

Recipient: Idaho Fish and Game Commission

Letter: Greetings,

Continued Use of Trail Cameras and Cell Phones in Idaho

Comments

Name	Location	Date	Comment
Justin Huntsman	Rigby, ID	2017-07-08	We need to get IDFG working for us not against us.
Gordon Smith	US	2017-07-08	Strongly against this proposal!
Brad Orme	Ashton, ID	2017-07-08	No new regulations on hunting
Jon Hall	Rexburg, ID	2017-07-08	I strongly disagree with this proposal I think it should be dropped all together.
Tanner Mcfarland	Idaho Falls, ID	2017-07-08	I use trail cameras year around, if I break my leg while hunting but I'm no longer allowed to have my phone, that's a lawsuit.
Jim Warner	Blackfoot, ID	2017-07-08	Strongly disagree with everything in this proposal.
Buddy Shaw	Idaho Falls, ID	2017-07-08	Idfg continues to try and regress hunting in our state. Some we will have to chip our own broadheads. For my family Running and Checking trail cameras have become just as much fun if not more than the actual hunting.
Montie Carter	Idaho Falls, ID	2017-07-08	Strongly oppose these new proposals
Redge Sutton	Rexburg, ID	2017-07-08	I use trail cams to make sure I am hunting in an area with mature game. And to make sure I am tracking animals that are the right sex. The fish and game are opening a can of worms by saying u cannot shoot an animal on your way to your trail camera.
Natalie Michaelson	Mackay, ID	2017-07-08	Technology is in evitable it does help us be precise in the animals we harvest
Brandon Dayton	Blackfoot, ID	2017-07-08	Nothing wrong with using trail cameras
Ashley Pulver	Iona, ID	2017-07-08	It is a very wrong move to make. The biggest problem is dishonest Hunters, not tools honest Hunters use. The same honest Hunters that only fulfill the tags they draw or buy. The problem is Hunter's that put in for tags they should not be able to put in for. The problem is poachers. Don't punish the hunters that appreciate the game, the sport, and the old time means of feeding one's family.
Jason Lutz	Paris, ID	2017-07-08	Because a trail camera gives you NO advantage to kill, all it does it give you info of what is in the ara
Jordan payne	Idaho Falls, ID	2017-07-08	I'm with you 100% anything you need to help, let me know
Janet Craven	Saint Anthony, ID	2017-07-08	I do not support the ban!
CJ Hutchens	Saint Anthony, ID	2017-07-08	I'm signing because I believe the use of game cameras and the usage of communication devices (i.e.; smart phones, two way radios, live streaming, etc.) Doesnt necessarily help a lot of people. To me it's the same as a hunting guide that spends his entire summer scouting the hills. Or a big game ranch for that matter. If the reason, for these new rules and regulations is, in fact because they take the

Name	Location	Date	Comment
			sport out of it, then we need to stop the guided trophy hunts and big game ranches. Which pay a lot of money to the fish and game. If we want to put the sport back in it and let the big game populace grow, there are alternative ways. I personally do not own or use a game/trail cam, but ocaionally do use my cell phone or a two way radio. Although primarily for safety reasons, I have told my hunting companion to join me due to a large number of animals. You can not sit there and honestly tell me you wouldn't do the same.
Annie Anderson	Rexburg, ID	2017-07-08	I do not agree with this.
Shane Hayes	Menan, ID	2017-07-08	This cannot be and never will be quantitatively proven to affect harvest. It is more than likely related to the bans put in place by other western states, and the influence on environmental agenda that is diametrically opposed to the North American model of conservation, that was allowed in the decision making process of wildlife management in Idaho, even though they do not contribute the fair share of economic support through taxation and volunteer labor provided by sportsmen. In the case of Nevada and Arizona bans it pertained to hunter vs hunter conflict over limited water hole and perceived ownership. No scientific basis provided or sought. Same mentality seeks to establish a foothold like in California where they have effectively regulated sportsmen out of game management equation, thus putting more burden on state agency that is already undermanned and underfunded.
Kelly Biorn	St. Anthony, ID	2017-07-08	I have signed this petition because I do not agree with this proposed regulation. I think the Fish and Game should be asking us what regulations we would like to see lifted and let us decide on how to spend the money they take from us each year. Let's open that up for discussion!
Jacob Anderson	Rigby, ID	2017-07-08	Don't see how a trail cam helps me to harvest an animal in one day
Steven Lewis	Boise, ID	2017-07-08	The government needs to stop regulating. Leave well enough alone!
Aaron Bateman	Idaho Falls, ID	2017-07-08	I am not in favor of the proposal on the Trail cameras or other digital restrictions proposed IDF\$G
Aaron Bateman	Idaho Falls, ID	2017-07-08	I am not in favor of the proposal on the Trail cameras or other digital restrictions proposed IDF\$G
Jeff Grover	Rigby, ID	2017-07-08	This is getting rediculous.
Chris Johnson	Rexburg, ID	2017-07-08	I have used cameras for years to help monitor deer herds and decide in what areas we harvest deer. Also helps with only taking mature bears during bear season
John Poulsen	Saint Anthony, ID	2017-07-08	Because the ban is going too far ... There is no need to waste time and money on such ridiculous proposals and matters ...
John Poulsen	Saint Anthony, ID	2017-07-08	A ridiculous proposal and a waste of time and money on such trivial matters ... Seriously ...
Katie Dodge	Ogden, UT	2017-07-08	Katie Dodge

