Idaho.

Wild turkeys are not native to Idaho, but were first transplanted here in 1961. Since then, more than 150 translocation efforts have been conducted statewide.

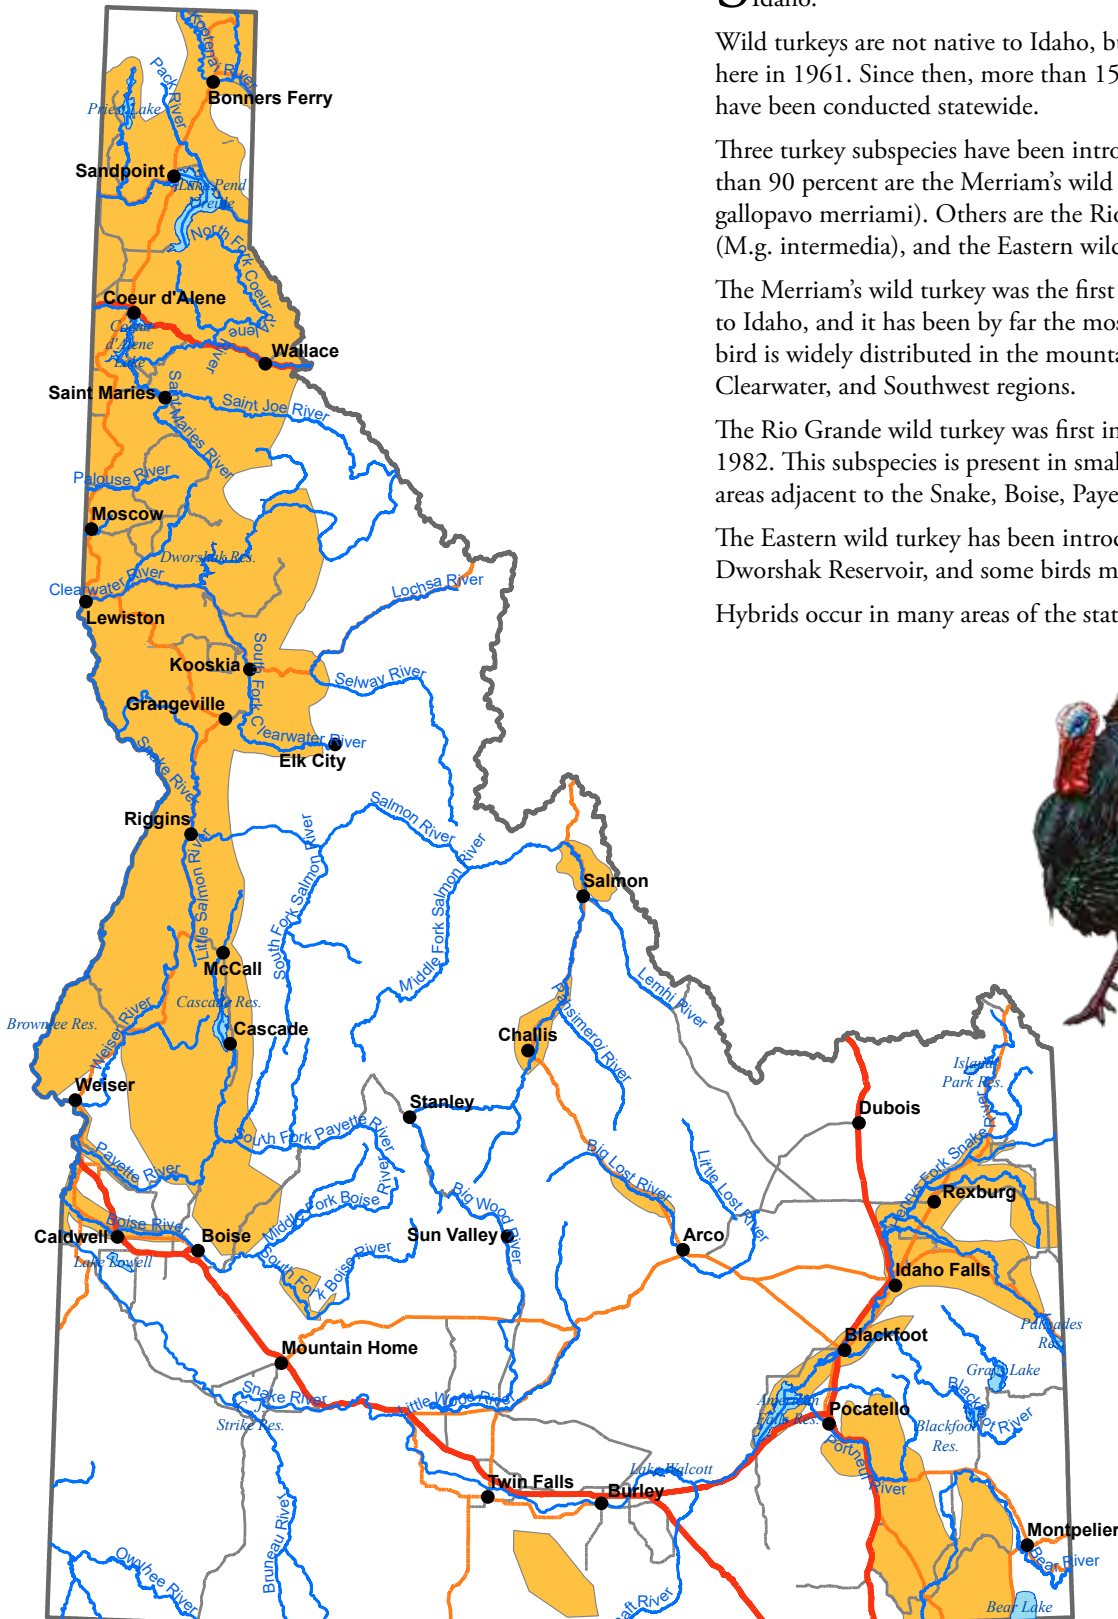

Three turkey subspecies have been introduced to Idaho. More than 90 percent are the Merriam's wild turkey (*Meleagris gallopavo merriami*). Others are the Rio Grande wild turkey (*M.g. intermedia*), and the Eastern wild turkey (*M.g. silvestris*).

The Merriam's wild turkey was the first subspecies introduced to Idaho, and it has been by far the most successful. This bird is widely distributed in the mountains of the Panhandle, Clearwater, and Southwest regions.

The Rio Grande wild turkey was first introduced to Idaho in 1982. This subspecies is present in small numbers in riparian areas adjacent to the Snake, Boise, Payette, and Weiser rivers.

The Eastern wild turkey has been introduced to a few sites near Dworshak Reservoir, and some birds may still be found there.

Hybrids occur in many areas of the state.

WILD TURKEY GENERAL SEASONS 2026 & 2027

2026 & 2027 Spring Turkey - General Seasons

For turkey season limits, see page 20.

Spring Turkey - Youth Only - Male or Bearded Turkey

Game Management Units	Season Dates	Notes
1, 2 (except Farragut State Park and WMA), 3, 4, 4A, 5, 6, 7, 8, 8A, 9, 10, 10A, 11, 11A, 12, 13, 14, 15, 16, 16A, 17, 18, 19, 19A, 20, 22, 23, 24, 31, 32 (except that portion in Payette County), 32A, 33, 39, 40, 68A, 70, 71, 72, 73, 74, 75, 76, 77 & 78	April 8 - April 14	See note 1
21, 21A, 28, 29, 30, 36A, 36B, 37 & 37A	April 8 - May 25	See note 1
32 (that portion in Payette County) & 38	April 8 - May 25	See note 1

Spring Turkey - Male or Bearded Turkey

Game Management Units	Season Dates	Notes
1, 2 (except Farragut State Park and WMA), 3, 4, 4A, 5, 6, 7, 8, 8A, 9, 10, 10A, 11, 11A, 12, 13, 14, 15, 16, 16A, 17, 18, 19, 19A, 20, 22, 23, 24, 31, 32 (except that portion in Payette County), 32A, 33, 39, 40, 68A, 70, 71, 72, 73, 74, 75, 76, 77 & 78	April 15 - May 25	
2 (Farragut State Park and WMA only)	April 15 - April 30	Archery only , Archery Permit Required

