

2021-2022 GRAY WOLF HUNTING & TRAPPING SEASONS & GENERAL RULES

WOLF

General Rules

Evidence of Sex: Must be left attached to the hide of any wolf taken. External evidence of sex (scrotum, penis, or testicles for males, or vulva for females) must be left naturally attached to the hide until the mandatory check requirement has been satisfied. Either sex may be taken.

Tags: No person may take more wolves than the number for which he or she possesses legal tags. Tags must be validated and securely attached immediately upon killing a wolf.

Big Game Feeding Sites: It is unlawful to hunt, trap or pursue wolves within one-half mile of any active Idaho Fish and Game big game feeding site.

Weapons Restrictions: Same as for other big game animals, see page 100. Except it is legal to dispatch a trapped gray wolf with a rimfire rifle, rimfire handgun or muzzle-loading handgun.

Electronic Calls: Electronic calls may be used to attract wolves for the purpose of harvest.

Telemetry: It is unlawful to take wolves with the aid of radio-telemetry.

Dogs: Use of dogs to attract or pursue wolves is prohibited.

Retrieving Meat: Hunters and trappers are not required to retrieve meat from a harvested wolf.

Wolves with Radio Collars: Biologists use radio collars to monitor wolf activity, assess population status and help determine future hunting opportunity. Hunters and trappers are required to return any radio collars when they check in their wolves.

Mandatory Check and Report: Any hunters or trapper killing a gray wolf must, **within 10 days of date of kill:**

- Present the skull and hide to an Idaho Fish and Game regional office or a Fish and Game conservation officer for removal and retention of a premolar tooth and to have the hide tagged with an official state export tag. No person, who does not possess a fur buyer or taxidermist license with appropriate import documentation, shall have, **except** during the open season and for 10 days after the close of the season, any raw gray wolf pelt that does not have an official state export tag attached (either Idaho's or another state's official export documentation).
- A hunter or trapper may authorize another person to comply with the mandatory report, provided that person has enough information to accurately complete the necessary form. Proxy statement required, see page 102.
- **Please thaw your gray wolf hide and skull before bringing it in for tagging. Staff members may not be able to check a frozen hide or skull.**

Fish and Game's headquarters office is not equipped to check in wolves. For regional office locations and phone numbers see page 4.

Nonresident Deer or Elk tags: A nonresident deer and elk tag, **excluding** a nonresident junior mentored tag, issued for

deer or elk may be used to take a black bear, mountain lion or gray wolf, during any open general season corresponding to the deer or elk tag when the season for the animal taken is also open. See page 112.

Wolf Hunting and Trapping Tags

Wolf Hunters: The statewide hunter harvest limit is 15 wolves per calendar year.

Certified Wolf Trappers: The statewide trapper harvest limit is 15 wolves per trapping season. Certified wolf trappers may use either a wolf hunting or trapping tag on any legally taken wolf when both hunting and trapping seasons are open in a unit.

Gray wolf trapping tags are valid for the entire trapping season, and expire on June 30 of that trapping year. Gray wolf hunting tags, however, are valid only for a single calendar year and expire on December 31 of that year.

Can a trapper use a wolf hunting tag on a trapped wolf?

A person possessing a valid trapping license, with a Wolf Trapper Education course validation, may use a valid wolf hunting tag on a trapped wolf, as long as the trapping occurs in a unit that has open wolf hunting and trapping seasons.

Can a trapper use a wolf trapping tag on a wolf not restrained by a trap?

A person possessing a valid trapping license, with a Wolf Trapper Education course validation, may use a valid wolf

trapping tag to harvest a wolf not restrained by a trap, as long as they also possess a valid hunting license and there is an open hunting and trapping season in the unit.

Harvest of trapped wolves and harvest of wolves not restrained by traps must comply with all wolf trapping and hunting rules, methods of take, and harvest reporting requirements.

Wolf Hunting Rules

Bait: Hunting big game over bait is illegal, except for black bears. Wolves may be taken incidentally to bear baiting. It is unlawful to hunt wolves within 200 yards of the perimeter of any designated dump or sanitary landfill.

Wolf Trapping Rules

A person must attend a wolf trapper education class and have a valid trapping license before trapping for wolves. Information on Wolf trapper classes is posted on the Fish and Game at idfg.idaho.gov/hunt/education.

Methods of take: Ground sets are the only legal set allowed for trapping gray wolves. Ground sets are defined as any foothold trap, body-gripping trap or snare originally set in or on the land, including any traps elevated up to a maximum of 36 inches above the natural ground level. Snares must be equipped with a break-away device OR cable stop incorporated within the loop of the snare. The inside jaw spread of foot-hold traps must not exceed nine (9) inches.