Name	Location	Date	Comment
Dustin Falter	Terreton, ID	2017-07-08	I feel strongly about the ability of a person to use trail cameras and other means of electronic devices to sufficiently hunt game without burdens of more regulation or power given to game and fish departments by the people. We have plenty of rules and
Andy Richardson	Dickinson, ND	2017-07-08	There is no logic to this proposal
matthew borg	Idaho Falls, ID	2017-07-08	Electronics are needed
Richard Williams	Puyallup, WA	2017-07-08	Ignorance
Aronlee Gould	St. Anthony, ID	2017-07-08	We have enough government regulations. Fish and Game are sponsored by the sportsmen of ID. This is government over reach
TROY LOTT	Rigby, ID	2017-07-08	i hunt and i use a camera and i get my card out when i go to sit in tree so i dont see pictures tell next day
Chad Chlarson	Pocatello, ID	2017-07-08	Gross over step
TROY LOTT	Rigby, ID	2017-07-08	i think it is wrong to take it away . I walk to camera take out memory card climb in stand i can see anything tell i get home that night
Angela Morgan	Boise, ID	2017-07-08	This is unfair
Jeff Wheeler	Blackfoot, ID	2017-07-08	it more gov't over reach.. the more f & g regulates, the worse hunting and animal conservation becomes
Nick Rieth	Challis, ID	2017-07-08	I disagreed with this commission. Trail cameras are not an issue and two way radios are nice to have in the field.
Josh Cleverley	Boise, ID	2017-07-08	Banning cell phones compromises a hunters safety
Daniel Christensen	Shelley, ID	2017-07-08	Taking away a cell phone can be a safety hazard, what if someone was hiking and they have an accident or an allergic reaction or an asma attack and need to call for help and instead they did the right thing and left their phone in their vehicle and ended up dead, taking away a cell phone is like taking away a gps if you cause essentially they are one in the same except for a camera and making a phone call. Either way the phone is a better tool to save a life in an emergency!
Cameron Coles	Rigby, ID	2017-07-08	I don't see the advantage of using them versus not
Ted Simons	Boise, ID	2017-07-08	I am tired of the State taking a little bit here and a little bit there on things we take for granted and have done for years. Stop looking for ways to restrict hunters and fishermen in Idaho.
Jared Davis	Saint Anthony, ID	2017-07-08	It's time the government backed the hell off they think we work for them and the last time I checked it is the other way around
Marlin Roush	Idaho Falls, ID	2017-07-08	In today's world cel phones are also used for gps, camera, and safety. Trail cameras add to my enjoyment of the environment and have little if any impact on my success.