2026 & 2027 Fall Turkey - General Seasons

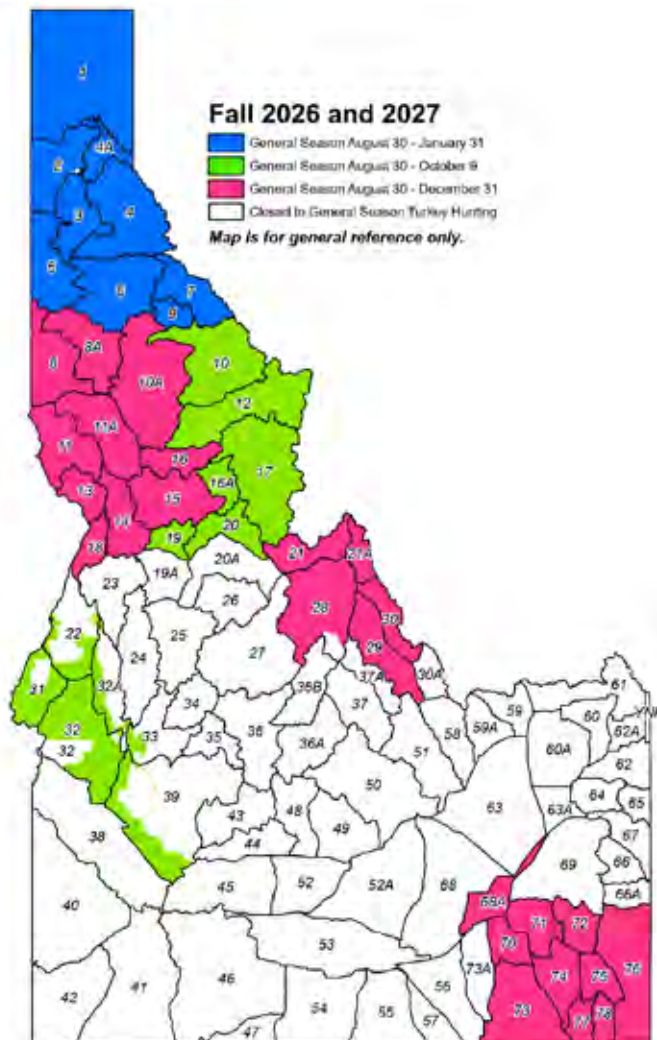

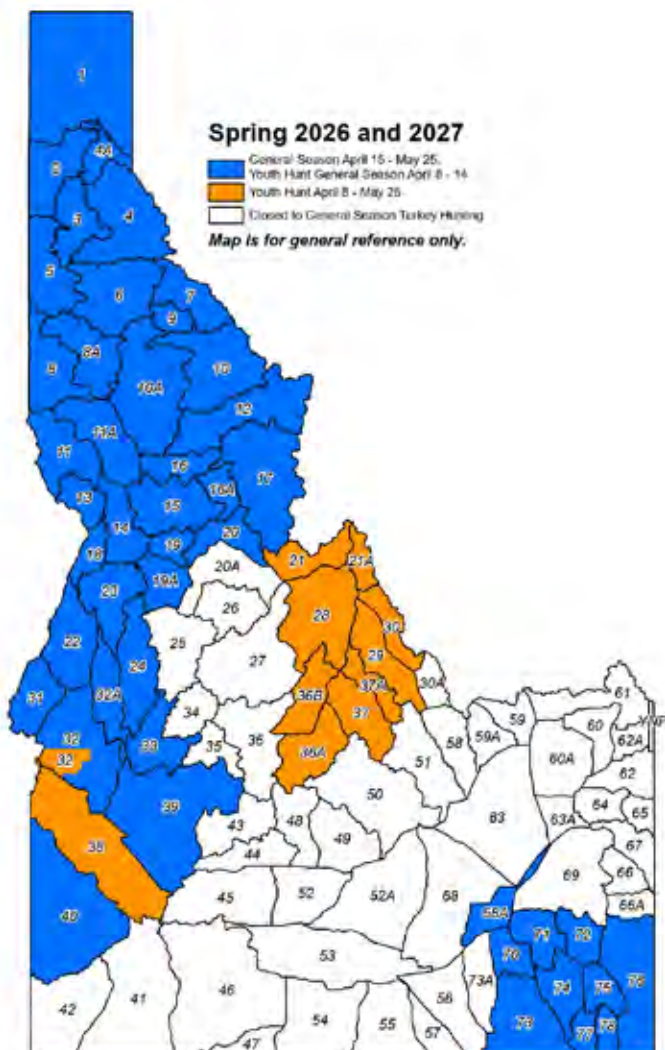

For turkey season limits, see page 20.

Fall Turkey - Either Sex Turkey

Game Management Units	Season Dates	Notes
1, 2 (except Farragut State Park and WMA), 3, 4, 4A, 5, 6, 7 & 9	August 30 - January 31	See note 2
2 (Farragut State Park and WMA only)	November 1 - December 1	Archery only , Archery Permit Required
8, 8A, 10A, 11, 11A, 13, 14, 15, 16, 18, 21, 21A, and that portion of Unit 28 downstream from the Hat Creek drainage, 29, 30, 68A, 70, 71, 72, 73, 74, 75, 76, 77 & 78	August 30 - December 31	
10, 12, 16A, 17, 19 & 20	August 30 - October 9	
Outside the National Forest System boundary in Units 22, 31, 32 (except that portion in Payette County), 32A, 33 & 39	August 30 - October 9	

Notes:

- These are Youth Only hunts. See page 18 for age requirements on Youth Only hunts.
- These hunts overlap calendar years. Turkey tags expire on December 31 the year of purchase. Hunters must purchase a valid hunting license and turkey tag for the year in which they intend to hunt. Hunting licenses and tags go on sale December 1 for the upcoming year.

Wild Turkeys © Mike Fusaro

YOUTH HUNT INFORMATION

YOUTH HUNTS

- Youth-only general hunts for turkey and pheasants are limited to hunters who are 8 or 9 years of age with a hunting passport or 10 to 17 years of age with a valid hunting license. When a person turns 18 during the general youth hunt season they are no longer eligible to participate in the general youth hunt season. See general seasons on page 22-23.
- Hunting Passport holders who are 8 or 9 years of age may hunt in youth pheasant seasons and purchase turkey tags to participate in general season hunts, general youth-only hunts, depredation hunts and landowner permission hunts. Hunting Passport holders are not eligible to participate in controlled hunts. Hunting Passport holders must be accompanied by an adult with a valid Idaho hunting license, see page 49 for additional requirements.
- Youth-only controlled hunt application eligibility is limited to persons 9 to 17 years of age, provided they will be 10 to 17 years of age during the hunt for which they apply. A 9 year old cannot participate in the hunt until turning age 10. A person who turns 18 years of age during the controlled hunt may continue to participate through the end of the youth-only controlled hunt.

THREE-YEAR LICENSES

- If the youth becomes a resident of another state, this license remains valid but cannot be used to purchase resident tags.
- If the youth purchases a multi-year junior hunting or junior combination license while they are 17 years of age, he or she may continue to purchase the junior priced tags through the valid dates of the license. Youth hunt restrictions based on age still apply. A holder of a multi-year junior hunting or junior combination license over the age of 17 cannot participate in youth pheasant hunts, turkey hunts designated for youth and cannot apply for youth-only controlled hunts.

JUNIOR LICENSES

Resident

- Resident youth younger than 12, who possess a junior hunting license, must be accompanied by a licensed adult 18 years of age or older and be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.
- All hunters possessing a Hunting Passport must be accompanied by a licensed adult 18 years of age or older and be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.

Nonresident

- Nonresident youth ages 10 to 17, who possess a nonresident junior mentored hunting license, must be accompanied by a licensed adult 18 years of age or older and be close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices. The licensed adult must have a current year tag which is valid for the same species and may hunt while participating in the mentored hunting program. The licensed adult may not accompany more than two youth at a time. A tag that has already been filled still meets the tag possession requirement.
- Nonresident youth ages 12 to 17, who possess a full price hunting license are not required to follow the "accompanied by" rule in the field.

Controlled Hunt Application Worksheet

Controlled Hunt Applicants: Use this worksheet to collect all your information before applying for your controlled hunt. Fish and Game will not accept mail-in applications for the controlled hunts. Use this form for one species application only.

Applications can be submitted at any Fish and Game offices and license vendors. Applications also can be made using your credit card by calling 1-800-554-8685. The charge

for processing phone-in applications is 3 percent of the transaction plus \$6.50. Internet applications can be made on the Fish and Game website at idfg.idaho.gov/licenses/controlled. The charge for internet applications is 3 percent of the transaction plus \$4.00.

The hunt numbers are subject to change, so be sure to use this brochure when applying for any turkey hunts in 2026 or 2027.

Application fee is Resident \$6.25, Nonresident \$18.00 per person per species.

DON'T SHOOT FROM THE ROAD!

No person shall discharge any firearm from or across a public highway.

Right-of-Way

Public Highway

"Public highway" means the traveled portion of, and the shoulders on each side of, any road maintained by any government entity for public travel, and includes all bridges, culverts, overpasses, fills or other structures within the limits of the **right-of-way** of any such road.

Right-of-Way

Gravel Shoulder

TURKEY DEPREDATION HUNT SIGN UP

Special hunts (not listed in these rules) are sometimes used to relieve game damage problems. If these hunts are needed, they will be held on short notice, involve small areas, and be limited to a few hunters.

How Can I Participate?

If you are an Idaho resident, with a valid hunting or combination license, or a Hunting Passport, fill out the form on this page and mail it to the regional office in the area(s) you are willing to hunt. You may photocopy this form if necessary. All applications received from May 1 to June 30 will be placed in random order. All applications received after June 30 will be placed at the end of the list in the order received. The list will be valid from July 1 to the following June 30.

What Are My Chances of Drawing A Depredation Permit?

Most regions issue only a few depredation permits each year.

Tag Requirements

The Regional Office will provide hunters with tag requirements for each depredation hunt.

Remember...

Send only 1 application per species. Hunters may apply only once per species per year. Applying for the same species in more than one region will result in disqualification from all regions. Hunters may apply for different species in regions. Please contact a regional office for questions.

Heads

- **Hen:** Scattering of short black velvety hair-like feathers. Head smaller and blacker than toms
- **Tom:** Head bald with narrow band of feathers up the back of neck. Colors bright reddish-blue in spring

Evidence of Spurs

- Spurs on toms
- Very small or absent on hens

Beards

Beards up to 10 inches long are present on the breasts of mature toms. Beards are generally absent on hens. Any turkey with a visible beard is legal in a bearded turkey hunt.

WILD TURKEY HUNTING SAFETY AND ETHICS

Successful Turkey Hunt © Don Jenkins

Safety

1. Positively identify your target.
2. Assume every noise and movement is another hunter.
3. Never stalk a turkey or turkey sound.
4. Don't wear red, white, or blue.
5. Protect your back.
6. Shout "Stop" to alert approaching hunters.
7. Make your position known to other hunters.
8. Preselect a zone of fire.
9. Choose safe, ethical hunting companions.
10. Practice courtesy and self-control at all times.

Ethics

All ethical wild turkey hunters support a series of rules that make wild turkey hunting the quality experience it can be. Following these rules will not only help maintain healthy flocks of wild turkeys in Idaho, but will also add to the challenge and excitement that is wild turkey hunting.

- Ask first to hunt on private land.
- Do not disturb nesting hen turkeys or their nests.
- Though it is legal (during legal hours) to shoot a tom out of a roost tree, this practice is unacceptable among most hunters.
- If you hear another hunter calling a bird, allow that hunter to continue undisturbed and leave the area.

Hunting Season

Upland game birds and upland game animals may be taken by falconry during firearms seasons established for those species and during extended falconry seasons (see table below). During firearm seasons, falconers may take firearm season bag and possession limits. During extended falconry seasons, special limits apply.

Migratory game birds may be taken by falconry during firearms seasons established for those species. However, during firearms seasons special bag and possession limits apply.

Falconers are required to have state permits for raptor captive breeding, falconry and falconry capture (nonresidents only). A bird dog/falconry training permit is required when training with released upland game birds and waterfowl. Permits can be purchased at Fish and Game Regional Offices.

There are special requirements regarding the capture, possession, transfer and use of birds of prey in Idaho. Contact a Fish and Game Office for more information.

Species from the following families may be used for falconry *(dependent on class of permit)*

- Accipitridae (except the bald eagle)
- Falconidae
- Strigidae

Special Restrictions On Hunting With Birds Of Prey

Anytime a hunting bird of prey kills quarry that may not be taken under established rules, seasons, bag limits, or license requirements, the falconer must leave the dead quarry where it lies. The bird of prey may feed upon the quarry before leaving the kill site.

All Idaho residents hunting by falconry must have in their possession a valid Idaho falconry permit, a valid hunting license and all necessary validations.

All nonresidents hunting by falconry must have in their possession a valid Idaho hunting license, all necessary validations and a valid falconry permit from their state of residence.

