

## IDAHO FISH AND GAME GOLDSHEET

### **January 2026 Commission Meeting**

**Agenda Item:** 2025 Outfitter Use Report

**Presented by:** Rick Ward and Tara Reichert

**Position/Title:** State Wildlife Manager, and License Operations Manager

**Agenda Item No.: 8**

**Supervisor Approval:** SR

#### **Background:**

Beginning with the 2021 season, outfitter tag sales have been administered through IDFG's licensing system, providing improved tracking and monitoring of outfitter tag use. Staff will present a statewide overview of the final 2025 general-hunt outfitter tag sales and use by tag type, including:

- Tags allocated to outfitters
- Tags purchased by outfitters
- Allocated tags returned to the nonresident pool
- Non-outfitted tags converted to outfitted tags
- Unused outfitter allocation

#### **Statutory Authority and/or Policy Issues:**

Rules addressing implementation of caps and allocation of tags in capped general hunt zones and controlled hunts appear in IDAPA 13.01.04.505, Deer and Elk Tag Allocation. Commission authority and options for allocating general season deer and elk tags to clients of licensed outfitters appear in Idaho Code 36-408 and IDAPA 13.01.04.505.

#### **Public Involvement Process:**

Department staff continue to work closely with Idaho Outfitters and Guides Licensing Board (IOGLB) staff and Idaho Outfitters and Guide's Association (IOGA) leadership on outfitter use data and tag allocation. Public input was collected in conjunction with prior Commission meetings and during rulemaking and legislation related to nonresident limits and outfitter set-aside tag limits.

#### **Justification:**

This agenda item is for Commission information on the final status of 2025 outfitter-allocated tag use in general deer and elk hunts.

#### **Staff Recommendation:**

N/A – informational only.

#### **Suggested Motion:**

N/A – informational only.