Name	Location	Date	Comment
Jared Bleak	Idaho falls, US	2017-07-08	There is no logical reason for this proposal
Gregory Barrow	Nampa, ID	2017-07-08	I'm an Idaho sportsman and I believe that sharing the outdoors using trail cams and cellphones in a respectful manner helps to capture the beauty of our state. These cams often catch illegal poachers as well and help hunters plan hunts to harvest quality game and recognize areas that are overhunted. The state of Idaho has been able to manage our wildlife populations because of Idaho sportsmen.
Adam Christensen	Plano, TX	2017-07-08	This is stupid. If it ain't broke, don't fix it.
Logan Jones	Rexburg, ID	2017-07-08	Very irrational. Trying to take away one of the only things that gets us excited to check in the off season
Michelle Merrick	Idaho Falls, ID	2017-07-08	Over reach, to many loop holes that can make a hunter liable.
Charlene Murray	St Anthony, ID	2017-07-08	I would be concerned if I got lost I would not be able to get help.
Roz Murray	Rexburg, ID	2017-07-08	Roslynn Murray
Carla Killian	Idaho Falls, ID	2017-07-08	I enjoy hunting and feel that taking away the use of 2 way communication with drastically inhibit hunting for many people, especially younger and older hunters as well as special needs hunters.
Luke Grover	Rexburg, US	2017-07-08	I want to be able to use trail cameras while hunting. I hunt ten miles into the back country. I set my cameras up in July and pull them after season. I am able to get the most amazing pictures of wildlife. So unconstitutional to say I can't have cameras up while I'm hunting that same area. Where is the line? Phones? Radios? Tracking collars for dogs? Fourwheelers? Trucks? We might as well hunt from horse back with bows and arrows. But o wait, we should sale the Trophy tags to the rich. Such BS!!And I'm sick of Idaho Fish and Game trying to control everything they can.
Bradley Ball	Idaho Falls, ID	2017-07-08	I want too.
Chris Lawson	Saint Anthony, ID	2017-07-08	I am opposed to allowing idfg create a law banning the use of trail cameras and cell phones while hunting. I think this is yet another reason that will continue to drive non residents away from purchasing tags in Idaho. It is a rule that would be impossible to enforce. I would be in favor of that particular commissioners termination. He is likely the same commissioner opposed to the use of lighted nocks and expandable beoadheads.
Chris Lawson	Saint Anthony, ID	2017-07-08	Another ridiculous law proposal to appease personal issues that have absolutely no logic!
Kasey Hull	Saint Anthony, ID	2017-07-08	I oppose 100%..
John Sabach	Tully, NY	2017-07-08	This is a law trying to solve a nonexistent problem. No basis in science.

Name	Location	Date	Comment
Matt Guthrie	McCammon, ID	2017-07-08	I am signing because I think this new law trying to pass is stupid. Does not aid at all to killing
John Sanders	Saint Anthony, ID	2017-07-08	This is a ridiculous policy.
Ben Harris	Idaho Falls, ID	2017-07-08	This is unreasonable. Safety should be a major goal of fish and game. Taking cell phones out of the picture is ridiculous. Trail cams are good motivation for getting out.
Nicole Miller	Saint Anthony, ID	2017-07-08	The reasoning is obvious enough!!
Curt Mortensen	Spencer, ID	2017-07-08	I have teen boys that love to hunt, using trail cams helps secure their safety, since we can see if there are any large predators in the area. We don't hunt large predators, but it's nice to know there is a bear in your area when you are splitting up. Also the cell phones are a huge help when I do get separated from one of them.
David Stokes	Meridian, ID	2017-07-08	This is a dumb idea. Less regulation, not more.
Bryndi Rigby	Frankenmuth, MI	2017-07-08	I'm signing because the ever growing, and already strong, use of technology in today's society will be hard to eliminate. Also the use of this technology is causing no harm.
Melissa Potter	Saint Anthony, ID	2017-07-08	Signing this is great, HOWEVER contacting your F&G Commissioner and speaking DIRECTLY to him will be an additional aid to prevent this from becoming regulated. Derrick Atteberry is the Upper Snake Regions commissioner.
Erik Dyal	Boise, ID	2017-07-08	These regulations are the result of personal preference not scientific fact.
Mike Radford	Utah, UT	2017-07-08	What a joke, how can you possibly enforce this?
Alesha Bailey	Tendoy, ID	2017-07-08	Because I am a female hunter and I will always have my phone on me..ITS A SAFTEY ISSUE!
Andrew Baldwin	Blackfoot, ID	2017-07-08	Our fish and game commission is wrong.
Kaden Martin	Moreland, ID	2017-07-08	Using radios can help get contact of other hunter when on separated paths.
Brett Whittington	Rigby, ID	2017-07-08	Fish & game has too many regulations as it is
Laura Matthews	Bremerton, ID	2017-07-08	Laura L Matthews
Jonathan McMinn	Rigby, ID	2017-07-08	I think it's bull
Gracie Ann Hill	Saint Anthony, ID	2017-07-08	We all use cell phones to communicate and take pictures. And Trail Cameras are fun to see what is going on. I object to Idaho Fish and Game infringing on our rights.
Sterling Murdock	Meridian, ID	2017-07-08	Safety, there's nothing scarier than being lost, let alone without a way to communicate.