Falconer © Glenn Oakley

Extended Falconry Seasons, Bag and Possession Limit

Species	Open and Closed Areas	Season Dates	Daily Bag Limit	Possession Limit
Forest grouse: dusky (blue), ruffed & spruce; California and bobwhite quail; chukar & gray partridge; *sage- & sharp-tailed grouse; pheasants (all varieties)	All counties or parts of counties which have a firearms season are open to hunting by falconry.	August 15, 2026 - March 15, 2027 August 15, 2027 - March 15, 2028	3 of any kind and shall not include more than 1 pheasant (male or female), or 1 sharp-tailed grouse except during firearm seasons when those seasons' limits apply.	9 of any kind and shall not include more than 3 pheasant (male or female), or 3 sharp-tailed grouse
Crows	Open statewide.	October 27, 2026 - February 28, 2027 October 27, 2027 - February 28, 2028	No daily bag or possession limits	
Migratory game birds (ducks, coots, mergansers, Wilson's snipe, ^mourning dove)	Open statewide.	These seasons shall coincide with the regular firearms seasons for these species.	3 of any kind	9 of any kind
Cottontail	Open statewide.	April 1, 2026 - August 29, 2026 April 1, 2027 - August 29, 2027	2 of any kind	6 of any kind
Snowshoe hares	Open statewide.	April 1, 2026 - August 29, 2026 April 1, 2027 - August 29, 2027		

***Sage-grouse:** Season dates: August 15, 2026 - March 15, 2027 & August 15, 2027 - March 15, 2028; requires tags, which may only be used in designated zones to which tag quotas apply. Zone descriptions, tag and bag limits are described in separate sage-grouse season brochure.

^**Mourning dove:** Extended falconry dates (outside the regular firearms season) are found on the Fish and Game website or the current Idaho Migratory Game Bird Seasons & Rules for season dates.

FURBEARER TRAPPING AND HUNTING SEASONS BY REGION

For wolf trapping and hunting seasons please see the current Big Game Seasons and Rules.

Panhandle Region: Benewah, Bonner, Boundary, Kootenai, and Shoshone counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	October 10 - March 31
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Clearwater Region: Clearwater, Idaho, Latah, Lewis, and Nez Perce counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	October 10 - March 31
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Southwest Region: Ada, Adams, Boise, Canyon, Elmore, Gem, Owyhee, Payette, Valley, and Washington counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	July 1 - June 30: Year-round
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Exceptions: Beaver

Ada & Boise counties: The Boise River WMA - **CLOSED**.

Elmore County: All public lands within the following drainages: Bear Cr. (trib. to Feather R.), Case Cr., Fall Cr. upstream from and including Meadow Cr., Clover Cr., Lake Cr. (trib. to Fall Cr.) but flows into Anderson Ranch Reservoir, Wilson Cr., Little Wilson Cr. and Elk Cr. on Wilson Flat north of Anderson Ranch Dam, Hunter Cr., Smith Cr. upstream from Washboard Cr., Syrup Cr., Trinity Cr., Willow Cr. in the Danskin Mts. (trib. to S. Fk. Boise R.), AND all lands within the Boise River WMA - **CLOSED**.

Valley County: Within the following drainages: Johnson Cr. upstream of the Forest Service Road 579/447 bridge over Johnson-Cr. Rd. located near the Landmark Ranger Station, S. Fk. Salmon R. upstream from the fish trap near the mouth of Cabin Cr., Bear Valley Cr., and Sulphur Cr. - **CLOSED**.

Washington County: Raft Cr., Denner Cr., Wolf Cr., Trail Cr., Sumac Cr., Thorn Cr., and Rock Cr. on the Rocking M Ranch Conservation easement in Unit 31 - **CLOSED**.

* Indicates species can also be hunted.

^ All areas closed to beaver trapping are closed to otter trapping.

Magic Valley Region: Blaine, Camas, Cassia, Gooding, Jerome, Lincoln, Minidoka, and Twin Falls counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	July 1 - June 30: Year-round
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Exceptions: Beaver

Blaine County: All public lands within the following drainages: Big Wood R. above Magic Reservoir Dam, Little Wood R. above Little Wood Reservoir; all lands within Little Fish Cr. - **CLOSED**.

Camas County: All public lands within the Willow Cr. drainage - **CLOSED**.

Elmore County: All public lands within the following drainages: Bear Cr. (trib. to Feather R.), Case Cr., Fall Cr. upstream from and including Meadow Cr., Clover Cr., Lake Cr. (trib. to Fall Cr.) but flows into Anderson Ranch Reservoir, Wilson Cr., Little Wilson Cr. and Elk Cr. on Wilson Flat north of Anderson Ranch Dam, Smith Cr. upstream from Washboard Cr., Syrup Cr., Trinity Cr., Willow Cr. in the Danskin Mts. (trib. to S. Fk. Boise R.), AND all lands within the Boise River WMA - **CLOSED**.

Gooding County: All public lands within the Thorn Cr. drainage - **CLOSED**.

Exceptions: Mink

Gooding County: Hagerman WMA - **CLOSED**, except February 15 - February 28 - **OPEN**.

Exceptions: Muskrat

Gooding County: Hagerman WMA - **CLOSED**, except February 15 - February 28 - **OPEN**.

Southeast Region: Bannock, Bear Lake, Bingham, Caribou, Franklin, Oneida, and Power counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	July 1 - June 30: Year-round
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Exceptions: Beaver

Bannock County: Mink Cr. drainage, and Gibson Jack Cr. - **CLOSED**.

Bingham County: All public lands within the Willow Cr. drainage. - **CLOSED**.

Caribou County: Dike Lake, Toponce Cr. drainage on National Forest lands, and Pebble Cr. drainage - **CLOSED**.

Franklin County: Birch Cr. Drainage above the Forest Service boundary - **CLOSED**.

Controlled Beaver Trapping Unit Permits

Permit Number	Season Dates and Unit Descriptions	No. of Beaver
201	October 22 - April 15 That portion of Mink Cr. drainage in Bannock County, except the East Fork Mink Cr. and West Fork Mink Cr.	5
202	October 22 - April 15 Pebble Cr. drainage in Caribou County.	5
203	October 22 - April 15 Toponce Cr. drainage in Caribou County.	5

* Indicates species can also be hunted.

^ All areas closed to beaver trapping are closed to otter trapping.

To apply for controlled beaver trapping permits see page 34.

Upper Snake Region: Bonneville, Butte, Clark, Fremont, Jefferson, Madison, and Teton counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	July 1 - June 30: Year-round
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

Exceptions: Beaver

Bonneville County: All public lands within the Willow Cr. drainage - **CLOSED**.

Clark County. All public lands within the following drainages: Edie Cr., Irving Cr., Miners Cr., Three Mile Cr., West Camas Cr., Indian Cr. and Middle Cr., upstream from the Targhee National Forest boundary - **CLOSED**.

Teton County. The following drainages upstream from the Targhee National Forest boundary: North Twin Cr., South Fork of Packsaddle Cr., Trail Cr., and Dry Cr. including McRenolds Reservoir - **CLOSED**.

Salmon Region: Custer and Lemhi counties

Badger*	July 1 - June 30: Year-round
Beaver	October 15 - April 15
Bobcat*	December 14 - February 16
Fox*	July 1 - June 30: Year-round
Marten	November 1 - January 31
Mink	October 15 - April 15
Muskrat	October 15 - April 15
Otter^	October 15 - March 31

River Otter Trapping Quota

Region	Harvest Quota
Panhandle	45
Clearwater	30
Southwest	30
Magic Valley	30
Southeast	15
Upper Snake	20
Salmon	15
Statewide Total	185

Trapping on Game Preserves and Wildlife Management Areas

Prior to trapping on any of the following Wildlife Management Areas, trappers must contact or register either at the management headquarters or the regional office:

- Andrus
- Big Cottonwood
- Billingsley Creek
- Blackfoot River
- Boise River
- Boundary Creek
- C.J. Strike
- Camas Prairie Centennial Marsh
- Carey Lake
- Cartier Slough
- Coeur d'Alene River
- Craig Mountain
- Deer Park
- Farragut
- Fort Boise
- Georgetown Summit
- Hagerman
- Market Lake
- McArthur Lake
- Montpelier
- Montour
- Mud Lake
- Niagara Springs
- Payette
- Pend Oreille
- Portneuf
- Red River
- Sand Creek
- Snow Peak
- Sterling
- Tex Creek

* Indicates species can also be hunted.

^ All areas closed to beaver trapping are closed to otter trapping.

BEAVER, BOBCAT, RIVER OTTER PERMITS AND REPORTING

Mandatory Check, Report, and Pelt Tags

Any person taking river otter or bobcat must comply with the mandatory check, report and pelt tag requirements.

Mandatory Check and Report:

- Bobcat – Present the pelt to any Fish and Game office or official checkpoint to obtain the appropriate pelt tag and complete a harvest report.
- River Otter – Present the pelt to the Fish and Game office in the region in which the animal was taken within seventy-two (72) hours of taking to obtain the appropriate pelt tag and complete a harvest report. Trappers unable to comply with the tagging requirements due to special or unique circumstances must report their harvest to the appropriate regional office or field personnel within seventy-two (72) hours and make arrangements for tagging with the regional office.

Pelt Tags:

- No person may have in possession, except during the open season and for ten (10) days after the close of the season, any raw bobcat pelt without an official export tag attached, unless that person has a fur buyer or taxidermist license or appropriate import documentation.
- No person may have in possession, except during the open season and for seventy-two (72) hours after the close of the season, any otter pelt legally harvested in Idaho that does not have an official state export tag attached.
- The pelt must be legally taken in Idaho and must be presented during normal working hours – 8:00AM to 5:00PM.
- Pelts must be thawed before they can be checked.
- There is a \$3 fee for residents, and a \$3.50 fee for non-residents for each pelt tag.
- There is a \$1.75 vendor fee for each license holder per species.

Sale/Purchase of Bobcat and Otter:

- No person may sell, offer for sale, purchase, or offer to purchase any raw bobcat or otter pelt that does not have an official state export tag attached, unless that person has a fur buyer or taxidermist license or appropriate import documentation.

Season Limits:

- A maximum limit of three otters is allowed for any one trapper.

Otter Quota/Season Closure:

- The otter season will close in each region 72 hours after the harvest quota for that region is reached. Trappers will be allowed to keep otters within this 72-hour period provided their personal quota of three has not been reached. Otters may only be turned in for reporting and tagging within the region where they were harvested.

- Current otter harvest information may be obtained by calling the appropriate Fish and Game regional office during normal business hours or online at idfg.idaho.gov/hunt/harvest-quotas. The reporting hotline (1-800-323-4334) is only updated when there is a closure.
- All areas closed to beaver trapping are closed to otter trapping. Additional closures have been identified to reduce potential conflicts between user groups. See pages 31-33.

Beaver Controlled Trapping Permits

No person may trap in a controlled trapping unit for the designated species without having a valid permit in possession for that controlled trapping unit. See page 32 for controlled beaver trapping seasons.

In the event that a permit is issued based on erroneous information, the permit will be invalidated and may **not** be used. Fish and Game will notify the permittee of the invalidation of the permit.