It is unlawful:

- To place any ground set on, across, or within ten (10) feet of the edge of any maintained unpaved public trail designated by any city, county, state, or federal transportation or land management agency on the most current official map of the agency.
- To place any ground set on, across, or within any public highway; EXCEPT ground sets may be placed underneath bridges and within and at culverts that are part of a public highway right-of-way. Public highway is defined as the traveled portion of, and the shoulders on each side of, any road maintained by any governmental entity for public travel, and includes all bridges, culverts, overpasses, fills, and other structures within the limits of the right-of-way of any such road.
- To place any ground set incorporating snare, trap, or attached materials within three hundred (300) feet of any designated public campground, trailhead, paved trail, or picnic area. Cage or box live traps are permitted within three hundred (300) feet of designated public campgrounds, trailheads, paved trails, or picnic areas as allowed by city, county, state, and federal law.
- To use any set within 30 feet of any visible bait.
- To use a dirt hole set with bait unless the bait remains covered at all times to protect raptors and other meat-eating birds from being caught accidentally.
- To trap wolves within 200 yards of the perimeter of any designated dump or sanitary landfill.
- To use any part of a domestic or wild origin game bird, big game, upland game, game fish or protected nongame wildlife, or to use live animals as bait or an attractant. See the following exceptions.

Except it is legal:

- To trap wolves beyond 30 feet of a naturally killed big game species as long as the carcass is left undisturbed.
- To trap wolves beyond 30 feet of a legally-salvaged road kill. For more information and to complete the required form to legally-salvage road kill visit our website at idfg.idaho.gov/species/roadkill or call a Fish and Game office, see page 4.
- To trap wolves beyond 30 feet of a wolf carcass with hide removed.

Trapped gray wolves may be dispatched any time of day or night.

Bait: Bait for trapping is any animal parts; except bleached bones or liquid scent.

Incidental Wolf Take: Trappers who do not have wolf tags, but accidentally capture a wolf, must release the wolf uninjured and must report the capture to an Idaho Fish and Game employee within 5 days of release. If you have difficulty releasing the wolf, please contact Fish and Game immediately.

Release of Non-Target Catches: Non-target species are defined as any species caught for which the season is closed or is in excess of the trappers limit. **All non-target species caught alive shall be released immediately.** If difficulty is encountered releasing a trapped fisher, wolverine, lynx, mountain lion, or wolf please contact Fish and Game immediately for assistance, see page 4.

Any trapper who catches a non-target species that is dead shall:

- Promptly record the date and species of the animal caught.
- Report the catch on the mandatory furtaker harvest report form.
- Remove the animal from the trap and take it into possession.
- Notify Fish and Game through the local conservation officer, a regional office, or the McCall office within 72 hours to make arrangements to transfer the animal to Fish and Game, see page 4.
- Fish and Game will reimburse trappers \$10 for each lynx, wolverine, bobcat, or fisher caught accidentally and turned in. A \$10 reward will also be paid for otters accidentally taken after the regional quota has been met.

Closed Statewide: There is no open season for fisher, kit fox, lynx or wolverine.

Traps

Checking Traps: No person shall place snares or traps for furbearing animals, predatory or unprotected wildlife except pocket gophers, most species of ground squirrels, and other unprotected rodents, without visiting every trap or snare once every 72 hours and removing any catch therein. Trappers acting under authority of the U.S. Department of Agriculture, Animal Plant Health Inspection Service, Wildlife Services are exempt from this rule.

Removing Trapped Wolves of Another: No person shall remove a wolf from the trap or snare of another except licensed trappers with a valid wolf tag issued to the individual removing the wolf, wolf trapper certification and written permission from the owner of the trap or snare.

Tags for Traps

All traps or snares, except those used for pocket gophers, ground squirrels or other unprotected rodents, shall have attached to the snare or the chain of every trap, a metal tag bearing in legible English the name and current address of the trapper; or a six-digit number assigned by Fish and Game as it appears on your trapping license adjacent to TRAPPER ID.

For additional trapping rules, see the current Upland Game, Furbearer & Turkey Seasons and Rules.

Be a Proud Trapper by being a Good Representative of trapping.

Trappers are encouraged to use warning signs to inform recreational users that traps or snares are in the area. Trappers may print off copies of the signs from idfg.idaho.gov/trap and post them near their trap lines. Using warning signs is voluntary.

The sign is a courtesy of Idaho Fish and Game in cooperation with the Idaho Trapper's Association.