Name	Location	Date	Comment
Robert Bronson	Malad City, ID	2017-07-08	We need to lightin up on silly restrictions.
Bruce Rowley	Yerington, NV	2017-07-08	Common sense and safety concerns,,,
Charles Fife	Saint Anthony, ID	2017-07-08	I'm apposed to the proposal
chad rowland	Post Falls, ID	2017-07-08	I use multiple trail cameras during the summer months as they are a great tool for scouting out new areas when at work most of the time. So it is very beneficial to our knowledge base of the areas we hunt and not to mention me and my family love seeing all the great animals on our cameras.
Jayci Orme	Westminster, MD	2017-07-08	I'm signing because the Idaho Fish and Game already have too much power. They do not need more power. It is my right to place a trail camera on my personal ground for livestock purposes and whatever further desires I choose to use it for.
Chad Sommer	Rexburg, ID	2017-07-08	It's my right
Carl Roker	Rigby, ID	2017-07-08	Because it's retarded to try to ban a camera it does nothing but take a picture
Stacy Ruzicka	Lewiston, ID	2017-07-08	I think the trailcam issue is ridiculous and uncalled for how bout u guys figure out how to eradicate the wolves and not worry bout the petty stuff.
James Randall	Phoenix, AZ	2017-07-08	I do not support banning the use of cell phones while hunting.
Angela Slabaugh	Oakridge, OR	2017-07-08	I believe cell phones are good to communicate with others in case you have an emergency or need help getting your tagged animal out of your hunting area.
Richard Grover	Idaho Falls, ID	2017-07-08	I'm signing this as there is no logical reason for these items to be banned. Usage of cell phone, a Spot Messenger, or the Delorme (Garmin) InReach are also tools for our safety. If these bans pass, I can almost guarantee there will be a lawsuit.
chase demott	Fargo, ND	2017-07-09	because a ban on cameras is ridiculous
Richard Tilton	Boise, ID	2017-07-09	I'm signing because I use radios for safety. If I need help I can call family at base camp and get help, or if I get a large animal down and need help packing all the meat out before it goes bad.
Erik Blevins	Naples, ID	2017-07-09	I do not agree with this new proposal!
Mike Liberty	Preston, ID	2017-07-09	This isn't California so don't try and make it like that dumb ass state! #
Cody Huffaker	Boise, ID	2017-07-09	This proposed law does little to nothing to promote fair chase.
Tawnya Salas	Idaho Falls, ID	2017-07-09	This would cause a lot of safety issues.
Wayne Richey	Terreton, ID	2017-07-09	It helps us track that monster buck or bull we want to kill. Phones can help us if we get stranded and we need communication

Name	Location	Date	Comment
Jeremy Nelson	Blackfoot, ID	2017-07-09	Does this mean the IDFG can not use surveillance in the from of trail camera's as well. The proposed law you cannot hunt the day you check your camera or the day after should apply them and their surveillance. Makes just as much sense.
Dylan Scott	Lewiston, ID	2017-07-09	I as a working class individual do not always have the time to go out and scout every afternoon and every morning. The use of a trail camera allows me to not only see the game in a specific area but I also use it to see when other individual are coming and going on my personal private property. I would hate to set my trail cam up to only come back a few days later and see it was taken by an officer due to it being used where deer may be present. I also enjoy the use of my phone skope to keep pictures of the game I may go after that fall or keep track of the deer on my property as they progress. Although this law has very large holes in it as to what is and is not legal. The whole idea behind this making an unfair advantage to humans is nonsense. If I want a picture through my spotting scope of a large deer on the hoof before I go after it doesn't change my decision of going after it not. I fail to understand what is gained by this new law.
Megan Lammers	Prescott, AZ	2017-07-09	This has no bearing whatsoever on harvest rates!!!
David Aslett	Twin Falls, ID	2017-07-09	Stupid law!
Troy Tolman	Boise, ID	2017-07-09	Bureaucracy needs to stop.
Douglas Howell	Filer, ID	2017-07-09	FREEDOM!!!!
Trevor Hatch	Carey, ID	2017-07-09	Need the cell phone for safety.
Tucker Thompson	Wilmington, DE	2017-07-09	I believe cell phones don't help with big game harvest
James Howard	Clarkston, WA	2017-07-09	Part of the work for a living club.. I only get one day at A time off from work, Trailcams allow me to scout on short time! No reason to ban em!
Randy Stroup	Chesapeake, VA	2017-07-09	This is a dumb law, how does this increase your chance of harvest? I'm also in the military. when I hunt, it's from out of state. So I have to have my phone on me. Also since I constantly do not live in Idaho but I hunt and fish Idaho as much as I can, I love taking photos. What do I use, my cell phone.
Michael Larsen	Pocatello, ID	2017-07-09	My friend was attacked by a grizzly and with his cell phone notified responders who met him at the trailhead to administer first aid.
Breanne Bringham	Spanish Fork, UT	2017-07-09	Breanne Bringham
Melanie Hansen	Shelley, ID	2017-07-09	Although I am not a hunter, I still don't think there is any harm in having trailcams or cellphones. Cellphones are necessary for emergency situations no matter where you are. To ban those would cause emergency situations to become even more serious as it could delay getting the quick response needed. Banning trailcams and cellphones is illogical and unnecessary.