Eligibility: Any person possessing a valid Idaho trapping license is eligible to apply for a controlled trapping unit permit.

Applications: Applications for controlled trapping permits shall be made on a form available at all Fish and Game offices and must be received by Fish and Game, Wildlife Bureau, P.O. Box 25, Boise, Idaho 83707, and postmarked no later than September 15 of each year.

Any application which is unreadable, has incomplete or incorrect trapping license numbers, or which lacks the required information or fee will be declared void and will not be entered in the drawing. All applications will be considered final.

Applicants must comply with the following requirements:

- No person may submit more than one application for a controlled beaver trapping permit.
- No group applications will be accepted.

Controlled Trapping Permit Drawing: Applications that are not drawn for the first choice unit will automatically be entered into a second choice drawing, provided the second choice applied for has not been filled.

Any permits left unfilled after the second choice drawing may be issued on a first-come, first-served basis.

Successful Applicants: Successful applicants will be notified by mail and must contact the person listed on the notice by October 14 to obtain the permit. The permittee, upon agreeing to follow trapping instructions for the unit, will be issued a permit.

Revocation of Permits: Any permittee who does not comply with trapping laws, rules, proclamations, or the instructions for the trapping unit may have his or her permit revoked.

Alternate Permittee: Any revoked permit may be issued to an alternate, selected at the time of the drawing. If there is no

alternate, or the alternate fails to comply with the “Successful Applicants” section above, the permit may be issued to the first eligible trapper answering a notification of vacant trapping unit as approved by the Regional Supervisor.

Hunting and Trapping of Predatory and Unprotected Animals:

Predatory and Unprotected Animals may be taken all year in any amounts and at any time by holders of the appropriate valid Idaho hunting, trapping, or combination hunting license, provided such taking is not in violation of state, county, or city laws, ordinances or regulations. Animals classified as predatory include coyote, raccoon, jackrabbit, skunk and weasel. Animals classified as unprotected include opossum, porcupine, and ringtail.

Mandatory Furtaker Report

All trappers are required to complete the mandatory furtaker report provided by Fish and Game. The report must be submitted to Fish and Game by July 31. Beginning May 2026, trappers may submit their report online through their Fish and Game account at **GoOutdoorsIdaho.com** or by returning a completed paper form to: Fish and Game, Wildlife Bureau, P.O. Box 25, Boise, Idaho 83707. Any trapper failing to submit a report by July 31 will be refused a license to trap animals for the ensuing year until a late report is submitted.

The mandatory furtaker report form is available to print on the Fish and Game website at **idfg.idaho.gov/trap/report**.

Mandatory Controlled Beaver Report

All permittees must return their controlled trapping unit permits and controlled trapping reports to the office from which they obtained their controlled trapping unit permits within 10 days of the close of the season for the controlled trapping unit.

ATTENTION MARTEN TRAPPERS

- Trappers are encouraged to set marten traps at least 2 feet above the ground or snow level to reduce the harvest of female martens.
- Use cubby boxes, with a closed front and 2 1/2 inch entrance hole, to avoid catching fishers.

Pine Marten © Christopher MacDonald

AVOID CATCHING DOGS

- It is recommended trappers use body-gripping or Conibear traps only under water.
- Set traps at least 4 feet above ground when used on land.
- Use only small Conibears (160 or smaller), set 7 inches back inside a long hard box that is no larger than 7 inches in width, preferably with a lid extending beyond the opening (See photo).
- Always look for places without human or dog activity when setting Conibears, and post signs indicating lethal traps are in use.

Beaver, Bobcat, River Otter
Permits and Reporting

FURBEARER - METHODS OF TAKE AND RULES

Attention Trappers

Completion of a trapper education course is mandatory for anyone who purchased their first Idaho trapping license on or after July 1, 2011. Those who present proof of equivalent certification obtained in Idaho or from an authorized agency or association in another state or country are exempt. For more information visit: idfg.idaho.gov/trap or contact a Fish and Game office. Trappers who have only taken a wolf trapping education course must also take the Idaho trapper education course.

It is Unlawful

- To trap without a valid trapper's license; see page 46 for exceptions.
- To destroy or damage a muskrat or beaver house.
- To trap in or on a muskrat house.
- To destroy, disturb, or remove any traps belonging to others.
- To set, place or stake any trap or snare during the closed season.
- To possess a live furbearer taken from the wild.
- To buy furs without a valid fur buyers license.

Hunting with the Use of Artificial Light

It is unlawful to hunt any animal or bird by aid of spotlight, flashlight or artificial light of any kind except;

- For unprotected or predatory animals on private land after obtaining written permission, and on public lands after obtaining the required permit from an Idaho Fish and Game regional office.
- For gray wolves, see the most recent Idaho Big Game Seasons and Rules Brochure.
- It is lawful to hunt raccoons on public lands without a permit if such taking is not in violation of state, county, or city laws, ordinances, or regulations.

Definitions

Bait is defined as any animal parts; except bleached bones or liquid scent are not considered bait.

Drainage is defined as the geographic region or area that provides water to a specific stream, river, pond, lake, or reservoir. It includes the specific body of water and all its tributaries.

Furbearing animals are defined as the following species: marten, fisher, mink, otter, beaver, muskrat, bobcat, lynx, red fox (includes all color phases found in Idaho), and badger.

Ground set is defined as any foothold trap, body-gripping trap, or snare originally set in or on the land (soil, rock, etc.). This includes any traps elevated up to a maximum of 36 inches above the natural ground level.

Non-target species are defined as any species caught for which the season is closed or is in excess of the trappers limit.

Other set is defined as any set not defined as a ground or water set, including without limitation, elevated sets originally set 36 inches or more above natural ground level.

Predatory wildlife is defined as the following species: coyote, raccoon, jackrabbit, skunk and weasel.

Public highway is defined as the traveled portion of, and the shoulders on each side of, any road maintained by any governmental entity for public travel, and includes all bridges, culverts, overpasses, fills, and other structures within the limits of the right-of-way of any such road. See page 27.

Public trail is defined as any trail designated by any city, county, state, or federal transportation or land management agency on the most current official map of the agency.

Trapping shall mean taking, killing, and capturing wildlife by the use of any trap, snare, deadfall, or other device commonly used to capture wildlife, and the shooting or killing of wildlife lawfully trapped, and includes all lesser acts such as placing, setting, or staking such traps, snares, deadfalls, and other devices, whether or not such acts result in the taking of wildlife, and every attempt to take and every act of assistance of any other person in taking or attempting to take wildlife with traps, snares, deadfalls or other devices.

Water set is defined as any trap or snare originally set in or on any body of water. This includes traps on floats in the water and those that are set with a minimum of one-third of the trap submerged. The term water set applies to traps set on beaver dams, in bank holes and in the water at bank slides.

Methods of Take—Trapping

Furbearing Animals: No person shall take beaver, marten, mink, muskrat, or otter by any method other than trapping.

Trapping: No person trapping furbearing animals or predatory or unprotected wildlife shall:

- Place any ground sets on, across, or within 10 feet from the edge of any maintained public trail designated by any city, county, state, or federal transportation or land management agency on the most current official map of the agency.
- Place any ground set on, across, or within any public highway, except ground sets may be placed underneath bridges and within and at culverts that are part of a public highway right-of-way. Public highway is defined as the traveled portion of, and shoulders on each side of, any road maintained by a governmental entity for public travel, and includes all bridges, culverts, overpasses, fills, and other structures within limits of the right-of-way of any such road.
- Place any ground set incorporating snare, trap, or attached materials within three hundred (300) feet of any designated

public campground, trailhead, paved trail, or picnic area. Cage or box live traps are permitted within three hundred (300) feet of designated public campgrounds, trailheads, paved trail, or picnic areas as allowed by city, county, state, and federal law.

- Place or set any ground set snare without a break-away device OR cable stop incorporated within the snare loop.
- Place any ground set incorporating a foothold trap with an inside jaw spread greater than 9 inches.
- Place or operate, **except** as a waterset, any body-gripping trap that has a maximum jaw opening, when set, of greater than 7 ½ inches measured from the inside edges of the body-gripping portion of the jaws, within 30 feet of any bait, lure, or other attractant.
- Place or operate, **except** as a waterset, any body-gripping trap that has a maximum jaw opening, when set, greater than 6 ½ inches and less than 7 ½ inches measured from the inside edges of the body-gripping portions of the jaws unless:
 - 1) The trap is in an enclosure and the trap trigger is recessed 7 inches or more from the top and front most portion of the open end of the enclosure;
 - 2) No bait, lure, or other attractant is placed within 30 feet of the trap; or
 - 3) The trap is elevated at least 3 feet above the surface of the ground or snowpack.

Use of Bait: No person trapping furbearing animals or predatory or unprotected wildlife shall:

- Use live animals as bait or an attractant.
- Use any set within 30 feet of any visible bait.
- Use a dirt hole set with bait unless the person ensures that the bait remains covered at all times to protect raptors and other meat-eating birds from being caught accidentally.
- Use any edible parts (as defined by Idaho Code 36-1202) of a domestic or wild origin game bird, big game, upland game, game fish, or protected nongame wildlife as bait. Edible parts are defined as: 1) game bird breasts; 2) big game hind quarters, front quarters, loins, and tenderloins; 3) game fish fillets, bullfrog hind legs, and crayfish tails; and 4) rabbit and hare hind legs, front legs, and loins.

Except it is legal to:

- Place sets beyond 30 feet of a naturally killed big game animal as long as the carcass is left undisturbed. Natural causes do not include any man-caused mortality.
- Place sets beyond 30 feet of a legally salvaged road kill unless prohibited by the Fish and Game Commission. For more information and to complete the required form to legally salvage road kill, visit our website at idfg.idaho.gov/species/roadkill or call a Fish and Game office, see page 4.

Release of Non-Target Catches: Non-target species are defined as any species caught for which the season is closed or is in excess of the trappers limit. ***All non-target species caught alive shall be released immediately.*** If difficulty is encountered releasing a trapped fisher, wolverine, lynx, mountain lion, or wolf please

contact Fish and Game immediately for assistance.

Any trapper who catches a non-target species that is dead shall:

- Promptly record the date and species of the animal caught.
- Report the catch on the mandatory furtaker harvest report form.
- Remove the animal from the trap and take it into possession.
- Notify Fish and Game through the local conservation officer, a regional office, or the McCall office within 72 hours to make arrangements to transfer the animal to Fish and Game.
- Fish and Game will reimburse trappers \$10 for each lynx, wolverine, bobcat, or fisher caught accidentally and turned in. A \$10 reward will also be paid for otters accidentally taken after the regional quota has been met.

Closed Statewide: There is no open season for fisher, kit fox, lynx or wolverine.

Trapping on Wildlife Management Areas: Trappers must register to trap on Wildlife Management Areas. See page 33.

