

Access Yes!

2026 Guide to Properties

Magic Valley Region

Units 44 • 45 • 46 • 47 • 48 • 49 • 52 • 54 • 56 • 57

Photo by K Kennedy Yokoyama

The Goal

The goal of **Access Yes!** is to provide hunting and fishing access on private land or through private land to public land in Idaho for current and future generations of sportsmen.

Landowner Participation

- Step 1.** Voluntary enrollment of the property to be considered for the **Access Yes!** program. An enrollment form (available at the regional offices or on the Idaho Fish and Game's website) can be completed with the assistance of the regional landowner/sportsmen coordinator and submitted through the regional Idaho Fish and Game office.
- Step 2.** The landowner submits a "bid" to the regional landowner/sportsmen coordinator which describes the property including location, land use, hunting and/or fishing resources available, landowner's terms of access to be allowed, and the type and amount of compensation.
- Step 3.** "Bids" are reviewed by a local sportsman's review committee who evaluate the landowner's bid on criteria such as size of the parcel offered, type of access provided, type and abundance of game, quality of habitat, and bid price. These regional committees recommend which bids Idaho Fish and Game should accept.
- Step 4.** Landowner notified of decision.

Landowners are compensated for enrolling their private land in the **Access Yes!** program by:

1. Direct monetary payments,
2. Habitat improvement or access development projects, or
3. Other incentives will be considered.

Regional Sportsman's Review Committee

Each sportsman's review committee is comprised of five local members with diverse sporting interests including big game, waterfowl and upland birds, angling, and trapping. They are nominated by the Idaho Fish and Game regional supervisor, approved by the Idaho Fish and Game director and serve two to three-year terms. Committee members cannot be enrolled in the **Access Yes!** program.

Limitation of Landowner Liability

Landowners participating in the **Access Yes!** program are covered by the state recreational liability statute (36-1604), which provides a liability shield to landowners who allow recreation on their property. The liability shield applies to landowners who provide recreational opportunities without charge or have entered into a cooperative lease agreement with the state.

Access Yes! Properties

In addition to this atlas, a guide to participating properties is available on the Fish and Game website at idfg.idaho.gov and at IDFG regional offices. The guide is updated each spring and provides the location and the recreational opportunities available. Properties are identified with unique signs featuring the **Access Yes!** logo.

More information about **Access Yes!** is available from the following offices.

Panhandle Region.....	208-769-1414

Five General Rules For Protecting Private Property

- Ask for Written Permission
- Leave Gates As You Found Them
- Pack Out Your Trash
- Be Courteous
- Stay on Established Roads

Please act responsibly and respect private property. Your attention to landowner's requirements will help ensure a successful **Access Yes!** program for the sportsmen of today and tomorrow.

Best of luck and memories in your hunting and angling adventures!

Please Note

This booklet is based on information accurate at the time of printing. **Many Corporate timber parcels previously enrolled in Access Yes! are now enrolled in the Department's Large Tracts Program.** For the most up to date and more information, visit our website: idfg.idaho.gov/access

How To Use This Guide

This guide begins with an overview of the **Access Yes!** properties in the Magic Valley Region and continues to give you more detailed maps as you narrow down the areas you wish to access. The following steps will help you in this process:

- 1. Review the map on page 4 showing all of the **Access Yes!** properties and the game management units within the Magic Valley Region.
- 2. Choose a game management unit you want more information about.
- 3. Use the table of contents to find the page number where more information can be obtained for the game management unit you chose.
- 4. Review the map for the game management unit you chose and find a property you want to access. A map of each property in that game management unit will be on the following pages.
- 5. Take note of the dates of access, activities allowed (e.g., big game hunting, trapping, fishing, etc.), and other restrictions

Established Roadway Definition

An established roadway is defined as any road that is established, built, maintained, approved or designated by any government entity or private landowner for the purpose of travel by full-sized automobiles. An established roadway shows evidence of repeated use by full-sized automobiles, and may include a traveled way of natural earth with depressed wheel tracks and little or no vegetation in the tracks.

LEGEND

-  Access Yes! Property
-  Other Access Yes! Properties
-  Game Management Unit

Other Accessible Land

LEARN ABOUT LEAD

Hunter Information:

- Lead can be toxic if ingested, and the toxicity level depends on the level and frequency of exposure.
- People can ingest lead particles from bullets or shot in hunter harvested game animals.
- Lead particles in game meat may be too small to detect by sight, feel or taste.
- Lead shot is banned in U.S. for waterfowl hunting, but still used for other purposes.
- Wildlife can be poisoned from ingesting lead.

Reduce Your Risk:

- Use non-lead, copper or other high-weight retention ammunition.
- Liberally trim around the wound channel.
- Discard meat that is bruised, discolored or contains hair or feathers, dirt, bone fragments, or plant material.
- Use caution when rinsing the carcass to avoid spreading lead fragments.
- Ground game meat has more lead fragments than steaks and chops.
- Ask commercial processors not to combine meat from other hunters with yours.
- Avoid cooking game meat with acidic substances like vinegar or wine.
- Practice good marksmanship.
- Practice clean field handling techniques.

IDAHO'S TRESPASS LAW

ASK FIRST

Know before you go!

Permission Form

Permission given to:

Dates permission is valid:

from: _____

to: _____

General Description of Property:

Landowner Name (print):

Owner or Agent Signature:

*A property owner may
revoke permission at any time.*

All persons must have written permission or other lawful form of permission to enter or remain on private land to shoot any weapon or hunt, fish, trap or retrieve game.

A person should know land is private and they are not allowed without permission because:

- The property is associated with a residence or business;
- OR cultivated;
- OR fenced or enclosed in a way that delineates the private property;
- OR unfenced and uncultivated, but is posted with conspicuous “no trespassing” signs or bright orange/fluorescent paint at all property corners and boundaries where the property intersects navigable streams, roads, gates and rights-of-way entering the land and posted in a way that people can see the postings.

Note – if private property adjoins or is contained within public lands, the fence line adjacent to public land should be posted with “no trespassing signs” or bright orange/fluorescent paint at the corners of the fence adjoining public land and at all navigable streams, roads, gates and rights-of-way entering the private land from public land and posted in a way that people can see the postings.

It is illegal for anyone to post public land that is not held under an exclusive control lease.

Private posting at navigable streams shall not prohibit access to navigable streams below the high-water mark as allowed by Idaho law.

A property owner may revoke permission at any time. Any person must leave private property when asked to do so by the owner or agent.

A first conviction of trespass on private property carries a mandatory one-year revocation of hunting/fishing/trapping licenses in addition to misdemeanor fine and seizure of animals taken on private property.

Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes.

Refer to Idaho Code 36-1603 and I.C. 18-7008.