Name	Location	Date	Comment
Rev. Joe Martinez	Idaho Falls, ID	2017-07-09	I use trail cams. I love seeing the pictures of animals that it takes. It has not added me in getting any elk, but it is cool to see what is there. I think it is wrong to take this away from hunters.
Kyle Jenkins	Springfield, ID	2017-07-09	I think f&g needs to start enforcing the laws they have and not make more. I use trail cams for wildlife viewing. And how can they enforce the cell phone law? Completely stupid.
Brent Richards	Garland, UT	2017-07-09	I think this bill is a joke.
Robert Skouen	Idaho Falls, ID	2017-07-09	The KGB needs to be stopped.
Miles Cunningham	Buhl, ID	2017-07-09	More liberty taken by the king, one small bite at a time...
Erik Smith	Los Angeles, CA	2017-07-09	I'm tired of Fish and Game changing laws based on their feelings instead of science, aren't you?
Terry Wood	Sandpoint, ID	2017-07-09	This is a non-issue.
Eric Ostermiller	Rexburg, ID	2017-07-09	To keep me rights and stop more and more government regulations!
ala call	Sugar City, ID	2017-07-09	These items should not be banned from hunters.
Logan Baldwin	Tampa, FL	2017-07-09	How the hell are we supposed to get help if we are lost and can't have our phones?
Clinton McCutcheon	Troy, ID	2017-07-09	I am signing because I think cell phones and radios are valuable to call for help in emergencies, or to call for help for retrieving game. Also as a private landowner I use trail cameras to monitor for trespassers and to keep an eye on my stock. So, if I take a photo of a buck, will I be breaking the law?
Aly Stout	Hyrum, UT	2017-07-09	Idaho fish and game are a bunch of pricks. That's why.
Ben Hanks	Gilbertville, IA	2017-07-09	No new laws needed
bambi Halcom	Boise, ID	2017-07-09	Using games cameras with cell service doesn't really impact hunting in Idaho. Most places don't even have signal. If you have a camera in a location with service your more than likely a few hours away when you receive and alert. Just like lighted nocks on arrows cameras with cell signal do not give an unfair advantage. Why not ban guns too, thats an unfair advantage since you can shoot from 300+ miles away. Better ban binos too sinc you can spot animals from a long distance and know where to head.
Gary Foreman	Melba, ID	2017-07-09	I don't understand how these laws could be inforced
Brad Murphy	Wendell, ID	2017-07-09	I use my cell all the time . Pictures locating other hunters in my party . Safety reasons .
Bryan Cook	Idaho Falls, ID	2017-07-09	You guys can't even enforce the current laws. Motorized restricted only areas only limit us law abiding/ethical hunters, complete joke bo one enforces this. I have pernally given up hunting where I have

