This site supports over 2,000 ducks (American Wigeon, Mallard, Green-winged Teal, Lesser Scaup, Common Goldeneye, and Bufflehead) during migration in the spring and fall. Significant populations of waterfowl, secretive marsh birds, and shorebirds nest here. American White Pelican and shorebirds (Killdeer, Wilson's Snipe, Greater Yellowlegs, Long-billed Dowitcher, and Western, Spotted, and Solitary Sandpipers) can be seen in late summer. Nesting birds include Veery and Swainson's Thrush. Bald Eagle nest here regularly.