| Wolf Hunting Seasons July 2021 - June 2022 | | |
|---|------------------|---|
| Units | Season Dates | Notes |
| 1, 2, 3, 5, 8, 8A, 10A, 11, 11A, 13, 14, 16, 48, 60, 60A, 61, 62A, 63, 63A, 64, 67, 68, 68A, 71, 73A, 74 | July 1 - June 30 | Private land <i>only</i> |
| | Aug 1 - June 30 | |
| 4, 4A, 6, 7, 9, 10, 12, 15, 16A, 17, 18, 19, 20, 20A, 21, 21A, 22, 23, 24, 26, 27, 28, 31, 33, 34, 35, 36, 38, 39, 40, 41, 42, 43, 44, 46, 54, 55, 57, 62, 65 | July 1 - June 30 | |
| 19A, 25 | Aug 1 - June 30 | |
| 29, 30, 30A, 32, 32A, 36A, 36B, 37, 37A, 47, 49, 50, 53, 56 | July 1 - June 30 | Motorized Hunting Rule Applies, See Pages 104 - 106 |
| 45, 51, 52, 52A, 58, 59, 59A, 66, 66A, 69, 70, 72, 73, 75, 76, 77, 78 | July 1 - June 30 | Private land <i>only</i> , Motorized Hunting Rule Applies, See Pages 104 - 106 |
| | Aug 1 - June 30 | Motorized Hunting Rule Applies, See Pages 104 - 106 |

Wolf Trapping Seasons July 2021 - June 2022
 For legal methods of take see page 81 unless otherwise noted.

| Units | Season Dates | Notes |

| 45, 52, 52A, 53, 63, 63A, 66A, 68, 68A, 70, 71, 72, 73, 73A, 74, 75, 76, 77, 78 | Oct 10 - Nov 14 | <i>Foothold traps only, EXCEPT snares may be used on Private land only</i> |
| | Nov 15 - Mar 31 | |
| 60, 61, 62, 62A | Nov 15 - Mar 31 | <i>Foothold traps only, EXCEPT snares may be used on Private land only</i> |
| 48, 49 | None | |

WOLF

Notes:

1. Only that portion of Unit 2 north of Highway 53 is open.
2. Only that portion of Unit 3 within the Little North Fork Coeur d'Alene River drainage is open
3. Only that portion of Unit 6 within the North Fork of the St Joe River drainage is open.
4. That portion of Unit 38 within Ada County **closed**.
5. That portion of Unit 39 within Ada County is **closed**, Trapping open in that portion of Unit 39 within Boise and Elmore Counties **only**.

IDAHO'S MANDATORY TRAPPER EDUCATION COURSE

Idaho trappers who purchase their first trapping license after June 30, 2011 are now required to attend a mandatory trapper education course before they can purchase an Idaho trapping license. Course is a mixture of classroom instruction and field experience.

- Learn the best tools, methods, and locations for safe and responsible trapping to avoid catching non-target animals, as well as how to minimize impacts on others.
- Cost at regional office: \$8.00
Online Registration Cost: \$9.75

For more information please visit:
idfg.idaho.gov/trap or contact your
nearest Fish and Game office.

TRAPPERS! MINIMIZE NON-TARGET CATCHES!

SNARES ARE AN IMPORTANT AND EFFECTIVE TOOL IN WOLF HARVEST MANAGEMENT

*Any person wishing to trap wolves must first participate
in an Idaho wolf trapper education/certification course.*

- **Diverters:** Diverters are optional. However diverters have been demonstrated to be effective in reducing non-target capture of moose. Consider including diverters in areas where moose are present.
- **Best tools to avoid non-target catches:**
 - **Site Location:** Avoid setting snare on trails that are used by many species. Look to use secondary and tertiary trails.
 - **Minimum Loop Stops:** The primary objective of the loop stop is to allow inadvertent foot catches of elk, deer, etc. to self-release.
 - **Breakaway Devices:** This is the most effective part of the snare set-up to minimize mortality of non-target elk and moose without reducing the effectiveness for catching wolves.

Understanding Predation Management in Idaho

WOLF

To fulfill its statutory responsibility, Idaho Fish and Game must efficiently and effectively manage all fish and wildlife, including predator species, to preserve, protect and perpetuate fish and wildlife for hunting, fishing and trapping.

When predation keeps game populations below objectives, and regulated harvest of predators is inadequate, a more aggressive approach is sometimes necessary.

FIRST...

Idaho Fish and Game biologists study all the possible causes of declining game populations. They look at the quality and quantity of habitat, weather, the health, survival rate, and reproductive rate of the game animals, harvest levels and the impacts of predators. They then undertake the actions most likely to increase game numbers. Such as: **Habitat Improvement, Changes in Hunting Seasons, Liberalize Trapping/Hunting Regulations for Predators.**

THEN...

When evidence shows predators are limiting game populations, a predator management plan is developed and implemented.

PREDATOR CONTROL ACTIONS MAY OCCUR:

- When regulated hunting, fishing, or trapping is not enough to reduce predator populations to resolve conflicts with people or reduce impacts on game populations.
- In areas where game populations are fragmented or isolated, or where introductions or transplants of potentially vulnerable wildlife have occurred.
- In areas where evidence shows predation to be a significant factor in game populations not meeting management goals.
- In wildlife management areas, especially those managed primarily to provide for production of species, critical winter range, and areas acquired and managed to help mitigate for wildlife losses elsewhere.

THE GOAL:

Reduction Not Elimination

The long-term intent is to reduce predator numbers enough to allow increased game numbers and harvest opportunities, and to maintain viable populations of all wildlife.