Name	Location	Date	Comment
			for the past 20 years. These new proposals will only hurt those of us that follow the rules.
Brett Davis	St Anthony, ID	2017-07-09	This is the most ludicrous, overreaching, blatantly unconstitutional thing these useless idiots have ever tried to pull. It's time to remove them and make the commission accountable to the citizens.
Matthew Campbell	Notus, ID	2017-07-09	The Idaho department of Fish and Game need to stop involving themselves in our lives.
Robert Lowe	Idaho Falls, ID	2017-07-09	I,m against this proposal. Just because you get a photo on a trail camera or cell phone does not insure you will ever get a chance at the animal let alone ever see the animal in person. Commissioners often overstep and abuse their authority.
Bruce Benedict	Rigby, ID	2017-07-09	Commissioners should be for the people they represent not against
Matthew Wellard	Idaho Falls, ID	2017-07-09	This is stupid plan, my guess is it's just something else to aid in the profit of guided hunts for out of state hunters
mikel mcintosh	Arco, ID	2017-07-10	This would be a ridiculous restriction on one of the most entertaining aspects of hunting
Maleri Parker	Saint Anthony, ID	2017-07-10	83445
Kerr Thomas	Orem, UT	2017-07-10	I grew up hunting in Idaho. To take away the technology that helps ensure an ethical and effective harvest, is a joke. Less government, more ethical hunters training.
Mike Segal	Meridian, ID	2017-07-10	I believe trail cams are a great tool for hunting. They should be legal to use here in Idaho.
Carolyn Giannini	Vancouver, WA	2017-07-10	My husband and I were born in Idaho and have recently returned to Idaho now living in Island Park, Idaho. We have hunted in Idaho for years. Trail cameras have never been proven to affect the success of a hunt in any way. Banning cell phones would be a safety issue. This ban is ridiculous, and I would challenge the commissioner proposing the ban to show any evidence suggesting that the use of either trail cameras or cell phones affects the success rate of hunters!
Jared Giannini	Rigby, ID	2017-07-10	I think Idaho Fish and Game should spend their valuable time managing our Big Game herds instead of trying to impose more restrictions on hunters. Every year the wolf numbers grow and the big game numbers dwindle. Now they want to impose more restrictions. Montana and Colorado sound better and better every year.
Nick Yergensen	Twin Falls, ID	2017-07-10	It's a dumb idea and impossible to legally monitor! Might as well make binoculars illegal!!
Judd Gould	Saint Anthony, ID	2017-07-10	It is complete nonsense
David Fulwyler	Pocatello, ID	2017-07-10	I don't think there should be a ban on the use of trail cams in any way.

Name	Location	Date	Comment
Joseph Giannini	Blackfoot, ID	2017-07-10	the use of trail cams and of the cell phone are well use for one of the biggest reason for emergencye contact if needed
Josh Anderson	Rigby, ID	2017-07-10	I'm signing because trail cams create more hunters and bring them to the ticket counters to purchase the products the fish and game continue to markup and increase fees
Matt Neeser	Pocatello, ID	2017-07-10	we as hunter should have the right to chose on things like this. I strongly oppose this proposal to ban these items.
paul beyer	Willows, CA	2017-07-10	Idfg has no idea what they're doing or starting. Again pencil pushers making rules for men of action.. without reason
Brad Stark	Idaho Falls, ID	2017-07-10	I think people are over stepping their authority.
Kacey Keller	Preston, ID	2017-07-10	You still have to hunt and it's all about being in the right spot at the right time dumb law can't even enforce the four wheeler law tons break that law
LaVoy Eborn	Paris, ID	2017-07-10	The fish & game need to focus on game management! Not coming up with stupid rules!
Owen Lawson	Reno, NV	2017-07-10	The proposed changes are a ridiculous idea from a person who knows nothing about the subject matter and opposes hunting. He should stick to focusing on how to spend tax dollars to fix roads and improve education for children, not attempt to ban things he has no knowledge of
Jessica Liberty	Boise, ID	2017-07-10	I agree!
Larry Lombard	emmett, ID	2017-07-10	impossible to enforce,conservation officers has better things to do,like catching poachers.
Larry Lombard	emmett, ID	2017-07-10	My friends and i find great times sharing our photos.Conservation officers have better things to do. Catch poachers.
Stephanie Alexander	Sioux City, IA	2017-07-10	I want the security of those out enjoying their hobbies in more remote places of being able to call for help when needed.
Zachery Stinson	Leadore, ID	2017-07-10	Have trail cams are nice to have an see the animals out doing there thing I don't just use there for hunting I use them for a lot of different reasons
Gary Bates	Post Falls, ID	2017-07-10	I use a trail camera at my remote cabin for security reasons as well as game identification
Teresa Pattan	Kamiah, ID	2017-07-10	I am handicapped an hunt what if I need help . This is just another right taken. An I take pictures every chance I get of all kinds animals with my phone . This is dumb
Julie Anderson	Idaho Falls, ID	2017-07-10	Government takes too much control of our freedoms. This is not their right to make decisions like this.
Rhonda Snyder	Weippe, ID	2017-07-10	Camera's are also used for pleasure not just to hunt and kill! So fun seeing animals that no one else gets to see! Lets get rid of people

