

Rayonier General Policies and Regulations

Idaho Department of Fish and Game Large Tracts Public Recreational Access Program

Background

These General Policies and Regulations (these "Rules") apply to the use of land in the state of Idaho owned by PotlatchDeltic Forest Holdings, LLC, a Delaware limited liability company and a wholly-owned subsidiary of Rayonier Operating Company LLC, a Delaware limited liability company (collectively, "Rayonier") pursuant to the Idaho Department of Fish and Game Large Tracts Public Recreational Access Program (the "Program"). The use of land in the state of Idaho owned by Rayonier is subject in all respects to the terms of the Idaho Department of Fish and Game Large Tracts Public Recreational Access Program Non-Exclusive Lease, dated May 13, 2019, between the Idaho Department of Fish and Game and PotlatchDeltic Corporation (the "Lease").

General Rules

Subject to the terms of the Lease, the Program, and these Rules, Rayonier land in Idaho may be used for ***Recreational Activities***.

- ***Recreational Activities includes*** lawful hunting, fishing, and trapping; wildlife viewing; hiking; and recreational travel limited to motor vehicle travel on roads open to full-sized vehicles and non-motorized travel.

- ***Recreational Activities does not include*** camping, use of motor vehicles (including ATVs, UTVs, motorbikes, and snowmobiles) off of roads open to full-sized vehicles, cutting or removing wood, exploring for or removing valuable rocks, minerals, or gravel; gathering of plant materials or mushrooms for commercial use; collecting from or otherwise disturbing archaeological, historical, or paleontological sites; or outfitting or guiding (as defined by Idaho Code § 36-2102).

Rayonier reserves the right, at its sole discretion, to close temporarily any of the Rayonier lands to Recreational Activities, or to limit certain Recreational Activities for public safety or resource protection. Rayonier will notify the Idaho Department of Fish and Game of a closure to, or limitation of, any Recreational Activities affecting significant quantities of Rayonier's ownership for a duration of 30 days or longer in the area that is part of the Program as soon as practical after said closure or limitation begins. Rayonier will notify the Idaho Department of Fish and Game as soon as practical when such closure or limitation ends.

Permitted Access

- The public is allowed year-round access to Rayonier property in Idaho. Permittees (which also includes Permittees' guests going forward) understand that access and use may be restricted or closed at various times and places.
- Some parts of the property may be under an exclusive campsite lease. The public does not have access to leased areas.
- All roads must remain passable for administrative traffic.
- Never block or park directly in front of any gate.

Cancellation

- Use of Rayonier property by any member of the public may be revoked by Rayonier immediately for violation of these Rules, or any violation of local, state or federal law.

Release and Indemnity

- Permittees accept the property in its present condition, "as is". Permittees enter and use the property at their own risk. As a condition to entering the property, Permittees release Rayonier from all claims for any injury and agree to defend and indemnify Rayonier against any claim for injury or otherwise.
- All activities must be conducted in accordance with these Rules.

Safety

- Safety is the highest priority. Permittees are expected to conduct all activities with safety in mind.

Hunting

- Rayonier land is open for hunting, unless there are specific signs that say "No Hunting".
- All local hunting regulations issued by the Idaho Department of Fish & Game would need to be followed.
- With respect to hunting and trapping of wolves, the season dates, bag limits, laws, and rules applicable to **public** lands shall apply to Rayonier lands. More expansive seasons, limits, laws, and rules for private lands **do not** apply. Wolf hunting is allowed during legal big game hunting hours only. Review the Idaho Big Game Seasons and Rules booklet for more information.
- We do not require a special permit for hunting, but if a license, tag or permit is needed for the species you are hunting, you would need to obtain these from the Idaho Department of Fish & Game.
- All off-road vehicles less than 50" wide must have a permit to be used on Rayonier land.

Good Neighbor Relations

- Respect the rights of neighboring landowners and other users.
- Shooting near campsites should only occur with the expressed consent of all campers within one-half mile.
- No target shooting within one-half mile of neighboring landowners' homes and buildings.
- Exploding targets, commonly known as Tannerite, are prohibited on Rayonier property.
- Hunters need to show extraordinary caution when within one-half mile of neighboring landowners' homes and buildings.

Communication with Rayonier

- All communications between Rayonier and the public should be made through the information line at (208)446-3000 or the [Recreation website](#).

- Emergency situations must be reported using local 911.

Recognizing Rayonier's Ownership

- Users recognize that Rayonier owns property for the purpose of a natural resource business that includes growing, managing, and harvesting forest products. Rayonier also reserves the right to sell the property at any time. Recreating on Rayonier property is a privilege. Recreation use of Rayonier property does not include activities such as horse pasturing. The public may not enter the property for any other purpose and shall not interfere with Rayonier management of the property.

Ethics and responsibility

- The future of recreation privileges on Rayonier property depends on how Permittees behave in the field, and how they present themselves to others. Consider how your actions reflect on yourself and the outdoor recreation community in general.

Camping

- Camping is allowed between April 10 and December 10 in Northern Idaho with a permit or license. Campers must keep campsites 25 feet from stream banks and open water (including tethering for pack animals).
- Campsites are not exclusive or guaranteed, except with a license or permit.
- Don't erect permanent structures. Don't secure temporary structures to trees with nails, staples, or wire.
- Campers are responsible for their own valuables and belongings.
- Posted No Camping Areas must be observed to protect soil, water, and vegetation.
- Human Waste & Grey Water must be disposed of at least 100 feet from open water. Human waste must be buried; grey water should be deposited near vegetation so that it can be quickly absorbed. Dumping of RV waste tanks is not allowed on Rayonier property.
- Between May 10th and October 20th, campfires are only allowed at permitted campsites.
- All Campfires must be DEAD OUT before leaving them unattended. Required equipment at all campfires sites include a shovel, axe, and bucket.

