MISCELLANEOUS

Chairman Bobbitt called the meeting to order at 8:00 a.m. MST. Commissioners Dave Bobbitt, Don Ebert, Mike Roach, Jordan Cheirrett, Brody Harshbarger, and Ron Davies were present. Commissioner Tim Murphy was virtual.

Review of Public Comment

Director Fredericks provided a summary of public comments. There were approximately thirty members of the public in attendance, with ten individuals providing oral testimony and six individuals submitting written comments.

- A commenter expressed support for the IDFG Strategic Plan Update, noting appreciation for the outreach efforts and interest in reviewing the final draft.
- A commenter also speaking to the IDFG Strategic Plan Update voiced concern with the plan's emphasis on human use of wildlife, stating that wildlife should not be viewed solely as a commodity managed for people.
- A commenter addressing the Upland Game, Furbearer, and Falconry Season Setting asked that, if the pheasant season is extended in southeast Idaho, the Department monitor hunter participation and potential impacts on pheasant populations.
- A commenter related to the Upland Game, Furbearer, and Falconry Season Setting testified in support of additional water trapping opportunities, extension of seasons, and an increase in river otter quotas.

- Several commenters addressing the Update on Rulemaking expressed frustration with the process used to develop technology-related rules, particularly the late inclusion of all big game species rather than limiting the rules to ungulates. Commenters conveyed a broader concern that public input was not adequately considered.
- A commenter related to the Update on Rulemaking raised specific concerns regarding mountain lion seasons.
- A commenter speaking to the Jacks Creek (Owyhee) Bighorn Sheep Augmentation Update expressed support for the recent augmentation effort and appreciation for the partnership between the Idaho Wild Sheep Foundation and the Department.
- A commenter addressing the Fisher Augmentation Program expressed support for the program and appreciation for the partnership between the Idaho Trappers Association and the Department.
- A commenter related to the Depredation Compensation Alternative Tag Concept Update stated they looked forward to the presentation later in the meeting and acknowledged the importance of addressing elk depredation conflicts on agricultural operations, while also expressing concern about the potential sale of tags.
- A commenter provided testimony unrelated to the agenda, expressing concerns with the Department's technical input process as it relates to a proposed shooting range near Eagle, Idaho.
- Written comments were submitted expressing concern over declining biodiversity and the management of native carnivores, including mortalities associated with predator management and trapping.
- Additional written comments raised concerns regarding the wording of technology-related rules and the process used to develop those rules.
- Written comments were also received opposing increases in river otter quotas and the lifting of beaver trapping closures in certain areas.
- One written submission suggested consideration of a 365-day fishing license valid from the date of purchase rather than the current calendar-year license structure.