Name	Location	Date	Comment
			that have camera's as well! So ridiculous to think field/trail camera's should not be used!
Jacob Patterson	Post Falls, ID	2017-07-10	I'm signing because trail cameras in no way help take game they only give you an idea of what animals are in the area. As a hounds man a trail cam is a very important tool at a bear bait sight to help ensure that there are no wolves on your bait that will kill your dogs. And 99% of people use their phone for their camera for taking hunting related pictures and invade of emergency if something were to happen in the field
Hayden Huff	Meridian, ID	2017-07-10	I am a hunter. Give me information as to why we shouldn't be able to use them.
Brian Bayley	Boise, ID	2017-07-10	Safety of gear and people!
Elisha Grover	Rigby, ID	2017-07-10	I believe that there's laws a going to be hard to enforce and the honest sportsman are the only ones that are going to suffer.
Bruce Willis	Moscow, ID	2017-07-10	Proposed rule is worthless and merit less
Jim Hirrlinger	Pocatello, ID	2017-07-10	There is not one iota of evidence that supports that the use of a trail camera increases of hunter's success rate or the negative impact of big game herds. What's next? Range finders? Scopes on rifles?
Jim Hirrlinger	Pocatello, ID	2017-07-10	There is not one iota of evidence or data to support the theory that a trail camera increases a hunter's success rate or that it negatively impacts big game herds in any shape, form or fashion. This rule change is proposed solely on one's personal preferences and not on science. Don't take a way the opportunity I get with my kids in the woods. Checking and placing trail cameras is just as exciting for my kids, especially the ones that are not of legal age to hunt as going hunting itself. Look at the issues from all sides and make a decision that is best for the sportsman of Idaho and NOT approve this proposed rule change.
Donald Barnes	Nampa, ID	2017-07-10	I'm an old man with some health problems and having a cell phone just adds to having a safety net. I also have photographed wild life my whole life and that my friend has never caused an injury to any animal. Documenting a hunt with pictures is just another way of preserving the majestic value of the hunt and nature. This is no more than a power grab by big brother.
Donald Barnes	Nampa, ID	2017-07-10	I'm an old man with some health problems and I like an added safety factor of having a cell phone. Also I've documented hunting trips, taken photos of wild life my whole live and by doing this have never caused an injury to any animal, so what justifies this, other than another power grab by the government? More lunacy from the so called smart people.
Alex Klimes	Kimberly, ID	2017-07-10	That commissioner is a fucking idiot!!!
Austin Eiter	Hayden, ID	2017-07-10	Because I am a vid outdoorsman and benefit from the use of trail cameras to help me scout the places I might hunt.