Traps

Checking Traps: No person shall place snares or traps for furbearing animals, predatory or unprotected wildlife except pocket gophers, most species of ground squirrels, and other unprotected rodents, without visiting every trap or snare once every 72 hours and removing any catch therein.

Trappers acting under authority of the U.S. Department of Agriculture, Animal Plant Health Inspection Service, Wildlife Services are exempt from this rule.

Removing Trapped Animals of Another: No person shall remove wildlife from the trap or snare of another **except** licensed trappers with written permission from the owner.

Tags for Traps

All traps or snares, **except** those used for pocket gophers, ground squirrels or other unprotected rodents, shall have attached to the snare or the chain of every trap, a metal tag bearing in legible English the name and current address of the trapper; or a six-digit number assigned by Fish and Game as it appears on your trapping license adjacent to TRAPPER ID.

Methods of Take—Hunting

Furbearing Animals: No person shall take beaver, marten, mink, muskrat or otter by any method other than trapping. In addition to predatory or unprotected wildlife, the following furbearers may be hunted: badger, bobcat, and red fox.

No person may hunt any furbearing animal with or by the aid of artificial light.

Hunting: No person hunting permissible furbearing animals (badger, bobcat and red fox) or predatory or unprotected wildlife shall:

- Hunt with any weapon the possession of which is prohibited by state or federal law.

No person hunting raccoon at night shall:

- Hunt on private land without obtaining written permission from the landowner or lessee.

Also see **General Hunting Rules, pages 43-45**

Hound Hunting—Furbearer

One (1) or more dogs may be used for hunting bobcat and fox in a hunting season open for the species.

Hound Training/Pursuit Only - Furbearer

Bobcats may be taken by hound hunting when the bobcat hunting and trapping season is open. Outside of the bobcat hunting and trapping season, bobcats may be pursued and treed, but not captured, killed, or possessed, and only when that big game management unit is open for the use of hounds in taking of mountain lions. See current Big Game Seasons and Rules for mountain lion seasons.

Hound Hunter Permit

The following persons must have a valid hunting license and hound hunter permit in possession when any dog is being used to hunt, including training or pursuit only, black bear, mountain lion, bobcat, and fox:

- Anyone who owns the dog.
- Anyone having control of the dog if owned by another person.
- Anyone that harvests a black bear, mountain lion, bobcat, or fox over dogs, **except** clients of licensed outfitters, provided the licensed outfitter or guide accompanying the client has a copy of the outfitter's Hound Hunter Permit.

Areas Closed to All Hunting and Trapping

No person may hunt, trap, kill or molest any game animal, game bird, furbearing animal, or unprotected and predatory wildlife in the following areas:

- All National Parks and National Monuments, including National Historic Parks.
 - **Exceptions to closure:** the portion of Craters of the Moon National Monument within the National Preserve that was added to the Monument in

November 2000 is open to hunting. Contact the National Park Service (208-527-1300 or www.nps.gov/crmo) for a map indicating these boundaries.

- **Exceptions to closure:** the portion of Hagerman Fossil Beds National Monument within an area fifty (50) feet in elevation above the high water level of the Snake River, as marked by yellow fiberglass markers, is open to hunting downslope to the river.
- All state parks.
 - **Exceptions to closure:** Billingsley Creek Unit of Thousand Springs State Park, Castle Rock State Park, and state park lands within the City of Rocks National Reserve are open to hunting. Farragut State Park is open to hunting by archery only.
 - **Exceptions to closure for certain species.** Consistent with the applicable Commission proclamation, Hells Gate State Park and Heyburn State park are open to waterfowl hunting
- Portions of Ada County within the area bounded by State Highway 21, Warm Springs Avenue, and the New York Canal from the New York Canal Diversion Dam downstream to the Boise City limits.
- Mann's Lake in Nez Perce County and extending three hundred (300) yards beyond the Bureau of Reclamation property that encompasses the lake.
- Any other location for which a closure is established by Idaho Code, or Commission proclamation or order, or federal national wildlife refuge regulation or order.

Common Season Boundaries

Whenever a stream or river forms a boundary between two different trapping areas for the same furbearer, the stream or river channel proper shall open for trapping on the earliest opening date and close on the latest closing date of the two seasons involved.

Be a Proud Trapper by being a Good Representative of Trapping.

Trappers are encouraged to use warning signs to inform recreational users that traps or snares are in the area. Trappers may print off copies of the signs from idfg.idaho.gov/trap and post them near their trap lines. Using warning signs is voluntary.

The sign is a courtesy of Idaho Fish and Game in cooperation with the Idaho Trapper's Association.

BOBCAT AND LYNX IDENTIFYING CHARACTERISTICS

BE SURE OF WHAT YOU SHOOT. THE LYNX IS A THREATENED SPECIES WHICH MAY BE MISTAKEN FOR A BOBCAT.

Note: The tail characteristics are most reliable for making positive identification.

	BOBCAT	LYNX
Tail	Underside of tail is white to the tip. Usually some barring on upper side of tail with wide band at end.	Has black tip on tail which completely encircles the end. No barring on upper side of tail between base and tip.
Color	Brownish with clouding or spots over much of the upper body—usually distinct black spots on belly.	Generally pale grey without distinct spotting.
Face	Ear tufts, if present, usually under one inch long. Lacks prominent cheek tufts.	Dark colored ear tufts, conspicuous, 1.5 inches long. Cheek tufts prominent.
Feet	Appear small, lack hair development between pads—bare like those of domestic cat.	Appear large, pads covered with woolly hair.
Size	Appears smaller in overall size (length: 25-37 inches) (weight: 15-35 pounds).	Appears larger in overall size (length: 32-37 inches) (weight: 15-30 pounds). Longer hind legs give the lynx a stooped posture.

Tracks in Snow and Stride Length Comparison for Mountain Lion, Lynx and Bobcat

- Mountain lion and lynx foot sizes are similar; bobcat foot is much smaller.
- Tracks are shown with shaded area representing impression of hair in the snow.
- Note track size and stride length (distance between first and last foot) differences between species.

GUIDELINES TO REDUCE INJURY & MINIMIZE NON-TARGET CATCHES SUCH AS WOLVERINES AND LYNX

- Set pan tension for wolf traps to at least 8 pounds of pressure to prevent a wolverine or lynx from firing a trap set for wolf.
- Make marten sets on leaning poles no larger than 4" in diameter and set at a 45 (or greater) degree angle with trap and bait placed at least 4 feet above the ground or snow level.
- Do not use large bodygrip traps if wolverines or lynx tracks are observed in the vicinity of a set.
- To avoid wolverines in snares set for wolves, place the bottom of the snare loop just below knee cap level (18"- 21" above the ground or packed snow surface).
- If using drags, use at least 8 feet of sturdy chain.
- If a larger trap is preferred, use padded-jaw or laminated offset jaws, such as padded #3 coil-springs, to minimize injury.
- Anchor all traps solidly, including small bodygrip traps. A wolverine may be able to pull out or bend or break a small trap if anchored securely.
- Select habitat less likely to have lynx or wolverines (open fields or semi-open country near rocks, ridges, and trees).
- Avoid using rabbit parts as bait.
- If you observe wolverine or lynx tracks, it is best not to make a set in the area.
- If using a staked set, stake the trap so that a wolverine cannot get entangled around a solid object after being captured. Trap

chains should be sturdy and equipped with at least two swivels. J-hooks should be spot-welded closed.

- Carry a catchpole to release non-target animals alive.

IF YOU CATCH A LYNX OR WOLVERINE...

Immediately contact Fish and Game or your local sheriff's office to assist with the safe release of the animal.

HOW TO AVOID NON-TARGET OTTERS SETTING #330 CONIBEAR TRAPS

Ethics and Responsibility

Demonstrating ethics and responsibility while trapping sends many positive messages that nontrappers understand and appreciate more than any explanation. These ethics relay the message that we are proud to be trappers, we care about our activities, and we care about the resource we're using.

Key ingredients for trappers:

- **Maintain good landowner relations**
- **Respect other outdoor enthusiasts**
- **Avoid using traps near heavily used recreational trails.**
Trail users may have dogs which could be attracted to traps
- **Stay current with improvements in trapping equipment and techniques**
- **Appreciate perceptions of nontrappers**
- **Respect the resource**

Some Methods for Improving Efficiency, Selectivity, and Humaneness

- Use pan tension devices to avoid non-target catches.
- Use extra swivels and center-mounted chains to hold more animals and reduce the chance of injuries.
- Use modern positioning techniques at dirt hole sets to increase selectivity.
- Use short trap chains for most land sets, especially those targeted for fox and coyote.
- Use "stop-loss" traps for muskrats in shallow water or dry land sets.
- Use dispatching methods that are quick and humane.
- Use trap sizes that are appropriate for the target species – pad catches are desirable for fox, coyote, raccoon and many other animals because they cause fewer injuries.
- Use baits and lures that attract target species but not other animals.
- Use cage, box or species-specific traps near barns, outbuildings and other locations where domestic animals may be present.
- Use common sense in choosing set locations that maximize opportunities to catch target species and minimize opportunities to catch other animals.
- Use secure methods of attaching traps – tailor methods to hold the largest species you may catch.
- Use traps with padded or laminated jaws where the risk of non-target catches is high.
- Use caution when setting body-gripping traps or snares.
- Do not set more traps than you can check in 72 hours even in bad weather.

Three Key Messages to Use When Educating the Public About Traps, Trapping, and Furbearer Management

- Furbearing animals are a sustainable, renewable resource. Some people have the notion that furbearing animals are rare or endangered. We need to reassure them that legally trapped animals are numerous and their populations secure.
- Trapping is controlled through strict regulations that are enforced by conservation officers. People may fear that trapping is a "free-for-all," with no sort of control or regulation. To overcome this fear, we must reinforce the message that trapping is a highly regulated activity in Idaho and nationwide.
- Trapping provides a wide range of benefits to society. People often ask, "Is trapping really necessary?" We need to tell them about the wildlife management, economic (to the trapper and for damage control), and lifestyle benefits of trapping.

Idaho's Mandatory Trapper Education Course

Trappers who want to purchase their first Idaho trapping license after June 30, 2011 are required to attend a mandatory trapper education course before they can purchase an Idaho trapping license. The course covers trapper ethics and responsible trapping, trapping regulations, avoiding non-target catch, furbearer identification, equipment, safety, and basic trapping methods. It is predominately classroom-based, but may include some field exercises.

Please **note** that the wolf trapper education course is not a substitute for this class. Trappers wanting to trap wolves also must attend a wolf trapper education course.

For more information, please visit idfg.idaho.gov/trap/education.

