All hunters must have a valid Idaho hunting license and the appropriate tags in their possession while hunting.

Hunting Hours

Big game animals may be hunted only from one-half hour before sunrise to one-half hour after sunset.

Definition of Hunting

Hunting means chasing, driving, flushing, attracting, pursuing, worrying, following or on the trail of, shooting at, stalking, or lying in wait for any wildlife whether or not such wildlife is then subsequently captured, killed, taken or wounded.

Age Limit

Only properly licensed youths 10 or older may hunt big game. A youth may buy a license when 9 to apply for a controlled hunt, but he or she must be 10 at the time of their hunt.

Bag and Possession Limits

A hunter may harvest only as many of a big game animal species as he or she has legal tags for in that year. Any animal harvested in a depredation hunt before a controlled hunt in the same unit for which the hunter holds a tag must be included under the limit and tagging rules of the controlled hunt tag. No person may take more than one animal per year during a controlled hunt season by using both a controlled hunt tag and a depredation tag.

Mandatory Harvest Reporting Requirements

Moose, Bighorn Sheep and Mountain Goat Hunters: Hunters must present moose antlers or mountain goat horns at Idaho Fish and Game regional offices, official check point or to a conservation officer within 10 days of the kill. Bighorn sheep horns must be presented to an Idaho Fish and Game regional office where horns will be permanently marked with a metal pin.

Waste of Game

Hunters are required to remove and care for the edible meat of big game animals, except black bears, mountain lions, and gray wolves. This includes the meat from hind quarters as far down as the hock, meat of the front quarters as far down as the knee and meat along the backbone which is the loin and tenderloin. It does not include meat of the head or neck, meat covering or between the ribs, internal organs, or meat on the bones after close trimming.

Wounding and Retrieving

No person shall wound or kill any big game animal without making a reasonable effort to retrieve it and reduce it to possession. It is unlawful to enter private property that is posted, cultivated or in irrigated pasture without landowner permission to retrieve game.

Electronic Calls

No electronic calls may be used to attract big game for the purpose of harvest, **except** such calls may be used to attract mountain lions, black bears and gray wolves in seasons where approved by Commission proclamation.

It is Unlawful To:

- Hunt or take any wildlife without a valid hunting license and without the required tag in possession.
- Party hunt, or help fill another person's tag.
- Shoot from or across the traveled portion, shoulders, or embankments of any road maintained by any government entity.

- To hunt any animal or bird by aid of a spotlight, flashlight or artificial light of any kind; **except** unprotected or predatory animals on private land after obtaining written permission and on public lands after obtaining the required permit from an Idaho Fish and Game Regional office. It is lawful to hunt raccoons on public lands without a permit if such taking is not in violation of state, county, or city laws, ordinances, or regulations.
- Hunt big game with dogs, **except** for black bear and mountain lion. See current Big Game Seasons and Rules brochure for details. The use of one blood-trailing dog controlled by leash during lawful hunting hours and within 72 hours of hitting a big game animal is allowed to track

wounded animals and aid in recovery. A hound hunter permit is not required.

- Transfer any license, tag, or permit or use another's license, tag, or permit.
- Acquire more controlled hunt tags per species than the bag limit for that species.
- Destroy or disturb traps, or remove any wildlife from traps belonging to others.

It is illegal for anyone to post public land that is not held under an exclusive control lease. Conviction of trespass on posted private property carries a mandatory one-year revocation of hunting/fishing/trapping licenses. Federal law prohibits unauthorized trespass on Indian-owned reservation lands for hunting, fishing, or trapping purposes.

Bag and Possession Limits

Moose: No person may harvest more than one antlered and one antlerless moose in Idaho during their lifetime, **except** Super Hunt tag winners and left-over tag holders may harvest moose regardless of any previous harvest of moose in Idaho.

Lawfully harvested wildlife parts – **except** edible meat from game animals – may be purchased, bartered or sold when accompanied by a written statement showing said wildlife was lawfully harvested. If black bear, mountain lion or gray wolf parts – excluding tanned or finished rugs or mounts – are sold or bartered, a signed written statement showing the taker's name, address, license and tag numbers, date and the location of kill must be provided to the buyer. Buyers must submit completed transaction statements to Idaho Fish and Game within 10 days of sale.

Wildlife parts legally harvested outside of Idaho may be possessed and sold in Idaho if such sale is not prohibited in Idaho or the state, province or country where harvested, or by federal law.

It is unlawful to possess any wildlife or parts that were killed, taken or obtained unlawfully.

Possession and Sale of Wildlife Found Dead

Protected species of wildlife that have died of natural causes are considered property of the state and may not be possessed.

However, big game animal parts, such as hides, horns – **except** horns from bighorn sheep – bones, antlers and teeth, of deer, elk, moose, pronghorn, mountain goat, black bear, mountain lion and gray wolves that have died of natural causes, including legally salvaged road kill, may be recovered, possessed, purchased, bartered, sold or transferred. If sold, black bear and mountain lion parts must be accompanied by documentation on how they were obtained.

Legally salvaged road kill may not be used as bait for hunting or trapping, **except** it may be used as bait for trapping gray wolves statewide. For more information and to complete the required form to legally-salvage road kill please visit our website at idfg.idaho.gov/species/roadkill or call a Fish and Game office.