Name	Location	Date	Comment
Cassandra Murphy	Pocatello, ID	2017-07-10	I am signing because I use my cell phone to keep up to date on the welfare of my children, while I'm away hunting. I think carrying and being able to use a cell phone will be more safe for the hunters in case of an emergency.
Ashley Marlow	Pingree, ID	2017-07-10	What?! If my husband goes camping without any sort of device (i.e. Phone or whatever)well he's not going! I don't trust that something won't happen. If something did, there's no way or anyone even knowing.
Michael Johnson	Blackfoot, ID	2017-07-10	I responded to fish and game, and I do not believe that trail cameras should be limited.
Mike Nauman	Moscow, ID	2017-07-11	Banning trail cameras and cell phones is the stupidest thing I have heard! Cannot believe this was even proposed!
randy wheeler	Rigby, ID	2017-07-11	fed up with a lot of fish&game goings on
Mike McKinnon	Lewiston, ID	2017-07-11	Really?? We are worried about trail cams and phones when we are losing are game do to predators and over sales of tags and to long of seasons? Come on fish and game so your job!
Christopher Coombs	Malad City, ID	2017-07-11	I think it is fair.
Phillip Herder	Virginia Beach, VA	2017-07-11	This is another blunder and intrusion on our freedoms to do as we choose without harming others. Please leave us alone!
Scott Martin	Saint Maries, ID	2017-07-11	This is not hurting our wildlife fish and game are hurting it for us.
Zach DeVoe	Superior, WI	2017-07-11	Because trailcameras should be legal for everyone in every state. This is a silly law that will hurt sportsmen.
Donovan Shipton	Terreton, ID	2017-07-11	If Idaho Fish And Game is allowed to limit this technology they will also likely look at limiting the use of rangefinders, and other standard modern equipment. Once you lose your right to utilize technology you will not get it back. I do not feel that it is the role of Idaho Fish And Game to limit the use of trail cameras. Just because you have pictures of animals does not mean that you can kill them. There is a lot more to harvesting an animal than just getting a photo of it.
Joe Hickey	Idaho Falls, ID	2017-07-11	I don't want government intervention in my personal life!
Mike Vecchio	Rigby, ID	2017-07-12	Rediculus, let's take a step back and stop wasting peoples time and money on proposals like this.
Michael Christensen	East Dove circle, US	2017-07-12	It's the stupid! Is all Fish N Game want is a right too search anybody's privat property for cameras! There is no way they could actually enforce this! This will give them an excuse too search when and where ever they want!
Kevib Smith	Idaho Falls, ID	2017-07-12	Trail cameras do not tell you the animals will be there, it tell you if they've been there. The cell phone thing is absolutely ridiculous! The fact we are fighting for this right is ridiculous...

Name	Location	Date	Comment
Gage Billingsley	Hayden, ID	2017-07-12	Gps units, cell phones are saftey equipment. Cameras do not kill animals
Kevin Carlock	Nampa, ID	2017-07-12	I think it is stupid to stop the ability to use trail cams!! I use them to scout and see what kind of animals are in my area
Cody Scheer	Seattle, WA	2017-07-12	My kids hunt and use trail cams. It doesn't hurt anything having the cams up there. I also don't want my kids up hunting without a cell phone.
Krissy Drake	Idaho Falls, ID	2017-07-12	Cal phones are also used for camera, GPS, and safety!!!
Nathan Raff	Kooskia, ID	2017-07-12	This proposal is unenforceable. A photo of an animal on a camera is a long way from an opportunity to harvest that or any other animal. Game Cameras are just a scouting method and give an idea of what animals or other things like trespassers may be using an area at a snapshot in time. I strongly recommend this proposal does not pass.
Will Jenkins	Idaho Falls, ID	2017-07-12	There is no reason for this law it is stupid and a large overreach on the govemments part
Lucas Cayler	Caldwell, ID	2017-07-13	Idaho Fish and Game is here to be a part of wildlife conservation, not be the technology police.
Tyler Macklin	Long Beach, MS	2017-07-13	I believe that knowing what is at you're stand is important I use mine for theft but yea it is also used for what is there this dose not aid as a weapon because it allows you to know what or who is in the area at sirtin times so no mistakes are made at Sirtin they are a good and important tool
Aaron Vance	Caldwell, US	2017-07-13	Trail cams help me scout while I'm working to pay for the ever increasing licence and tag costs associated with hunting.
Roger Henry	Idaho Falls, ID	2017-07-14	It affects my safety when hunting and could never be enforced even if it had any merit which it does not.
Dan Phillips	Meridian, ID	2017-07-15	There's nothing wrong with using trail cams or phones
Shawn Keller	Nampa, ID	2017-07-15	I am a disabled hunter and rely on radio and or cell phone for safety and help. I don't believe cameras help in taking of game. The person still has to hunt hard and pull the trigger!
Dj Allen	Blackfoot, ID	2017-07-17	I use trail cams for property use & hunting. I also carry a cell phone for work & for emergencies. If I shoot something I call friends & family to help get the animal out. I also take pictures to hang on the wall
Dave Hunter	Blackfoot, ID	2017-07-17	I strongly disagree with the ban off trail cameras and the use of cell phones when hunting. Electronics don't harvest the animals the hunter does. Thanks Dave,
Tyler Stroz	Boise, ID	2017-07-18	I hunt and use my trail cams to scout becuae i do not have time to constantly be in the hills