ATTENTION GROUND SQUIRREL HUNTERS

Northern Idaho Ground Squirrel

Federally protected under the Endangered Species Act

KNOW YOUR TARGET

Hunting Not Allowed

Hunting of ground squirrels is **not legal for some species** with limited abundance and distribution. These species include: Northern Idaho Ground Squirrel (also federally protected—see map), Southern Idaho Ground Squirrel, Common Rock Squirrel, Piute Ground Squirrel, Merriam's Ground Squirrel, Common Golden-mantled Ground Squirrel, and a subspecies of Wyoming Ground Squirrel in southwest Idaho.

Hunting Allowed

A valid Idaho hunting license is required for hunting ground squirrels. Hunting is **legal for the following species**: Yellow-bellied Marmot, White-tailed Antelope Squirrel, Uinta Ground Squirrel, Belding's Ground Squirrel, Columbian Ground Squirrel, and two subspecies of Wyoming Ground Squirrel in eastern Idaho.

For More Information

Many of these species are difficult to tell apart in the field, so if in doubt, don't shoot! Different species that are illegal or legal to shoot often live in the same habitat. For more detailed information about Idaho ground squirrels, please visit **idfg**, idfg.idaho.gov/hunt/ground-squirrel or contact a local Idaho Fish and Game regional office in the area you plan to hunt.

Pet Owners: Tips on Trap Avoidance

View our Videos:

- How To Recognize and Avoid Wildlife Traps while Walking your Dog
- How To Release Your Dog From A Trap

And our Brochure:

- How to Release your Pet from a Trap

Visit: idfg.idaho.gov/trap

It Is Unlawful

- To hunt on cultivated or posted private lands without permission. See Trespass Law, page 45.
- To hunt or take any wildlife without a valid hunting license on your person.
- To take any game without the proper tag and/or permit.
- To shoot from or across the traveled portion, shoulders, or embankments of any road maintained by any government entity.
- To hunt game from any motorized vehicle, **except** holders of a valid handicapped persons Motor Vehicle Hunting Permit may hunt from a motorized vehicle when the vehicle is not on a public road and not in motion.
- To operate any vehicle in an area designated as closed for that specific vehicle type.
- To operate a motor vehicle in violation of area, trail or road restriction.
- To use aircraft, including unmanned aircraft, to locate game and communicate location to persons on the ground, or to use any helicopter to transport hunters, gear or game **except** at established landing fields.
- To use any motorized vehicle including any unmanned aircraft system (drone) to molest, stir up, rally or drive in any manner any game animal or bird.
- For all hunters, anglers and trappers, with or without game or fish, to not stop and report at any check station established to inspect licenses and fish and game – even if hunting, fishing or trapping was done outside the state of Idaho.
- To fail to produce wildlife in possession for inspection upon request of a conservation officer or other person authorized to enforce Idaho Department of Fish and Game laws.
- To hunt any animal or bird by aid of a spotlight, flashlight or artificial light of any kind; **except** unprotected or predatory animals on private land after obtaining written permission, and on public lands after obtaining the required permit from a Fish and Game regional office. It is lawful to hunt raccoons on public lands without a permit if such taking is not in violation of state, county, or city laws, ordinances, or regulations.
- To allow or cause the waste of edible portions of any game animal, **except** for mountain lion, black bear or gray wolf. Edible portions are defined as:
 - Game birds - Breasts
 - Upland game animals - Hind legs, front legs and loins of rabbits and hares
 - Big game animals - Hind quarters, front quarters, loins and tenderloins
 - Game fish - Fillets of fish, hind legs of bullfrogs and tails of crayfish

- To transfer any license, tag, or permit or use another's license, tag, or permit.
- To party hunt, or help fill another hunter's bag.
- To take more animals than the hunter has legal tags for that species.
- To destroy or disturb traps or remove any wildlife from traps belonging to others.
- To enter Idaho with livestock without a health certificate for transport and a brand inspection slip.
- To intentionally interfere with the lawful taking of wildlife or lawful predator control by another.
- To hunt any upland game bird with the aid of baiting. Bait is defined as any substance placed to attract upland game birds. Baiting is allowed for some big game animals (see current Big Game Seasons and Rules).
- To possess or transport game or parts (including processed meat) taken by another person without having a proxy statement, see page 53.

Wounding and Retrieving

No person shall wound or kill any upland game bird, upland game animal or furbearer without making a reasonable effort to retrieve it and reduce it to possession. Every upland game bird, upland game animal or furbearer wounded by hunting and reduced to possession shall be killed immediately and become a part of the daily bag limit.

Identification of Species in Possession, Transportation or Shipment

Any person in possession of or transporting harvested game that has been lawfully taken and reduced to possession must comply with the following requirements:

- No person shall transport for another, receive for cleaning, processing, or storage, or accept as a gift any harvested game unless it is accompanied by a written "proxy" statement signed by the taker. A blank proxy statement is on page 53. It must be filled out completely for the appropriate species to be valid. Migratory game birds accepted as a gift shall apply to the recipient's possession limit. Migratory game birds being temporarily possessed or transported for the taker, as provided above, shall not apply to the non-taker's possession limit.
- Any time big game, turkeys, or sandhill cranes are transported, a validated tag must be attached to the largest portion of the carcass. In addition, the taker must be in possession of the appropriate hunting license and permits. Any person transporting big game for another (including big game animal parts, processed meat, and/or gifts of big game that do not exceed the lawful possession limit) must be in possession of any applicable permits and all information from the proxy statement, see page 53. The validated tag must remain

attached to the carcass until the meat is processed. The validated tag must accompany the meat to the place of final storage or until final consumption.

- One fully-feathered wing or head must be left naturally attached to any dressed game bird (except turkey) and Eurasian collared doves; the beard or leg must be left naturally attached to turkey carcasses. Naturally-attached parts are needed so enforcement and management personnel are able to identify the species and sex of the birds in possession or being transported.
- Any package or container in which game species are being transported by common carrier must have the name, address, and hunting license number of the shipper, the name and address of the consignee, and an accurate statement of the species and number of each contained in the package or container clearly and conspicuously marked on the outside.
- No person shall give another any game species to possess or transport unless they also give the transporter a written proxy statement, see page 53.
- When a wild turkey is accompanied by a written statement as provided above and is being transported for another, it shall not be counted in the possession limit of the person transporting the wild turkey.

Areas Closed to all Hunting and Trapping

No person may hunt, kill, trap or molest any game animal, game bird, furbearing animal, or unprotected and predatory wildlife in the following areas:

- All National Parks and National Monuments, including National Historic Parks.
 - **Exceptions to closure:** the portion of Craters of the Moon National Monument within the National Preserve that was added to the Monument in November 2000 is open to hunting. Contact the National Park Service (208-527-1300 or nps.gov/crmo/learn/management/lawsandpolicies.htm) for a map indicating these boundaries.
 - **Exceptions to closure:** the portion of Hagerman Fossil Beds National Monument within an area fifty (50) feet in elevation above the high water level of the Snake River, as marked by yellow fiberglass markers, is open to hunting downslope to the river.
- All state parks.
 - **Exceptions to closure:** Billingsley Creek Unit of Thousand Springs State Park, Castle Rock State Park, and state park lands within the City of Rocks National Reserve are open to hunting. Farragut State Park is open to hunting by archery only.
 - **Exceptions to closure for certain species.** Consistent with the applicable Commission proclamation, Hells Gate State Park and Heyburn State park are open to waterfowl hunting

- Portions of Ada County within the area bounded by State Highway 21, Warm Springs Avenue, and the New York Canal from the New York Canal Diversion Dam downstream to the Boise City limits.
- Mann's Lake in Nez Perce County and extending three hundred (300) yards beyond the Bureau of Reclamation property that encompasses the lake.
- Any other location for which a closure is established by Idaho Code, or Commission proclamation or order, or federal national wildlife refuge regulation or order.

Areas Closed to Hunting of all Game Birds

Hunting, killing, or molesting of any game bird is prohibited in the following areas:

- Roswell Marsh Wildlife Habitat Area in Canyon County on Sundays, Mondays, Tuesdays and Wednesdays from September 15 through the end of the waterfowl hunting season in the area south of Highway 18 and west of Pebble Lane (Roswell Marsh segment).
- Lewiston Preserve in Nez Perce County (Idaho Code 36-1908). The area along the Clearwater River from Lewiston city limits upstream to Spalding railroad bridge, between Highway 95/12 on the north side and the Camas Prairie railroad on the south side.
- Springfield Bird Preserve (Springfield Bird Haven) in Bingham County (Idaho Code 36-1911). The area beginning 1 mile west of Springfield, Idaho on State Highway 39, and running north one-quarter mile, then east one-half mile, then south to State Highway 39, then east along the north line of Highway 39, then east along the north line of Highway one-half mile, then south one-half mile to the West 850 Road, then west along this road three-fourth mile, then northwesterly in a straight diagonal line to the point of beginning.

State Park Rules

Certain types of hunting are allowed on some state parks. Please contact the state park you are interested in visiting to determine hunting opportunity.

Protection of Wildlife: All molesting, injuring or killing of any wild creature is strictly prohibited, **except** as provided by action of the Idaho State Parks and Recreation Board and as established in board policy. Persons in possession of wildlife, which may be legally taken within state park boundaries, must comply with Idaho Fish and Game rules.

Personal Safety: No person may purposefully or negligently endanger the life of any person or creature within any land administered by the Department of Parks and Recreation. No person may discharge firearms or any other projectile firing devices within any lands administered by the Department of Parks and Recreation, **except** in the lawful defense of person, persons or property or in the course of lawful hunting, or for exhibition or at designated ranges as authorized by the director of the Department of Parks and Recreation.

Other Rules

National Wildlife Refuges: More restrictive regulations may apply to National Wildlife Refuges. Hunters should check refuge regulations before hunting.

Indian-owned Reservation Lands: Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes (18 US Code 1165).

Trespass Law

All persons must have written permission or other lawful permission to enter private property. The law specifies:

No person shall enter or remain on private land to shoot any weapon or hunt, fish, trap or retrieve game without written permission or other lawful permission. **See page 2 for permission form.**

Indian-owned Lands and National Wildlife Refuges

Warning: Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing or trapping purposes (18 U.S. 1165).

Trapping on National Wildlife Refuges is under federal regulations by permit only, and steel shot may be required on certain refuges for some upland game species. Check with federal refuge manager.

Hunting of Predatory & Unprotected Animals

Some animals are classified as “predators” or as “unprotected” and can be hunted and taken all year. Animals classified as predators in Idaho include coyotes, raccoons, jackrabbits, skunks, weasels, rattlesnakes and starling. The most frequently hunted unprotected animals include marmots, fox squirrels, porcupines, opossum and Columbian ground squirrels, English sparrows, Eurasian-collared doves, and feral pigeons. These species may be taken in any amounts and at any time by holders of the appropriate valid Idaho hunting, trapping or combination hunting license, provided such taking is not in violation of state, county, or city laws, ordinances or regulations.

