03. **Fur Farms, Fish Farms, Domestic Cervidae, and Bona Fide Pet Stores.** The Idaho Department of Agriculture regulates fur farms, fish farms, domestic cervidae (as defined by Idaho Department of Agriculture Rules IDAPA 02.04.19), and bona fide pet stores. However, a license to import those animals into the state shall be obtained from the Idaho Department of Fish and Game prior to importation.

04. **All Other Species.** All species of live wildlife not listed above in this Section as generally approved for importation will be considered on a case-by-case basis. Application shall be made on a department-prepared form and comply with the procedures of Section 101 of these rules. The decision on whether to approve import and possession will be allowed shall be in the director’s discretion, based on the protection of Idaho’s wildlife from habitat degradation, genetic contamination, competition, or disease. Because of concerns for transmission of Chronic Wasting Disease and other infectious diseases, the department will generally not approve possession, importation, transport, sale, barter, or trade of elk (wild), moose, mule deer, white-tailed deer, fallow deer, or muntjac deer.