Edible meat from game animals taken from the wild may not be purchased, bartered or sold.

Recovery, Possession & Sale of Bighorn Sheep Horns

Horns from bighorn sheep that have died of natural causes may be recovered and possessed. All bighorn sheep horns must be presented to Fish and Game for marking with a permanent pin within 30 days of recovery. It is unlawful to sell, barter or purchase bighorn sheep horns obtained under these circumstances, or to transfer ownership of recovered bighorn sheep horns without a permit from Fish and Game.

Predatory and Unprotected Wildlife

Coyotes, skunks, weasels, jackrabbits, raccoons and starlings are classified by Idaho law as predatory. Eurasian collared-doves, English sparrows and feral pigeons are unprotected. Predatory and unprotected wildlife may be taken in any number year-round and at any time by holders of the appropriate valid Idaho hunting or trapping licenses, provided such taking is not in violation of state, county or city laws, ordinances, rules or regulations.

Closed Seasons

There are no open seasons for caribou, bison (buffalo), grizzly bear or lynx. With the exception of bison, these are threatened or endangered species and are protected by state and federal laws.

Please report any suspected sightings of lynx to the U.S. Fish and Wildlife Service in Boise at 208-378-5243.

Protected Nongame and Threatened or Endangered Species

No person shall take or possess wildlife species classified as Protected Nongame or Threatened or Endangered at any time or in any manner, **except** as provided in Sections 36-106(e)5 and 36-1107, Idaho Code, by Commission Regulation, or IDAPA 13.01.10.100.06b.

Anyone bringing livestock or hunting dogs into the state should call the Idaho Department of Agriculture, 208-332-8540, for health certificate requirements.

Weed-Free Hay Requirement

On Bureau of Land Management public lands, national forest lands or Idaho Fish and Game wildlife management areas, anyone using pack animals or straw in their camp must only use weed-free certified hay, forage or straw to prevent the spread of noxious weeds. To obtain an up-to-date list of local growers and vendors with noxious weed-free certified forage for sale, call the Department of Agriculture at 208-332-8592, or check for more information at: <http://invasivespecies.idaho.gov/weed-free-forage>

Prescribed Burning

Prescribed burning uses fire to restore forests and rangelands and improve conditions for wildlife. Prescribed fire may be planned in your hunting unit. Stay informed by contacting your local land management agencies.

Wildlife Violator Compact

Many states including Idaho have entered into a “Wildlife Violator Compact.” If your hunting, fishing, or trapping license is revoked by any of the member states, all the remaining states will revoke the same license or privilege for the same time period. In addition, any nonresident who does not satisfy the requirements of an Idaho citation will have his or her hunting and fishing license revoked in their home state until those requirements are satisfied. For information on the Compact and a list of member states, go to idfg.idaho.gov.

Boundary Waters Reciprocal Agreement

The Oregon-Idaho boundary water reciprocal agreement recognizes the legal right to fish, hunt or trap in the waters or on the islands of the Snake River where said river forms the boundary line between the state of Oregon and the state of Idaho by the holder of either a valid Oregon or Idaho license in accordance with the laws and rules of the respective state.

TAGGING AND TRANSPORTING GAME

How to Properly Validate a Big Game Tag

Hunters must completely remove two notches indicating month and day of kill. - - - - -

Note: Immediately after the kill, the triangles denoting the month and day must be cleanly and completely removed. Tearing, slicing or punching the tag is not legal.

Proper Tagging and Transportation of Animals and Meat

Immediately after any moose, bighorn sheep or mountain goat has been killed, the hunter harvesting the animal must comply with the following regulations regarding the proper tagging, transportation and shipment of a carcass:

The appropriate big game tag must be validated and securely attached to the animal **immediately after the kill**. The validated tag must remain attached to the **largest portion of edible meat to be retained** until the meat is processed and reaches the final place of storage for personal consumption.

Proper Location of Tag

Attach to the largest portion of the edible meat to be retained.

Any license, tag or permit that is defaced or altered is invalid from the date and time of issue. It is unlawful to use or attempt to use any license that has been defaced or altered.

Transportation Issues

Any person who transports any wildlife for another person or receives any wildlife for cleaning, processing, as a gift, or for storage must have a written proxy statement signed by the person who killed the animal specifying the numbers and kinds of wildlife; date taken; hunter's name and address; and license, tag and permit numbers. The proxy form is provided below for convenience.

Preserving Evidence of Sex

Moose: The antlers of a bull moose must be carried out with the head. The entire head of an antlerless male moose (with antlers less than 6 inches long) killed during an antlerless-only season may be left naturally attached to the whole carcass or to a front quarter until the carcass reaches the final place of storage or consumption. If the head is removed, the sex organs must remain naturally attached to the carcass until it reaches the final place of storage or personal consumption. Plus, the antlers must accompany the carcass while in transit.

Bighorn Sheep: Any hunter taking a bighorn sheep ram must leave that portion of the skull plate containing the upper one half of the eye socket naturally attached to both of the horns until after the horns have been pinned by Fish and Game.

Mountain Goat: Hunters must pack out the head and horns. If the head is removed from the carcass, a portion of the sex organs must remain naturally attached to the carcass until it reaches the final place of storage or consumption.