Protected Nongame Wildlife, Species of Special Concern, Threatened or Endangered Species, Protected Birds

Special classifications for some animals extend extra protection to those species. These animals cannot be hunted, taken or possessed. Threatened or endangered wildlife include caribou, Canada lynx, grizzly bear, and Northern Idaho ground squirrel. Protected nongame wildlife include wolverine, chipmunks, rock squirrel, Wyoming ground squirrel (nevadensis subspecies only), golden-mantled ground squirrel, Merriam’s ground squirrel, Piute ground squirrel, pika, kit fox, northern flying squirrel, bats, Southern Idaho ground squirrel and migratory song birds. See page 42 for ground squirrel information.

All birds in Idaho are protected **except** starlings, Eurasian-collared doves, English sparrows and feral pigeons. Protected nongame birds cannot be hunted, taken or possessed (including

parts of birds, even if found dead). All hawks, owls, eagle and vultures are protected. Game birds may be taken only in accordance with established hunting rules.

For a pamphlet on collecting, possessing, and importing amphibians and reptiles contact a Fish and Game office or visit idfg.idaho.gov.

Bird Dog/Falconry Training Permits

- A permit is required to train bird dogs or practice falconry on private/public lands (excluding licensed shooting preserves) when the release of artificially propagated upland game birds or waterfowl will be part of the training process. Permit applications are available at Fish and Game regional offices.
- A permit is required to sponsor/conduct any organized competitive dog trials/tests on private or public lands (excluding licensed shooting preserves) when artificially propagated game birds are used. The permit is required even if live birds are not used or released during the trial on Wildlife Management Area lands. Permit applications are available at Fish and Game regional offices.

Hunters: Watch For Traps Set For Furbearers!

- Ask landowners if there are traps set on their land — and avoid them.
- If a hunting dog is accidentally caught in a trap, it should be removed with caution. Although usually not seriously harmed, a dog in a trap will be frightened and may bite. As gently as possible, cover the dog’s head with a jacket, etc., and carefully remove the trap.
- For more information and videos visit: idfg.idaho.gov/trap

Set it and forget it.

idfg.idaho.gov

2026 & 2027 UPLAND GAME, FURBEARER LICENSES AND PERMITS

For all resident and nonresident license, tag and permit fees, see pages 50-53.

No person shall hunt, trap, or fish for or take any wild animal, bird or fish of this state or practice falconry without first having procured a license.

Before purchasing a hunting license, all applicants born on or after Jan. 1, 1975 must complete a state approved hunter education course. See page 47.

The resident Junior Hunting license (for ages 10-17) may be issued to qualified persons who are 9 years of age to allow them to apply for controlled hunts, however, the youth may not hunt until they are 10 years of age. Youth with a Junior Hunting License who are younger than 12 may hunt big game and must be accompanied in the field by an adult licensed to hunt in Idaho. This license is valid for game animals (ages 10-17), game birds, unprotected and predatory wildlife.

A Nonresident Junior Mentored Hunting license is available for youth ages 10-17. Anyone hunting with this license must be accompanied by a licensed adult 18 years or older who holds a current year license and tag that is valid for the same species as the youth hunter, and is close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices. A 9-year old may buy a license to apply for a controlled hunt, but he or she must be 10 years old at the time of the hunt.

Both the Three-Day Nonresident Small Game Hunting License (valid for three consecutive days) and a Nonresident Small Game Hunting License are valid for hunting upland game birds, turkey, migratory game birds, upland game animals, huntable furbearers, and unprotected or predatory wildlife. Nonresident licenses are **not valid during the first five days of pheasant season.**

License and Permit Requirements by Species

To hunt sharp-tailed grouse, hunters must purchase a hunting license and a Sharp-tailed grouse permit.

To hunt sage-grouse hunters must purchase a hunting license and a sage-grouse tag. Sage-grouse tags go on sale at 10:00AM MDT August 3, 2026 (2026 season) and August 2, 2027 (2027 season). See page 9 for more information.

A hunting license is required to hunt pheasants.

Any person 18 years of age or older hunting or having a pheasant in his or her possession where the Idaho Fish and Game stocks pheasants must have a valid Idaho hunting license and Upland Game Bird Permit in possession. Permits are valid for six pheasants; multiple permits may be purchased.

Other Species

Hunters who pursue quail, partridge, forest grouse, rabbit, hare, crows, predators and unprotected species must purchase a hunting license. No special permits are required. Pygmy rabbit season is closed. Mountain quail and Gambel's quail seasons are closed.

A hunting license is required to practice falconry in Idaho. Falconers also must obtain proper state and federal permits for training and possessing a bird of prey. Contact the nearest Idaho Department of Fish and Game regional office for more information.

Nonresident falconers must have a valid Idaho hunting license, all necessary validation and a valid falconry permit from their state of residence.

Migratory Game Birds

To pursue doves, ducks, geese, coots, sandhill cranes or Wilson's snipe, hunters must purchase a hunting license and Migratory Bird (HIP) permit. Hunters 16 years or older also need a federal duck stamp for ducks, geese and coots.

Trapping License

No license is required for resident children under the age of 14 years to trap muskrats from irrigation ditches or property on which they live during the open season. A license is not required for resident children under the age of 12 years to hunt, take or kill predatory, unprotected birds and animals by means other than with firearms.

Trapping Reciprocal Agreement

Attention Nonresident Trappers: A nonresident Idaho trapping license allows you to trap only those species that your home resident state allows nonresidents to trap and that there is an open season for those species in Idaho. Quotas apply. For states with multiple quotas, the most restrictive trapping quota will apply in Idaho. Nonresidents are advised to review their home state's nonresident trapping rules.

A graphic with a background image of a mountain range under a cloudy sky. In the center is the Idaho Fish and Game logo, which is a circular emblem with 'IDAHO' at the top, 'FISH & GAME' at the bottom, and a central illustration of a fish and a bird. Below the logo, the text 'Idaho Hunting and Fishing Access Programs' is written in a large, bold, white font. Underneath this, a paragraph in white text states: 'Idaho Fish and Game partners with state, federal, and private landowners to allow public access to over three million acres of your favorite hunting areas, rivers, lakes, and reservoirs.' Below the paragraph is a bulleted list in white: '• Idaho State Endowment Lands', '• Large Tracts', and '• IDFG AccessYes!'. At the bottom left, white text says: 'Scan the QR code or visit idfg.idaho.gov/visit to learn more about these sportsmen programs and access interactive maps.' To the right of this text is a square QR code.

Idaho Hunting and Fishing Access Programs

Idaho Fish and Game partners with state, federal, and private landowners to allow public access to over three million acres of your favorite hunting areas, rivers, lakes, and reservoirs.

- Idaho State Endowment Lands
- Large Tracts
- IDFG AccessYes!

Scan the QR code or visit idfg.idaho.gov/visit to learn more about these sportsmen programs and access interactive maps.

To Buy a License, Tag or Permit

- Go to Idaho Fish and Game's online licensing site at **GoOutdoorsIdaho.com**.
- Download the "Go Outdoors Idaho" mobile app directly on your smart phone.
- Dial **1-800-554-8685**. Outside the U.S., use the internet or mail.
- Commercial licenses and tags, duplicate tags, documents that require proof of disability, lifetime licenses, and bear-baiting permits can only be purchased at Fish and Game offices.

A credit card fee is added for online and telephone transactions.

For an overview of all license buying options, go online to Idaho Fish and Game's website at **idfg.idaho.gov/buy**.

When purchasing over the telephone the buyer should ensure they have a valid email address on file to receive their purchase confirmation. Tags and/or permits that require notching must be physically received in the mail. A confirmation email cannot be used in lieu of a tag or some permits.

Licenses purchased online must be printed from the buyer's computer, or downloaded to the Go Outdoors Idaho mobile app; they will not be mailed without an additional fee. However, all tags and notchable permits will be mailed. A confirmation email may not be used in lieu of a tag or salmon/steelhead permit or Upland Game Bird Permits. Purchasers must wait until tags or permits arrive in the mail.

Electronic copies of licenses can be used in the field. This includes licenses downloaded directly to the **Go Outdoors Idaho** mobile app, or an email copy of the license.

Licenses, permits, and tags purchased online and over the phone can be paid for using a Visa, MasterCard, or Discover card, and are subject to a credit card fee of 3% of the transaction plus \$4.00 for online sales (unless requesting a license be mailed, than \$5.50) and \$6.50 for phone sales.

Any license, tag or permit that is defaced or altered is invalid from the date and time of issue. It is unlawful to use or attempt to use any license that has been defaced or altered.

Sale Dates: Most licenses, permits, and tags go on sale December 1, for the upcoming year; but resident deer and elk tags are not available until after the deer and elk controlled hunt drawings are done in early July. Sage Grouse and Sandhill Crane tags go on sale August 1. Most licenses are valid only for the calendar year for which they are issued.

Hunter and Bowhunter Education

- To buy a hunting license, all hunters must show proof that they have completed a hunter education course if they were born on or after January 1, 1975, unless they have held a valid hunting license from Idaho or another state.
- To buy an archery permit, all bowhunters must possess a

valid hunting license and show proof they have completed an approved bowhunter education course or show evidence of having been licensed for an archery-only hunt in Idaho or another state. Hunters submitting an approved education course certification should allow Fish and Game staff 3 - 5 business days to process and should not submit the documentation immediately preceding a tag sale.

- Course and registration information can be found on Fish and Game's website at **idfg.idaho.gov/hunt/education** or by contacting any Fish and Game office.
- **Individuals planning to participate in fall hunts are encouraged to enroll in a course before June 30, as the number of courses offered becomes very limited closer to fall hunting seasons.**
- Prospective hunters have two course options to receive their certification: **Instructor-led Course** – 8 to 10 class hours plus an outdoor field day and final written exam.
Online Course – A self-paced, online instruction and an online exam. Check **idfg.idaho.gov/hunt/education**.

Refund Policy

Important note: IDFG has proposed rule changes that may impact refund options. If adopted, these changes will become effective July 1, 2026. Please visit **idfg.idaho.gov/nonresident-refund-information** for the most up to date information.

No refunds will be made on resident licenses, tags or permits. No refunds will be made on fishing licenses. Nonresident hunting licenses and tags may be refunded less issuance fees and a \$50 processing fee, in the event of:

- Illness or injury that disables a license holder for the entire applicable hunting season.
- Military deployment of license holder due to armed conflict.
- Death of the licensee.

Tags and license must be returned with proof (death certificate, obituary, written justification by a licensed medical doctor, or copy of military orders). Hunting license fees will not be refunded after the license is used to apply for a controlled hunt or to buy a turkey, mountain lion or bear tag. The request must be postmarked by December 31 of the year in which the license was valid, except for "event of death" refund, which must be submitted within 1 year of the death.