Roads & Gates

- Permittees must comply with all posted signs. Road restriction signs are located near gates. Gates must be kept clear at all times. Do not park in front of gates.
- Rayonier's road system is essential to the management and protection of the company's forestland as well as providing recreation access. Keeping our road systems in good repair serves all interests. For that reason, we ask Permittees to restrict road use at times when excess rutting will result - during the spring thaw and after heavy rains, for example.

Drive Safely

- Logging trucks and other commercial vehicles use Rayonier's road system seven days a week. Watch for these vehicles and monitor posted CB channels whenever possible. Violations of common sense rules of the road, speeding and reckless driving are cause for termination of access privileges and are subject to enforcement action by local authorities.

Road Restrictions

- Some roads may be closed to visitors during specific times of the year and when there is heavy use by company and contractor vehicles. These closures are for the safety of everyone. Violating road closure requirements can be cause for termination of access privileges.

Trash

- Pack it in, Pack it out! Whatever Permittees bring in, they must remove when they leave.

Dumping of trash of any kind - construction waste, appliances, abandoned vehicles - is strictly prohibited and could result in termination of access privileges.

Prospecting

- Recreational panning is the only form of prospecting allowed.

Illegal Activities

- Violation of any state or federal law or regulation, including those governing hunting and fishing, is a cause for revoking access privileges to Rayonier property. Rayonier's security personnel work closely with local county Sheriff Departments and Idaho Fish & Game Officers to assure enforcement.

Fireworks

- Fireworks are never allowed on Rayonier property.

Property Lines and Signs

- Property lines are NOT always marked and forest property owners - federal, state, and private - are often intermingled. Each Permittee is responsible for knowing where they are and complying with the landowners' rules and restrictions.

High Fire Danger

- Forest access, campfires, firewood collection and some or all recreation activities can be suspended under extreme fire danger conditions. Visitors must observe wildfire ratings at all times.

Firewood

- Collecting firewood for campfires is allowed, but cutting and transporting of firewood beyond the campsite are prohibited

Christmas Trees

- Christmas tree cutting is prohibited on Rayonier property.

Fossils & Artifacts

- Unauthorized removal of fossils and artifacts is prohibited. Rayonier protects historical, geological and historically significant sites in accordance with federal and state law.

Posted Use Restrictions on Rayonier Lands

To enter and use Rayonier lands, Permittees (including public users) agree to the following:

1. To enter the property at their own risk. Permittees shall hold Rayonier free and harmless from any and all claims related to Permittees and their guests.
2. To be responsible for their guests.
3. To not damage or destroy any trees, crops, buildings, fences, roads, or other improvements located on the property, and to use every precaution to protect wildlife, timber, trees, forest products and Rayonier property from poaching, theft, fire, or other damage. Permittees agree to repair any damage they cause at their own expense.
4. To not cut standing trees (live or dead).
5. To recognize that Rayonier reserves the right to sell or exchange the property at any time.
6. To not construct or erect permanent structures under any circumstances (e.g., roads, ATV trails, wells, buildings, sheds, shacks, outhouses, etc.).
7. Rayonier will not be responsible for damages to personal property or inconveniences to Permittees due to our normal natural resource business activities.
8. To not litter or dispose of trash of any kind on the property.
9. To strictly comply with all state and federal laws, rules and regulations, including but not limited to hunting, fishing, and game laws. Rayonier may revoke access privileges for any Permittee convicted of a law violation.
10. To not release or stock any species of plant, animal or fish.
11. To report any instances of law violations, violations of company policy, road problems, theft, damage, poaching and fire on the property to Rayonier through the information line at (208)446-3000 .
12. To restrict the use of all vehicles, including off-road vehicles (ORVs) to existing established woods roads. ORVs include UTVs, ATVs, motorcycles and snowmobiles. No road shall be abused at any time. All gates are to be left as originally found. Rayonier has no obligation to repair or maintain roads for recreational use.
13. ORVs are allowed on Rayonier property, but only on existing roads. Building new ORV trails, abusing existing roads, or driving off roads causes erosion and damages the land, and will not be tolerated by Rayonier. The All-Terrain Vehicle Safety Institute (ASI) offers many great resources for rider safety. Please visit their website at ATVSafety.org for videos and tips on safe ATV operation.
14. The speed limit on Rayonier roads is 25 miles per hour unless otherwise posted; this applies to ALL vehicle types including ORVs.
15. Rayonier maintains the right to exclude from the property any person or persons for conduct which, in Rayonier's opinion, is in violation of these guidelines.
16. At any time of the year, it may become necessary for Rayonier to conduct activities including, but not limited to, road building, logging, site preparation, or tree planting on the property. Rayonier will not be responsible for damages or inconveniences to Permittees due to these activities.
17. Rayonier reserves the right to curtail or suspend all use of the property due to fire danger or if necessary to conduct its management activities. Upon notice of curtailment, the public and Permittees shall cease all activities until Rayonier notifies the public and Permittees that activities may resume.
18. No person listed on the permit is currently banned from Rayonier property.

19. The information provided in the application is true and accurate. If you falsely register you will forfeit your fees and your permit will not be valid.