Hunting license and/or tags fees will not be refunded if the license and/or tag has been used for hunting in any capacity.

A controlled hunt tag may be made available in the same hunt for purchase by an immediate family member of a person who died before using his or her tag. Contact Licenses at (208) 334-2592.

If a refund is requested for any other reason, only the tag fees (not the license or permit fee) may be refunded at the following sliding scale rate:

- Postmarked before April 1 – 75 percent refund.
- Postmarked April 1 through June 30 – 50 percent refund.
- Postmarked July 1 through August 31 – 25 percent refund.
- Postmarked September 1 through December 31 – No refund. For more information please visit idfg.idaho.gov/nonresident-refund-information.

Resident Disabled Licenses

Any resident certified as permanently disabled or eligible for federal supplemental income (SSI), social security disability income (SSDI), railroad retirement board disability, a nonservice-connected veteran's pension, or a service-connected veteran's disability benefit with 40 percent or more combined/overall disability rating, may qualify for a "disabled" license. An applicant must provide either a benefit verification letter from the Social Security Administration in their name showing they are receiving SSI or SSDI benefits for the current year, or a letter from the Railroad Retirement board verifying disability status and being dated within 3 years preceding application for a license, or an official identification card issued by the U.S. Department of Defense, or a letter of any date from the U.S. Department of Veterans Affairs verifying a service-connected disability rating of 40% or greater, or a current year's letter from the Veteran Affairs office showing the applicant is receiving a nonservice-connected pension, or a form prescribed by the department that certifies permanent physical disability. A physically disabled person means a person who has lost the use of one (1) or both lower extremities or both hands, or is unable to walk 200 feet or more unassisted by another person or without the aid of a walker, cane, crutches, braces, prosthetic device or a wheelchair, or is unable to walk 200 feet or more without great difficulty or discomfort due to one or more of the following impairments: neurological, orthopedic, respiratory, cardiac, arthritic disorder, blindness (a medically documented loss or impairment of vision and includes any person whose visual acuity with correcting lens does not exceed 20/20 in the better eye, or whose vision in the better eye is restricted to a field which subtends an angle of not greater than 20 degrees), or the loss of function or absence of a limb.

An applicant may present a valid Idaho driver's license if the holder meets disability requirements or section 49-117(7)(b), Idaho Code, and license is marked as disabled.

Disabled licenses may be purchased at Fish and Game offices, selected license vendors (see website at idfg.idaho.gov/licenses for list), and through the mail.

Disabled Hunter and Companion

The rules for a companion assisting a disabled hunter allow the companion to take an animal that has been wounded by the disabled hunter and to place and validate the disabled hunter's tag on the animal.

The rules apply for disabled hunters who possess a valid disability license, disabled archery permit, a disabled hunt-from-a-motor-vehicle permit and a valid tag, or a disabled

veteran participating in a hunt as provided in section 36-408(7), Idaho Code, and has a valid tag or permit.

The companion is not required to have a tag or controlled hunt permit to assist a disabled hunter. However, the companion must have a valid license and applicable special weapon permit (i.e. – for an archery only hunt, the companion would need an archery permit) when assisting a disabled hunter.

The companion must have a written statement of designation from the disabled hunter while hunting with the disabled hunter or assisting them with taking and tagging their harvested animal. The statement must include the disabled hunters name, address, hunting license, big game tag number and the dates of the designation as a companion.

The companion must accompany the disabled hunter while hunting and they are required to be within normal conversation or hearing range without shouting or the aid of electronic devices.

For more information about the rules for a companion to a disabled hunter, please contact your local Fish and Game office, see page 4.

Resident Lifetime License Certificates

The purchase of a lifetime certificate could be the best investment you ever make. Lifetime certificates authorize all privileges associated with a corresponding annual license, are valid for the life of the certificate holder and are available to Idaho residents. The lifetime certificate does not include tags and permits. If a lifetime certificate holder moves out of Idaho, they will continue to receive an annual license, but will pay nonresident tag and permit fees. Lifetime certificates can be purchased at Idaho Fish and Game offices only.

Applicant	Combination	Hunting	Fishing	Trapping
0 - 1 year	\$795.50	\$276.75	\$601.75	\$701.75
2 - 50 years	\$1,113.00	\$386.75	\$841.75	\$981.75
51 and older	\$636.75	\$221.75	\$481.75	\$561.75

Idaho Residency Requirements

Proof of residency is required to buy any resident license. A previous year's license is not proof of residency.

1. Drivers must present: A valid Idaho driver's license and must have been domiciled in the state of Idaho for the last six months immediately prior to purchasing a resident license, tag or permit. Owning real property or paying property taxes within the state of Idaho does not in itself establish residency. You cannot claim resident privileges in any other state or country if you intend to claim residency and purchase resident licenses in the state of Idaho.

2. Non-drivers must present: An Idaho identification card

issued by the Department of Transportation; or a combination of two documents bearing your name and address but not issued by yourself.

Examples include:

- Home utility bills for the previous six months.
- Rent receipts or mortgage statements for the previous six months.
- Notarized statement from an employer on business letterhead.
- Proof of voter registration dated six months prior.
- For a minor child under 18, identification from a parent.

Important note: Idaho residents without a valid Idaho driver's license cannot purchase resident items through the online licensing system. Idaho residents with other residency qualification documentation must purchase resident items at an in-person vendor location or Idaho Fish and Game office.

3. Military members: A nonresident member of the Armed Forces of the United States or a foreign country, which includes state National Guard or Air National Guard, may obtain a resident license provided the service member presents a copy of assignment orders appropriate for the branch of service, such as "Request for Authorization for Permanent Change of Station-Military" that indicate the member is on active duty with permanent duty station in Idaho at the time of license application. The nonresident active duty member's spouse and dependent children less than 18 years of age may obtain a resident license, provided they present a copy of the service member's assignment orders and documentation they are a member of the active duty members household. Authorized documentation includes a marriage certificate, identification issued by the Idaho Department of Transportation indicating the same address as the active duty service member, or a current signed "Military Status and Residency Affidavit".

Members of the Armed Forces who are not residents of Idaho, and who are stationed or domiciled in Idaho fewer than 30 days immediately preceding application are not eligible for a resident license military furlough license and must purchase nonresident licenses and tags.

This is a summary of residency requirements, for additional details see Idaho Code 36-202(S) and 36-405; online at idfg.idaho.gov/title36 and idfg.idaho.gov/idapa13 or contact your local Fish and game office. Persons who do not qualify as residents must purchase a nonresident license.

Hunting Passport

The Hunting Passport allows first-time hunters, resident or nonresident, to trial hunting with a licensed adult for only \$1.75 without having to complete a hunter education course. A Hunting Passport can be purchased online at Idaho Fish and Game's licensing site GoOutdoorsIdaho.com, at a regional office, or at a local vendor.

The Hunting Passport can only be purchased once in a lifetime for individuals who have previously never held a hunting

privilege in any state, (**except** an 8-year-old may obtain an additional passport each year until turning 10 years of age) and is valid for one calendar year, just like a hunting license, and expires on December 31 of the year in which it was obtained.

An individual must be at least 8 years of age or older to purchase a passport. Holders of a Hunting Passport must purchase general season tags, and all permits and validations to participate in the hunt. Hunters 8 to 9 years of age can hunt game birds (except sandhill crane), upland game animals, turkey, furbearers, predatory or unprotected species. Hunters 10 years of age and older can hunt big game, game birds (including sandhill crane), turkey, upland game animals, furbearers, and predatory or unprotected species.

Hunters cannot apply for a controlled hunt with a Hunting Passport.

Hunting Passport license holders must be accompanied by an eligible adult hunting mentor.

Responsibilities of the Hunting Mentor:

- Mentor must be at least 18 years of age.
- Mentor must have a valid Idaho hunting license.
- Mentor may not accompany more than two mentored hunters at one time. Accompany means close enough to be within normal conversation or hearing range without shouting or the aid of electronic.
- No registration is required for the mentor.

For more details and frequently asked questions about the Hunter Passport, please go to idfg.idaho.gov/hunt/passport.

Resident License, Tag and Permit Fees

Prices listed below include prices for those who are in the Price Lock program, and prices for those who are not price locked. Visit idfg.idaho.gov/licenses/pricelock for more information. See important notes on next page.

Resident Notes:

- ¹ The sportsman's package includes deer, elk, turkey, bear, gray wolf and mountain lion tags, and archery, muzzleloader, salmon and steelhead permits.
- ² Available only at Idaho Fish and Game offices.
- ³ Disability must be certified by a medical doctor on a Fish and Game form.
- ⁴ Must have a senior combination or hunting license, a junior combination or hunting license, a junior hunting passport, or a DAV combination or hunting license.
- ⁵ All youth younger than twelve must be accompanied in the field by an adult license holder close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices. A 9-year old may buy a license to apply for a controlled hunt tag, but he or she must be 10 years old at the time of the hunt.
- ⁶ Anyone hunting with this license must be accompanied in the field by an adult license holder close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.
- ⁷ If a 3-year resident hunting, fishing or combination license holder moves out of Idaho, the license will remain valid, but the holder will be required to purchase nonresident tags and permits.

Nonresident Notes:

- ¹ These licenses and permits are only available at Idaho Fish and Game offices.
- ² Anyone hunting with this license must be accompanied in the field by an adult license holder close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices.
- ³ Disability must be certified by a medical doctor on a Fish and Game form.
- ⁴ Must have a Junior Mentored Hunting license, Junior Hunting Passport, or a DAV license. Any adult accompanying any youth possessing a Junior Mentored tag(s) must have a tag(s) for the same species. Junior Hunting Passport mentors may not accompany more than 2 mentored hunters at one time.
- ⁵ Anyone hunting with this license must be accompanied in the field by an adult license holder close enough to be within normal conversation or hearing range without shouting or the aid of electronic devices. A 9-year old may buy a license to apply for a controlled hunt, but he or she must be 10 years old at the time of the hunt.
- ⁶ Disability must be certified by the U.S. Department of Defense or by Veterans Affairs on their official letterhead showing combined service-connected disability rating of 40% or more.

Be safe, enjoy your season and remember...

- **Be a mentor.** Pass on the heritage and traditions of hunting, fishing and trapping in Idaho.
- Hunting on private land is a privilege. Always get permission and thank the landowner.

BE A  GOOD
WITNESS
FOR WILDLIFE

You can help conservation officers make a case by providing these key details when reporting a violation:

- **Complete license plate**, vehicle make, model and color
- **Suspect description**
- **Location** including GPS coordinates
- **Wildlife involved**
- **Photos or video** from the scene

Don't delay in reporting. Remember, never confront someone who might be doing something illegal. Your safety is always the most important thing to consider.

Report a wildlife crime by calling the Citizens Against Poaching hotline at **1-800-632-5999** or online at **idfg.idaho.gov/tipline**.
